50 Quotes for the Soul Mitali Bajaj,2017-07-13 “We decide what we want from our life: Stress or Success? Choose wisely...”

52 Quotes to live by Zett Why,2012 52 Quotes to Live By is a Self Help category book written by Zett Why. It's a spiritual and philosophical book that discusses what really makes us happy. Due to many objective and subjective reasons, we are often forced to go in directions which wouldn't be our choice under other conditions. We usually follow the goals imposed by society, friends, or just egoism created by ourselves. The more intellectual we become, the less often we feel satisfaction in our consciousness. We postpone moments of happiness to particular points in time, and believe that we will be happy when we achieve them. But right after having achieved them, we set new goals, and go on to the next goal. This race has no end... Oriental wisdom says - if you don't let the bee go out of the hive, she will not be able to bring back nectar. Letting go of your knowledge is an art and the high road to wisdom. Wisdom accommodates opposites. The intellect is not capable of this. You have to let go of Rightness, too. Then you won't be hurt by knowing. Only this will help you become reborn, and only this will let you find joy in simple things. Only this way leads to happiness... Pleasure in consciousness is all that we need. It's a guiding star, showing us whether we are on the right Way, or not. Alienation from pleasure is called Suffering. Pleasure seeking (desire) is called Hope. The appearance of a pleasurable moment - Happiness. Permanence in being in a condition of pleasure is called Love. A condition of pleasure which involves all your entity is called Nirvana. People who are able to stay in a condition of overpowering pleasure in consciousness all the time, call it the Supreme Truth. Here is all that is Human... In his book, Zett Why encourages learning to differentiate real joy from egoism. He also offers 52 Ways about how to achieve a feeling of satisfaction in consciousness. In describing the ways, Zett analyzes aspects of daily life and introduces practical recommendations about how to find our real I, and joy in our daily life.

The Pursuit of Human Well-Being Richard J. Estes, M. Joseph Sirgy, 2017-01-09 This handbook informs the reader about how much progress we, the human race, have made in enhancing the quality of life on this planet. Many skeptics focus on how the quality of life has deteriorated over the course of human history, particularly given World War II and its aftermath. This handbook provides a positive perspective on the history of well-being. Quality of life, as documented by scientists worldwide, has significantly improved. Nevertheless, one sees more improvements in well-being in some regions of the world than in others. Why? This handbook documents the progress of well-being in the various world regions as well as the differences in those regions. The broad questions that the handbook addresses include: What does well-being mean? How

do different philosophical and religious traditions interpret the concept of well-being within their own context? Has well-being remained the same over different historical epochs and for different regions and subregions of the world? In which areas of human development have we been most successful in advancing individual and collective well-being? In which sectors has the attainment of well-being proven most difficult? How does well-being differ within and between different populations groups that, for a variety of socially created reasons, have been the most disadvantaged (e.g., children, the aged, women, the poor, racial, ethnic, and sexual minorities)?
