Joseph G. Rosenstein

Zoombinis Logical Journey ,2001 Not long ago, the Zoombinis enjoyed the good life. Tragically, they misplace their trust in diabolical Bloats, who take over Zoombini Isle. Lead the Zoombinis on a dangerous quest to a new utopia. Develop math and logic skills on your expedition across puzzle-packed terrain. Each perilous puzzle you solve leads to another, more difficult challenge. Each journey is a new game!

Beyond Edutainment: Exploring the Educational Potential of Computer Games Simon Egenfeldt-Nielsen, 2011-01-25
Computer games have attracted much attention over the years, mostly attention of the less flattering kind. This has been true for computer games focused on entertainment, but also for what for years seemed a sure winner, edutainment. These years the area has gained new momentum and labels - game-based learning, serious games and educational games are just some of them. This dissertation aims to be a contribution to understanding educational use of computer games by building a framework that goes beyond edutainment. The framework laid out extends from an experiential learning approach, where concrete experiences are the starting point that can be transformed through reflection, instruction and active experimentation. It is concluded that computer games provide rich concrete experience that can be manipulated in the game universe providing more handles for the student compared to other media formats.

Our Social World Jeanne H. Ballantine, Keith A. Roberts, 2008-11-17 The most innovative introduction to Sociology in a generation presents a coherent essay that inspires students to develop their sociological imaginations: to see the world and personal events from a new perspective, and to confront sociological issues on a day-to-day basis. This engaging text introduces the discipline of sociology to the contemporary student and provides an integrated, comprehensible framework from which to view the world. In each chapter, authors Jeanne H. Ballantine and Keith A. Roberts provide an organizing theme that is not exclusively tied to one theoretical paradigm to help students see relationships between topics. Our Social World presents the perspective of students living in the larger global world.
