If you're looking for the original book, please use the following link: <http://amzn.to/2ykHP0T>) Charm, persuasion, and the ability to create illusions are some of the many dazzling gifts of a Seducer, the compelling figure who is able to mislead, manipulate and give pleasure all at once. Seduction is not really just about sex; when raised to the level of art, it becomes an indirect and subtle form of power, which can win elections, topple empires, and enslave great minds. The tactics provided by this book are equally applicable to social and political seductions. The Art of Seduction by Robert Greene

unearths the two sides of seduction: the characters and the process. The first part of the book gets to the heart of each seductive character and its main tactics, strengths and weaknesses. The seducer's many faces include: the Siren, the Rake, the Ideal Lover, the Dandy, the Natural, the Coquette, the Charmer, the Charismatic, and the Star. Discover who you or your pursuer most resembles. Learn, too, the pitfalls of the anti-Seducer. In addition, this section of the book provides instruction on how to identify each potential victim by type, and how to pick the one that is perfect for you. In part II, immerse yourself in the 24 maneuvers and strategies of the seductive process, the ritual by which a seducer gains control over their target. These maneuvers will guide you through the seduction, providing cunning, amoral instructions to help you master this subtle, elusive, all-pervasive form of power. Just as equally important as *The 48 Laws of Power*, *The Art of Seduction* is an indispensable primer of persuasion that offers the best lessons on how to get what you want from whomever you want and how to prevent yourself from falling under someone else's spell. Presentations in Everyday Life Isa N. Engleberg, John A. Daly, 2004-02 *Presentations in Everyday Life* began with one simple question: What do real people want and need to know about presentation speaking? The Second Edition continues to provide practical, time-tested answers to this question using the most current communication theory and research available. The authors employ a straightforward approach to appeal to the diverse student body enrolled in introductory public speaking courses. They also place a solid emphasis on the how-tos of selecting the best strategies and developing the necessary skills to become effective speakers. This edition maintains a flexible modular configuration while adding an updated design and enhanced art to help reinforce understanding of concepts covered in the text. New! A greater emphasis on cultural diversity speaks to a wide range of students and adult learners. New! *Presentation Principles in Action* provides students with a hands-on application of chapter concepts through class exercises, questionnaires, speaking assignments, and assessment instruments. Opening Questions offer a road map to each chapter. The questions are then answered in context in the chapter summary. Mini-modules give step-by-step instruction on presentation techniques often glossed over in other texts. Topics range from microphone use to how to deal with a hostile audience. Real World, Real Speakers--stories told by the authors, presenters, and professionals--illustrate chapter principles and strategies in action while offering honest portraits of potential speaking experiences. FAQs provide short answers to questions students have asked the authors, such as Can I fake charisma? and What should I do with my hands? Tips drawn from the authors' own experiences provide insider hints such as Never tell your audience you're nervous and Present more message and less information.
