Todd Speidell

Viktor Frankl Anna Redsand, 2006 Details the life of Viktor Frankl, a Holocaust survivor and the author of *Man's Search for Meaning*, who, after losing his family, used his work to overcome his grief and developed a new form of psychotherapy that encouraged patients to live for the future, not in the past.

Christianity and Psychiatry John R. Peteet, H. Steven Moffic, Ahmed Hankir, Harold G. Koenig, 2021-09-02 This book aims to help readers appreciate the many-faceted relationship between Christianity, one of the world's major faith traditions, and the practice of psychiatry. Chapter authors in this book first consider challenges posed by historical antagonisms, church-based mental health stigma, and controversy over phenomena such as hearing voices. Next, others explore both how Christians often experience conditions such as mood and psychotic disorders, disorders in children and adolescents, moral injury and PTSD, and ways that their faith can serve as a resource in their healing. Twelve Step spirituality, originally informed by Christianity, is the subject of a chapter, as are issues raised for Christians by disability, death and dying. A set of chapters then focuses on the state of integration of Christian beliefs and practices into psychotherapy, treatment delivery, educational programming, clergy/clinician collaboration, and treatment by a non-Christian psychiatrist. Finally, there are chapters by a mental health professional who has been a patient, a Jewish psychiatrist, a Muslim psychiatrist knowledgeable about Christianity and psychiatry in the Muslim majority world, and a Christian psychiatrist. These chapters provide context, diversity and personal perspectives. *Christianity and Psychiatry* is a valuable resource for mental health professionals seeking to understand and address the particular challenges that arise when caring for Christian patients.

An Introduction to Religious and Theological Studies, Second Edition Cyril Orji, 2021-01-07 *An Introduction to Religious and Theological Studies* walks students through topical issues to be encountered in the study of the Abrahamic religions: Judaism, Christianity, and Islam as these religions encounter other religions in the context of the wider ecumenism. The text is written from a Christian point of view and aims at helping students understand that to be Christian is to be ecumenical. African Traditional Religions (ATRs) has been included in this survey to provide background for the religious traditions and cultures of peoples of Africa as Christianity moves inexorably southward. The book has been written with undergraduate general education students in mind—including meeting the needs of those in seminaries and theological institutes.

Positive Psychology in Christian Perspective Charles Hackney, 2021-03-16 Positive psychology is about fostering strength

and living well—about how to do a good job at being human. Charles Hackney connects this still-new movement to foundational concepts in philosophy and Christian theology. He then explores topics such as subjective states, cognitive processes, and the roles of personality, relationships, and environment.

Psychology & Christianity Gary R. Collins, Eric L. Johnson, Stanton L. Jones, 2000-01-01 This collection of essays edited by Eric Johnson and Stanton Jones offers four different models for the relationship between Christianity and psychology.

Handbook of Japanese Christian Writers Mark Williams, Van Gessel, Yamane Michihiro, 2025-10-01 Although a century and a half of Christian proselytizing has only led to the conversion of about one percent of the Japanese population, the proportion of writers who have either been baptized or significantly influenced in their work by Christian teachings is much higher. The seventeen authors examined in this volume have all employed themes and imagery in their writings influenced by Christian teachings. Those writing between the 1880s and the start of World War II were largely drawn to the Protestant emphasis on individual freedom, though many of them eventually rejected sectarian affiliation. Since 1945, on the other hand, Catholicism has produced a number of religiously committed authors, led by figures such as Endo Shusaku, the most popular and influential Christian writer in Japan to date. The authors discussed in these essays have contributed in a variety of ways to the indigenization of the imported religion.

Edification-Journal of the Society of Christian Psychology Todd Speidell, 2010-01-20 THE RAY S. ANDERSON COLLECTION by WIPF & STOCK PUBLISHERS Ray Sherman Anderson (1925-2009) worked the soil and tended the animals of a South Dakota farm, planted and pastored a church in Southern California, and completed a PhD degree in theology with Thomas F. Torrance in New College Edinburgh. He began his professional teaching career at Westmont College, and then taught and served in various administrative capacities at Fuller Theological Seminary for thirty-three years (retiring as Professor Emeritus of Theology and Ministry). While teaching at Fuller, he served as a parish pastor, always insisting that theology and ministry go hand-in-hand. The pastoral theologian who began his teaching career in middle age penned twenty-seven books. Like Karl Barth, Prof. Anderson articulated a theology of and for the church based on God's own ministry of revelation and reconciliation in the world. As professor and pastor, he modeled an incarnational, evangelical passion for the healing of humanity by Jesus Christ, who is both God's self-revelation to us and the reconciliation of our broken humanity to the triune God. His gift of relating suffering and alienated humans to Christ existing as community (Dietrich Bonhoeffer) is a recurrent motif throughout his life, ministry, and works. The Ray S. Anderson Collection comprises books by Ray Anderson, an introductory text to his theology by Christian D. Kettler, two edited volumes that celebrate his distinguished academic career (Incarnational Ministry: The Presence of Christ in Church, Society, and Family and On Being Christian . . . and Human), and a reprint of an Edification volume that focuses on Ray Anderson's contributions to the field of Christian Psychology. A word of gratitude is due to The Society of Christian Psychology and its parent organization, The American

Association for Christian Counselors, for their permission to make the E□□ification issue available in book form. Jim Tedrick of Wipf and Stock Publishers deserves a special word of thanks for publishing many of Ray Anderson's books and commissioning this collection of works to continue his legacy. Todd H. Speidell, General Editor

Personality and Christian Faith Lowell G. Colston, Paul Emanuel Johnson, 1972 Alienation, the deadening of man's sensitivity to man, is a deep, fundamental problem of modern life. According to Drs. Colston and Johnson the solution lies deeper than in the institutional structure; it lies within the individual. They believe the Christian gospel speaks to the alienated condition of man and that it affirms the value of personal creativity and responsibility as prerequisites to healing his estrangement. Here they present a unified description of personality development and relate it to achieving mature personhood from a Christian perspective. they discuss the causes of alienation/fragmentation and some of the theories and methods intended for overcoming it. They trace psychic and social interactions that affect persons in their struggle for creative growth—focusing upon the crises and demands in each stage of life. And they examine ways in which people can relate creatively to one another to bring vitality to personal and social transformations. -Publisher.

Viktor Frankl's Search for Meaning Timothy Pytell, 2015-10-01 □ “[T]his is a scholarly, commendable biography and intellectual history. Lay readers will be challenged; psychologists and historians will be grateful.”—Library Journal, starred review First published in 1946, Viktor Frankl’s memoir *Man’s Search for Meaning* remains one of the most influential books of the last century, selling over ten million copies worldwide and having been embraced by successive generations of readers captivated by its author’s philosophical journey in the wake of the Holocaust. This long-overdue reappraisal examines Frankl’s life and intellectual evolution anew, from his early immersion in Freudian and Adlerian theory to his development of the “third Viennese school” amid the National Socialist domination of professional psychotherapy. It teases out the fascinating contradictions and ambiguities surrounding his years in Nazi Europe, including the experimental medical procedures he oversaw in occupied Austria and a stopover at the Auschwitz concentration camp far briefer than has commonly been assumed. Throughout, author Timothy Pytell gives a penetrating but fair-minded account of a man whose paradoxical embodiment of asceticism, celebrity, tradition, and self-reinvention drew together the complex strands of twentieth-century intellectual life. From the introduction: At the same time, Frankl’s testimony, second only to the Diary of Anne Frankin popularity, has raised the ire of experts on the Holocaust. For example, in the 1990s the United States Holocaust Memorial Museum in Washington purportedly refused to sell *Man’s Search for Meaning* in the gift shop.... During the late 1960s and early 1970s Frankl became very popular in America. Frankl’s survival of the Holocaust, his reassurance that life is meaningful, and his personal conviction that God exists served to make him a forerunner of the self-help genre.
