Iamblichus and the Foundations of Late Platonism Eugene Afonasin, John M. Dillon, John Finamore, 2012-05-25 Drawing on recent scholarship and delving systematically into Iamblichean texts, these ten papers establish Iamblichus as the great innovator of Neoplatonic philosophy who broadened its appeal for future generations of philosophers.

Studies on the Derveni Papyrus, volume II Glenn W. Most, 2022-09-15 Studies on the Derveni Papyrus, volume II brings together two new editions of the first fragmentarily extant columns of the Derveni Papyrus and seven scholarly articles devoted to their interpretation. The Derveni Papyrus is by far the most important textual discovery of the 20th century regarding early Greek philosophy, religion, exegetical theory and practice, linguistic ideas, and a host of other areas and issues. But the editorial and interpretative history of this extraordinary document has been very checkered. While the interpretation of the better preserved later columns is still highly controversial in many regards, at least the text of those columns has by and large found a scholarly consensus; but the editorial and interpretative situation with the worse preserved first columns is quite different. This volume offers not one but two editions of the first columns, by Richard Janko and by Valeria Piano, given that it is not currently possible to agree upon a single edition; and it explains clearly and in detail the papyrological problems and doubts that lead to these two editions, making it possible for readers (even non-papyrologists) to

form their own informed judgment about the most likely readings to be adopted. Furthermore, it contains a number of articles by leading scholars on the Derveni Papyrus, above all offering original solutions to the question of the relation between the earlier and the later columns, but also providing analysis and interpretation of other, related problems.

Do You Understand What You Are Reading? Chrys Caragounis,2015-07-18 What is the essence of Christianity? How does the Christian Faith relate to the Jewish Faith? How do we understand and interpret the New Testament (= NT)? Are there any principles and rules as well as tools which can guide us, so that we can understand the NT as it was intended? Is the NT passé and out of date, as some think, who compare it with the world view of Egypt and Mesopotamia 2000 years B.C.? The Author produces concrete evidence that the Greek world view that the NT shares, was quite modern, laying the foundation for all modern sciences. The supposed conflict between science and Faith is a myth! The author's insights into the language and culture of the NT offer the reader a unique possibility for a fuller understanding of the NT. The reader is offered all the

help he/she needs with many examples of how to go about in order to understand the NT in depth.
