The Name in the Stone and Other Essays Gerard Van der Leun, 2024-11

The Psychology of the Internet Patricia Wallace, 2001-03-19 Delves into the psychological aspects of the virtual world to understand why humans often behave differently in cyberspace.

In the Fascist Bathroom Greil Marcus, 1999 Was punk just another moment in music history, a flash in time when a group of young rebels exploded in a fury of raw sound? Greil Marcus delves into the afterlife of punk as a much richer phenomenon and as a form of artistic and social rebellion.

@**heaven** Kim Hastreiter, 2015-05-14 1994, northern California. The Internet is just emerging from its origins in the military and university research labs. Groups of idealistic technologists, recognizing its potential as a tool for liberation and solidarity, are working feverishly to build the network. In the early chat rooms of one such gathering, soon-to-become-famous as The WELL, a Stanford futurist named Tom Mandel creates a new conference. In a topic headed "Local Bug Report" he asks for advice from fellow online participants about how he might shake off a persistent hacking cough. A few weeks into the conversation it emerges that Mandel's illness is something serious. Within six months he is dead. This astonishing and deeply moving book is an edited version of the exchanges that took place on The WELL in the months leading up to the death of Mandel. It traces the way an innocuous health topic morphed into a dramatic chronicle of terminal illness and the complicated and emotional issues that surrounded it. A cast of articulate and savvy participants offer their advice and love to Mandel, supporting both him and each other as the trauma unfolds. At the center of their back-and-forth is Mandel himself, in a voice that is irascible, intelligent, never sentimental, and, above all, determined to stay in the conversation to the end. With an introduction by Paper editor Kim Hastreiter, who followed the exchanges on The WELL as they happened and was so moved that she printed and filed away a copy, @heaven opens a window onto the way the Internet functioned in its earliest days. In contrast to the trolling and take-downs of today's online discourse, this electronic chronicle of a death foretold reminds us of the values of kinship and community that the Internet's early pioneers tried to instill in a system that went on to take over the world.

CNN's Tailwind Tale Jerry Lembcke, 2003 In this book the author explores where reporting went amiss and what we need to understand to ensure history doesn't repeat itself.

Lipstick Traces Greil Marcus, 1990 Greil Marcus, author of *Mystery Train*, widely acclaimed as the best book ever written about America as seen through its music, began work on this new book out of a fascination with the Sex Pistols: that scandalous antimusical group, invented in London in 1975 and dead within two years, which sparked the emergence of the culture called punk. "I am an antichrist!" shouted singer Johnny Rotten somewhere in the world of pop music did that come from? Looking for an answer, with a high sense of the drama of the journey, Marcus takes us down the dark paths of counterhistory, a route of blasphemy, adventure, and surprise. This is no mere search for cultural antecedents. Instead, what Marcus so brilliantly shows is that various kinds of angry, absolute demands on society, art, and all the governing structures of everyday life seem to be coded in phrases, images, and actions passed on invisibly, but inevitably, by people quite unaware of each other. Marcus lets us hear strange yet familiar voices: of such heretics as the Brethren of the Free Spirit in medieval Europe and the Ranters in seventeenth-century England; the dadaists in Zurich in 1916 and Berlin in 1918, wearing death masks, chanting glossolalia; one Michel Mourre, who in 1950 took over Easter Mass at Notre-Dame to proclaim the death of God; the Lettrist International and the Situationist International, small groups of Paris-based artists and writers surrounding Guy Debord, who produced blank-screen films, prophetic graffiti, and perhaps the most provocative social criticism of the 1950s and '60s; the rioting students and workers of May '68, scrawling cryptic slogans on city walls and bringing France to a halt; the Sex Pistols in London, recording the savage *Anarchy in the U.K.* and *God Save the Queen*. Although the Sex Pistols shape the beginning and the end of the story, *Lipstick Traces* is not a book about music; it is about a common voice, discovered and transmitted in many forms. Working from scores of previously unexamined and untranslated essays, manifestos, and film scripts, from old photographs, dada sound poetry, punk songs, collages, and classic texts from Marx to Henri Lefebvre, Marcus takes us deep behind the acknowledged events of our era, into a hidden tradition of moments that would seem imaginary except for the fact that they are real: a tradition of shared utopias, solitary refusals, impossible demands, and unexplained disappearances. Written with grace and force, humor and an insistent sense of tragedy and danger, *Lipstick Traces* tells a story as disruptive and compelling as the century itself.

Where Demented Went Rory Hayes, 2008-01-01 This book, the first retrospective of Hayes' career ever published, features the best of his underground comics output alongside paintings, covers, and artifacts rarely seen by human eyes—as well as astounding, previously unprinted comics from his teenage years and movie posters for his numerous homemade films. *The Comics and Art of Rory Hayes* also serves as a biography and critique with a memoir of growing up with Rory by his brother, the illustrator Geoffrey Hayes, and a career-spanning essay by Edward Pouncey. Also included is a rare interview with Hayes himself. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 13.9px Arial; color: #424242}

Visions Myron C. Truman, 1999-09 *Visions* presents readings organized by themes that stimulate readers to critically evaluate recent changes in our culture and society brought about by technological and business innovations. The readings in

the book direct readers to question whether the rapid changes to our reality are all positive and whether society and culture is losing some of its basic values by so readily embracing change. The main issue running throughout most of the readings and assignments is the conflicting, often competing, roles that the lure of complex technologies and the comfort of simpler, older ones play in all our lives. Six thematic units contain readings separated into smaller units that enable students to focus on a limited topic, to read a few selections on that topic, and to write analytically in response to differing viewpoints. Extensive pedagogy includes reading headnotes with pre-reading questions, aphorisms that provide occasions for short writing assignments in each unit, and writing assignments that consider each reading cluster together. For beginning composition writers.

Public Morality and Liberal Society Harry M. Clor, 1996 Departing from the usual discussions of public morality, and considering the moral interests of the community as a whole, this book is a contribution to this intensely debated theme and considers how public morality can be justified in theory and accommodated in practice in a liberal society.

Media Journal Joseph D. Harris, Jay Rosen, Gary Calpas, 1999 In this book we ask students to do three things: (1) To keep a media journal in which they reflect on the uses they make of the voices and images of popular culture; (2) to read and respond to the work of other media critics, to test their own views and experiences against those of the writers included in these pages, and (3) to try their hands at writing media criticism themselves. All three kinds of work ask students to find and write about texts from the media culture around them, to think critically about what they see and hear on their television sets and radios, in magazines and newspapers, on city streets and shopping malls, at the movies, and at concerts and clubs. To put it another way, we believe that a book such as this can provide only some of the materials for a course on writing about popular culture, that the remaining materials must always come from the media themselves and the experiences students have with them. Our aim is not to inculcate students with a certain set of critical methods or terms or to introduce them to the academic study of popular culture, but to offer them opportunities to rethink and write about their own experiences with the media, to come to their own understandings of our common culture.

Keeping Track of Our Changing Environment from Rio to Rio + 20 (1992-2012). United Nations Environment Programme, 2011 This innovative publication, which is based on statistical evidence, illustrates major global environmental, economic and social changes since 1992. The numbers tell the story of how, in twenty years, the world has changed more than most of us could have ever imagined. The report has been produced within the framework of UNDP's fifth Global Environment Outlook assessment report, which will be published in May 2012 in advance of Rio+20.

Control and Freedom Wendy Hui Kyong Chun, 2006 Wendy Hui Kyong Chun explores the current political & technological coupling of freedom with control by tracing the emergence of the Internet as a mass medium. She argues that the parallel myths of the Internet as total freedom/total control stem from our reduction of political problems into technological ones.
