**Auditoría del sistema APPCC** Luís Couto Lorenzo,2019-12-19 El sistema APPCC (Análisis de Peligros y Puntos de Control Crítico) es el instrumento más valioso con el que cuentan los operadores alimentarios para garantizar la inocuidad de los productos alimenticios. Además, en los países de la Unión Europea y en otros muchos distribuidos por los cinco continentes, el sistema APPCC es un requisito legal. Una vez que se ha desarrollado el plan APPCC, aplicando los principios del Codex, y se ha procedido a su implantación en la industria alimentaria, es necesario realizar verificaciones periódicas del

sistema con objeto de comprobar si se está aplicando correctamente y si es ef caz. Está ampliamente contrastado que la mejor herramienta de gestión que disponen tanto las empresas como lo organismos encargados del control oficial de alimentos para llevar a cabo esta tarea son las auditorías. Este libro pretende servir de introducción a los principios básicos y a la metodología utilizada en las auditorías de sistemas de gestión de la inocuidad alimentaria, tomando como referencia la Norma ISO 19011:2011, que en virtud de su carácter flexible y orientativo, contiene directrices perfectamente aplicables a las auditorías del sistema APPCC

**Haccp Systems Manual** Margaret Ryan, Chadwick House Group Ltd, 2000-11-30 Written by an author with many years of practical experience in the food industry, this manual offers a user-friendly text in plain English. It comprises four sections: an introduction to the relatively new risk-based approach to food safety; the second section takes the user, step-by-step, through the HACCP process itself; the third offers supporting documentation; and, finally, the fourth section supplies basic food hygiene information. Thus the publication is a self-developing guide whereby a dedicated system is produced every time the manual is used, such as a tailor-made system, specific to each food business is produced every time. The publication should help provide the reader with a food safety management system.
