Lists coping skills or abilities to help older people to be more independent and in control of their lives. Features information on Asian herbs, spices and foods in healthy ageing across the lifespan and specifically in addressing age-related health issues. What is required is a new culture based on the science in which older people are expected to remain, or become increasingly active, physically, cognitively and emotionally maintaining or strengthening a strong sense of purpose. Europe is looking to Asia because this culture is more prevalent there than in Europe. The core theme is not one of 'caring' for a passive subset of the population but of promoting lifelong learning because knowledge is the elixir of life. - Professor Sir Muir Gray, Founding
