FRANCESCO. PREDARI

Instrumental Music in Late Eighteenth-Century Naples Anthony R. DelDonna, 2020-12-17 The music of early modern Naples and its renowned artistic traditions remain a fruitful area for scholars in eighteenth-century studies. Contemporary social, political, and artistic conditions had stimulated a significant growth of music, musicians and culture in the Kingdom of Naples from the beginning of the seventeenth century. Although eighteenth-century Neapolitan opera is well documented in scholarship, historians have paid much less attention to the simultaneous cultivation of instrumental genres. Yet the culture of instrumental music grew steadily and by its end became an exclusive area of focus for the royal court, a remarkable departure from past norms of patronage. By bridging this gap, Anthony R. DelDonna brings together diverse fields, including historical musicology, music theory, Neapolitan and European history. His book investigates the wide-ranging role of instrumental genres within late eighteenth-century Neapolitan culture and introduces readers to new material, including recently discovered instrumental works of Paisiello, Cimarosa and Pleyel.

Local Governance in Multi-Layered Systems Matteo Nicolini, Alice Valdesalici, 2023-11-10 The book provides a comprehensive analysis of local government in federations. It fills the gap in current legal research and positions local government in federal studies through the lenses of comparative law, adopting a more nuanced approach to local government. The book considers the shortcomings between the black-letter constitution and its operational rules. Whether (and how) the regime of local government is implemented is more relevant than its formal-but-ineffective recognition. The comparative survey discloses the variety local institutions take in different federal contexts. Divided into three parts, the book comprises chapters investigating local government in systems that, to various degrees, have been examined and

classified as federal. Scholars throughout the world have examined the federal-local connection in aggregative federations, (the USA, Canada, Switzerland, Germany, Australia, and Austria), devolutionary ones (Belgium, Bosnia Herzegovina, Italy, Spain, the UK, Argentina, Brazil, Mexico, and the Russian Federation), as well as in federations beyond the West, where federalism-as-a-colonial-legacy has undergone a process of reinvention affecting the federal-local connection (South Africa, Ethiopia, India, Nigeria, Comoros, Democratic Republic of Congo, Nepal, Palau, Federated States of Micronesia; St. Kitts and Nevis; United Arab Emirates; and Pakistan).
