*Melting the ice: Engaging and educational ice-breaker activities for every learning session* Jen Schneider, 2023-04-14 The first five minutes of a classroom experience are critical. The tone set in a session's opening minutes can significantly impact and influence, in both positive and negative ways, the quality and nature of the subsequent learning experience. How students spend that time can also have a positive impact on their learning in both the short and long term. When the opening minutes of a class are approached as an opportunity to build student connections, collaboration, and community, all learners benefit. As more and more learning experiences occur in synchronous and asynchronous online learning environments, strategies that both welcome students to online sessions and support student learning are increasingly important. Traditional ice breakers, while typically shared with a goal of building community and student engagement, can sometimes have unintended or even negative consequences on students. This text shares a collection of powerful, opening activities that are designed to simultaneously engage students, build safe and connected classroom communities, and support student learning. All strategies are easily adapted and personalized to fit individual course and content needs including face-to-face, synchronous online, and asynchronous online learning contexts. Shared activities are aligned with associated learning-science research and incorporate strategies that have been shown to support student engagement and learning such as retrieval practice, active recall, spaced practice, and interleaving, among other evidence-based instructional strategies.

On Dangerous Ground Gregory B. Poling, 2022-07-01 In *On Dangerous Ground*, Gregory B. Poling evaluates US interests in the world's most complex and dangerous maritime disputes: American involvement in the South China Sea. Providing a deep history of America's geostrategy in the region from the late 19th century to present day, he focuses on how the dispute intersected with the longstanding US commitment to freedom of the seas and its evolving alliance network in Asia. With a heavy emphasis on decisions made by policymakers in Washington, Manila, and other Southeast Asian capitals, this book not only provides the most comprehensive account yet of America's history in the South China Sea, but it also demonstrates how that history should inform US national security policy in one of the most geopolitically important ocean areas in the world.

Arctic Security and Environmental Change Gisele Arruda, 2026-01-26 This book examines the nexus of environmental change and defence in the Arctic as a national and global security issue. In an era dominated by a new range of threats and priorities, Gisele Arruda discusses the militarization process in the High North and explores how climate change is impacting the maritime, infrastructure and defence systems dynamics. Contextualizing the Arctic region as part of a global security geo-space, the book has a particular emphasis on the security and geopolitical implications to societies, the northern territories, coastal communities and maritime routes of Arctic states. It analyses recent NATO initiatives to build-up strategies in defence and the implementation of technology and innovation to advance regional and international cooperation. The final chapters present trends around environmental multilateralism and consolidate the analysis of all risk-factors related to the climate geopolitics. They also include a focused discussion on the development of new nuclear systems in the region and preparedness in case of a nuclear emergency. This book will be of great interest to students, academics and researchers studying international relations, climate change, security and strategic studies, political geography and environmental studies more broadly.

Fake Science Austin Ruse, 2017-07-17 If you listen to any political argument, you're eventually bound to hear something like: The science is settled on this. Or: Just look at the statistics! Or: There have been studies that say... You'd think we were living in the golden age of science and reason. But the truth is far more sinister, says Austin Ruse. We're actually living in the age of the low information voter, easily misled by all-too-convincing false statistics and studies. In *Fake Science*, Ruse debunks so-called facts used to advance political causes one after the other, revealing how poorly they stand up to actual science.

Ice Breakers! Tom “Big Al” Schreiter, 2019-12-05 Want to get your MLM and network marketing prospects to beg you for a presentation by using Ice Breakers? You can turn any warm or cold prospect into a hot prospect, wanting to know all about your business. How? By learning how to effectively introduce your business into a social conversation with an easy, rejection-free sequence of just a few words. Prospects want what you have to offer, but they are afraid of someone selling them. However, prospects love to buy and join. So why not use socially acceptable word sequences that compel any prospect to literally beg you for a presentation? This book contains several effective formulas with many examples of each formula that you can use or modify. Once we know how the formulas work, we can create unlimited Ice Breakers on-demand to use and pass on to our downline. Your distributors will no longer be afraid of prospecting; instead, they will love prospecting. It is much more fun when we are in control. Distributors want to work hard, but just don't know what to say. Their opening random remarks ruin their chances and they suffer bad experiences. That experience trains them to avoid prospecting. But with trained words and phrases, everything changes. Quick and positive results. Prospecting is fun again. Enjoy learning how to prospect negative people, positive people, relatives, co-workers, strangers, leads, cold prospects ... anyone, by using fun Ice Breakers that even the prospects enjoy. Spend the entire week giving presentations, instead of spending the entire week looking for someone to talk to. And never again will you have to hear one of your distributors complain, I just don't have anyone to talk to. Ice Breakers are the best way to energize your MLM and network marketing business. Order your copy now!

**Icebreaker** Hannah Grace,2022-11-22 A TikTok sensation! Sparks fly when a competitive figure skater and hockey team captain are forced to share a rink. Anastasia Allen has worked her entire life for a shot at Team USA. It looks like everything is going according to plan when she gets a full scholarship to the University of California, Maple Hills and lands a place on their competitive figure skating team. Nothing will stand in her way, not even the captain of the hockey team, Nate Hawkins. Nate's focus as team captain is on keeping his team on the ice. Which is tricky when a facilities mishap means they are forced to share a rink with the figure skating team—including Anastasia, who clearly can't stand him. But when Anastasia's skating partner faces an uncertain future, she may have to look to Nate to take her shot. Sparks fly, but Anastasia isn't worried . . . because she could never like a hockey player, right?
