

Instalacion De Cisterna Y Tanque Elevado

M Lipman

Guía de Campo para la Identificación de Instalaciones, Hallazgos y Pasivos Ambientales en la Industria Petrolera Argentina Claudio Alejandro Tula,2025-08-14 Con más de 15 años de experiencia, el Lic. Claudio Tula presenta esta guía práctica para reconocer instalaciones, hallazgos y pasivos ambientales en la industria petrolera argentina. Desde pozos activos hasta estructuras abandonadas, el texto describe en detalle los procesos, tecnologías y riesgos ambientales involucrados. Dirigido a profesionales y técnicos, este manual se convierte en una herramienta indispensable para operar con responsabilidad ambiental en el sector de hidrocarburos.

Instalaciones sanitarias sostenibles Raúl Oscar arreneche,2021-06-17 El desarrollo sostenible nos lleva a la búsqueda del uso racional del agua, a la reutilización de las aguas grises, la recuperación de las aguas de lluvias y recuperación de los gases de los desagües cloacales; y particularmente que las instalaciones sanitarias brinden el confort buscado sin producir contaminación ambiental. Su optimización o mejora requiere del proyectista, el análisis en su real dimensión de los parámetros intervinientes como son las características y usos del edificio, sistemas a aplicar y costos de la propuesta. El avance tecnológico brinda nuevos sistemas y materiales, que no siempre garantizan el buen resultado final. La ejecución y control de las instalaciones nos permite el funcionamiento de acuerdo con las pautas establecida en el proyecto y en concordancia con las normas. Como usuarios debemos hacer uso responsable de las instalaciones sanitarias y realizar el correspondiente mantenimiento de las mismas. Pretendo reunir, en forma clara y con sencillo análisis, un texto de formación teórica y general y que sea capaz de suministrar la información práctica que se le requiera y en concordancia los conceptos expuestos precedentemente. No pretendo que sea la respuesta a todos los problemas que se plantean en las Instalaciones Sanitarias, sí que se incorpore la visión de sostenibilidad en los profesionales. Por ello dejo abierta la puerta de la creatividad y de la perfectibilidad de las posibles soluciones dadas.
