Guitar World Presents Pink Floyd Alan Di Perna,Jeff Kitts,Brad Tolinski,2002-06 Pink Floyd's extraordinary career has now spanned four decades, from their early days pushing the cutting edge of British psychedelic pop to their massive successes with moody, conceptual masterpieces like Dark Side of the Moon, Wish You Were Here and The Wall, to their acrimonious split with Roger Waters and finally, the immense stadium tours that followed. Throughout, Pink Floyd has influenced everyone from David Bowie to Nine Inch Nails to Radiohead, and their albums continue to have timeless appeal. Now, premier interview journalist Alan di Perna and the editors of Guitar World have collected penetrating interviews and insights into Roger Waters, David Gilmour, Nick Mason, and Rick Wright to create a vivid portrait of a notoriously reclusive band.

Full Gospel, Fractured Minds? Rick M. Nañez,2005 Rick Nañez outlines the anti-intellectual pattern that has been a part of the Pentecostal-Charismatic movement and demonstrates the God-given responsibility all believers have to use their minds to understand and defend the Bible as God's Word.

Challenging Status Quo Retrenchment Curry Malott,Brad J. Porfilio,Tricia M. Kress,2013-03-01 This year (2012) marks ten years of No Child Left Behind and the U.S. federal government's official designation of what qualifies as "scientifically based research" (SBR) in education. Combined, these two policies have resulted in a narrowing of education via standardization and high stakes testing (Au, 2007) as well as the curtailment of forms of inquiry that are deemed legitimate for examining education (Wright, 2006). While there has been much debate about the benefits and limitations of the NCLB legislation (e.g., Au, 2010) and SBR (e.g., Eisenhart & Towne, 2003), critical researchers have held strong to their position:

The reductionistic narrowing of education curricula and educational research cannot solve the present and historical inequities in society and education (Shields, 2012). Contrarily, reductionism (via standardization and/or methodological prescription) exacerbates the challenges we face because it effectively erases the epistemological, ontological, and axiological diversity necessary for disrupting hegemonic social structures that lie at the root of human suffering (Kincheloe, 2004). Not only has NCLB proven incapable of overcoming inequalities, but there seems to be sufficient evidence to suggest it was never really intended to eliminate poverty and human suffering. That is, it seems NCLB, despite its lofty title and public discourse, is actually designed to advance the agenda of handing public education over to for-profit corporations to manage and privatize thereby intensifying the capitalist class' war on those who rely on a wage to survive (Malott, 2010). In the present ethos, reductionism upholds and retrenches the status quo (i.e. the basic structures of power), and it puts at risk education and educational research as means of working toward social justice (Biesta, 2007). Because social justice can be interpreted in multiple ways, we might note that we understand critical social justice as oriented toward action and social change. Thus, critical education and research may have potential to contribute to a number of social justice imperatives, such as: redistributing land from the neo-colonizing settler-state to Indigenous peoples, halting exploitative labor relations and hazardous working conditions for wage-earners, and engaging in reparations with formerly enslaved communities.

Foundations Matthew Etherington, 2025-05-16 This book is for undergraduate and graduate students, teachers, school administrators, organizational leaders, theologians, researchers, and education practitioners. It uncovers topics exclusive to education in general, particularly Christian education, while highlighting the experiences and perspectives of individual scholars in various contexts. This tenth-anniversary volume focuses on language, community, agency, and identity topics. Each chapter ends with discussion questions that offer the reader freedom of thought and expression and an opportunity to engage with others, preferably in smaller groups.
