*Como Viver do Day Trading* Andrew Aziz, 2020-10-01 O day trading é cada vez mais popular. Mas, ao contrário do que muitos tentam vender, não é um jogo de póquer nem um hobby onde procuramos a sorte. Para ter sucesso no day trading precisamos das ferramentas certas e precisamos de estar motivados, trabalhar arduamente e ser resilientes. Não há outra maneira de ganhar a vida no day trading. No livro, descrevo os fundamentos do day trading, explico porque é diferente de outros estilos de negociação, e explico as estratégias que muitos traders usam todos os dias. Procurei fazer um livro curto e focado no que é fundamental aprender. Eu acordo cedo, saio de casa para correr, tomo banho, visto-me e tomo o pequeno-almoço. Ligo a minha “estação” bem antes dos mercados. Estou desperto. Estou alerta. Estou motivado quando me sento e começo a trabalhar na lista de ações que escolhi para observar naquele dia. Acredite que as rotinas e a disciplina pagarão dividendos inestimáveis se as respeitar. Se é um day trader principiante, vai encontrar o que precisa neste livro. Mas encontrará também as ferramentas para ir aprendendo todas as metodologias necessárias para ser um day trader profissional com a sua própria estratégia. Incluo no livro as estratégias como: • Negociação de padrões ABCD • Estratégias de momentum do bull flag • Estratégias top reversal (inversão superior) • Estratégias bottom reversal (inversão inferior) • Estratégias de tendência de média móvel • Estratégia VWAP • Estratégias de suporte ou de resistência Para cada estratégia, explico: • Como encontrar uma ação de stock in play • Que indicadores estou a usar nos meus gráficos • Quando é que entro nas negociações • Quando eu é que eu saio das transações (ter lucro) • Qual é o meu stop loss Use as ferramentas, esteja motivado, trabalhe arduamente e seja resiliente. Assim terá controlo sobre a sua vida e sobre os seus investimentos.

*How to Day Trade for a Living* Andrew Aziz, 2016-07-28 Very few careers can offer you the freedom, flexibility and income that day trading does. As a day trader, you can live and work anywhere in the world. You can decide when to work and when not to work. You only answer to yourself. That is the life of the successful day trader. Many people aspire to it, but very few succeed. Day trading is not gambling or an online poker game. To be successful at day trading you need the right tools and you need to be motivated, to work hard, and to persevere. At the beginning of my trading career, a pharmaceutical company announced some positive results for one of its drugs and its stock jumped from \$1 to over \$55 in just two days. Two days! I was a beginner at the time. I was the amateur. I purchased 1,000 shares at \$4 and sold them at over \$10. On my very first beginner trade, I made \$6,000 in a matter of minutes. It was pure luck. I honestly had no idea what I was doing. Within a few

weeks I had lost that entire \$6,000 by making mistakes in other trades. I was lucky. My first stupid trade was my lucky one. Other people are not so lucky. For many, their first mistake is their last trade because in just a few minutes, in one simple trade, they lose all of the money they had worked so hard for. With their account at zero, they walk away from day trading. As a new day trader you should never lose sight of the fact that you are competing with professional traders on Wall Street and other experienced traders around the world who are very serious, highly equipped with advanced education and tools, and most importantly, committed to making money. Day trading is not gambling. It is not a hobby. You must approach day trading very, very seriously. As such, I wake up early, go for a run, take a shower, get dressed, eat breakfast, and fire up my trading station before the markets open in New York. I am awake. I am alert. I am motivated when I sit down and start working on the list of stocks I will watch that day. This morning routine has tremendously helped my mental preparation for coming into the market. Whatever your routine is, starting the morning in a similar fashion will pay invaluable dividends. Rolling out of bed and throwing water on your face 15 minutes before the opening bell just does not give you sufficient time to be prepared for the market's opening. Sitting at your computer in your pajamas or underwear does not put you in the right mindset to attack the market. I know. I've experienced all of these scenarios. In *How to Day Trade for a Living*, I will show you how you too can take control over your life and have success in day trading on the stock market. I love teaching. It's my passion. In this book, I use simple and easy to understand words to explain the strategies and concepts you need to know to launch yourself into day trading on the stock market. This book is definitely NOT a difficult, technical, hard to understand, complicated and complex guide to the stock market. It's concise. It's practical. It's written for everyone. You can learn how to beat Wall Street at its own game. And, as a purchaser of my book, you will also receive a membership in my community of day traders at [www.vancouver-traders.com](http://www.vancouver-traders.com). You can monitor my screen in real time, watch me trade the strategies explained in his book, and ask questions of me and other traders in our private chat room. I invite you to join me in the world of day trading. I'm a real person who you can connect with. I'm not just a photograph here on the Amazon site. I love what I do. You can follow my blog post under Author Updates on my Author page on Amazon. It's honest. You'll see I lose some days. You can read the reviews of my book.
