Lady Bird Johnson and the Environment Lewis L. Gould, 1988 Gould (American history, U. of Texas-Austin) has dusted off, updated, and thinned his 1988 *Lady Bird Johnson and the Environment* to kick off the new series on the wives of US presidents. He draws on Johnson's White House papers and interviews with her and her close associates to argue that she was one of the most politically active First Ladies though her concern with the environment was overshadowed by protests against the Vietnam War. Southern First Ladies Katherine A. S. Sibley, 2021-01-20 *Southern First Ladies* explores the ways in which geographical and cultural backgrounds molded a group of influential first ladies. The contributors to this volume use the lens of "Southernness" to define and better understand the cultural attributes, characteristics, actions, and activism of seventeen first ladies from Martha Washington to Laura Bush. The first ladies defined in this volume as Southern were either all born in the South—specifically, the former states of the Confederacy or their slaveholding neighbors like Missouri—or else lived in those states for a significant portion of their adult lives (women like Julia Tyler, Hillary Clinton, and Barbara Bush). Southern climes indelibly shaped these women and, in turn, a number of enduring White House traditions. Along with the standards of proper behavior and ceremonial customs and hospitality demanded by notions of Southern white womanhood, some of which they successfully resisted or subverted, early first ladies including Martha Washington, Dolley Madison, Julia Tyler, and Sarah Polk were also shaped by racially based societal and cultural constraints typical of the eighteenth and nineteenth centuries, some of which have persisted to the present day. The first nine women in this volume, from Martha Washington to Julia Grant, all enslaved others during their lives, inside or outside the White House. Among the seven first ladies in the book's last section, Ellen Wilson, for example, was profoundly influenced by the reformist ethos of the Progressive Era and set an example for activism that five of her Southern successors—Lady Bird Johnson, Rosalynn Carter, Barbara Bush, Hillary Clinton, and Laura Bush—all emulated. By contrast, Ellen's immediate successor in the White House, Edith Wilson, enthusiastically celebrated the "Lost Cause." *Southern First Ladies* is the first volume to comprehensively emphasize the significance of Southernness and a Southern background in the history and work of first ladies, and Southernness' long-standing influence for the development of this position in the White House as well as outside of it.

Chasing Dirt Suellen Hoy, 1996-10-10 Americans in the early 19th century were, as one foreign traveller bluntly put it,

filthy, bordering on the beastly--perfectly at home in dirty, bug-infested, malodorous surroundings. Many a home swarmed with flies, barnyard animals, dust, and dirt; clothes were seldom washed; men hardly ever shaved or bathed. Yet gradually all this changed, and today, Americans are known worldwide for their obsession with cleanliness--for their sophisticated plumbing, daily bathing, shiny hair and teeth, and spotless clothes. In *Chasing Dirt*, Suellen Hoy provides a colorful history of this remarkable transformation from dreadfully dirty to cleaner than clean, ranging from the pre-Civil War era to the 1950s, when American's obsession with cleanliness reached its peak. Hoy offers here a fascinating narrative, filled with vivid portraits of the men and especially the women who helped America come clean. She examines the work of early promoters of cleanliness, such as Catharine Beecher and Sylvester Graham; and describes how the Civil War marked a turning point in our attitudes toward cleanliness, discussing the work of the U.S. Sanitary Commission, headed by Frederick Law Olmsted, and revealing how the efforts of Florence Nightingale in the Crimean War inspired American women--such as Dorothea Dix, Clara Barton, and Louisa May Alcott--to volunteer as nurses during the war. We also read of the postwar efforts of George E. Waring, Jr., a sanitary engineer who constructed sewer systems around the nation and who, as head of New York City's street-cleaning department, transformed the city from the nation's dirtiest to the nation's cleanest in three years. Hoy details the efforts to convince African-Americans and immigrants of the importance of cleanliness, examining the efforts of Booker T. Washington (who preached the gospel of the toothbrush), Jane Addams at Hull House, and Lillian Wald at the Henry Street Settlement House. Indeed, we see how cleanliness gradually shifted from a way to prevent disease to a way to assimilate, to become American. And as the book enters the modern era, we learn how advertising for soaps, mouth washes, toothpastes, and deodorants in mass-circulation magazines showed working men and women how to cleanse themselves and become part of the increasingly sweatless, odorless, and successful middle class. Shower for success! By illuminating the historical roots of America's shift from dreadfully dirty to squeaky clean, *Chasing Dirt* adds a new dimension to our understanding of our national culture. And along the way, it provides colorful and often amusing social history as well as insight into what makes Americans the way we are today.

America in Quotations Bahman Dehgan, 2015-08-31 "America is a land of wonders, in which everything is in constant motion and every change seems an improvement.... No natural boundary seems to be set to the efforts of man; and in his eyes what is not yet done is only what he has not yet attempted to do"—Alexis de Tocqueville, *Democracy in America* (1835). "Americans will pay a big price for an invention that will help them save time they don't know what to do with"—Anonymous. This collection of quotations—both serious and humorous—about America is divided into 19 main topics: The Nation, The American People, Places, Nature, Mind, The Individual, Human Relations, Social Life, Culture and Media, Literature and Language, Religion and Belief, Past and Future, History, War and the Military, International Relations, Politics and Government, Law and Order, Business and Economy, and Food. Each main topic is divided into subtopics; for example,

"Culture and Media" has these: Architecture, Art, Charlie Chaplin, Dance, Fashion, Intellectuals, Marilyn Monroe, Movies, Music, Elvis Presley, and Television. The author attributes each quote to its speaker, author or composer, and wherever possible, provides the date of the quote and the name of the work in which it was published. In the case of uncertainty about the exact date of a quote, the author provides the birth and death dates of the person to whom the quote is attributed. Also included are a keyword and subject index and a speaker index.

All the President's Kin Barbara Kellerman, 1981 A provocative guide to the First Families from the Kennedys to the Reagans examines the different and important roles that family members play in presidential politics.

The Gifted Generation David Goldfield, 2017-11-14 A sweeping and path-breaking history of the post-World War II decades, during which an activist federal government guided the country toward the first real flowering of the American Dream. In *The Gifted Generation*, historian David Goldfield examines the generation immediately after World War II and argues that the federal government was instrumental in the great economic, social, and environmental progress of the era. Following the sacrifices of the Greatest Generation, the returning vets and their children took the unprecedented economic growth and federal activism to new heights. This generation was led by presidents who believed in the commonwealth ideal: the belief that federal legislation, by encouraging individual opportunity, would result in the betterment of the entire nation. In the years after the war, these presidents created an outpouring of federal legislation that changed how and where people lived, their access to higher education, and their stewardship of the environment. They also spearheaded historic efforts to level the playing field for minorities, women and immigrants. But this dynamic did not last, and Goldfield shows how the shrinking of the federal government shut subsequent generations off from those gifts. David Goldfield brings this unprecedented surge in American legislative and cultural history to life as he explores the presidencies of Harry S. Truman, Dwight D. Eisenhower, and Lyndon Baines Johnson. He brilliantly shows how the nation's leaders persevered to create the conditions for the most gifted generation in U.S. history.

The Character Factor James P. Pfiffner, 2003-12-11 WATERGATE. MONICA LEWINSKY. PAINKILLERS IN THE OVAL OFFICE. IRAN-CONTRA. READ MY LIPS. THE CHARACTER FACTOR. The American president's character matters. To most Americans, it matters deeply. But how do we define what character means, and why can't we agree? In this sober, probing consideration of "the character factor" and the presidency, veteran political analyst James P. Pfiffner leads us through a survey of three aspects of presidential character that have proved problematic for recent chief executives: lies, promise-keeping, and sexual probity. His goal is not to tell us which presidents have been "good" and which "bad." Rather, he helps us think critically and impartially about complex character issues and invites us to reach our own conclusions. *The Character Factor* avoids both the abyss of moral relativism and the desert of political cynicism. It helps us look at our presidents (and our presidential candidates) without illusions, knowing that flawed men can still be great leaders but that some flaws deserve

defeat at the polls—or even the ultimate presidential sanction, impeachment.

The Years of Lyndon Johnson Robert A. Caro,1982 Traces Johnson's life from his Texas childhood through his rise to political power and his successful 1948 senatorial campaign and eventual presidency.

Presidential Temples Benjamin Hufbauer,2005 This book explores the visual and material cultures of presidential commemoration--memorials and monuments, libraries and archives--and the problematic ways in which presidents themselves have largely taken over their own commemoration. The author sees these various commemorative sites as playing a key role in the construction of our collective political and cultural self-images and as another sign of our preoccupation with celebrity culture. Ultimately, he contends, these presidential temples reflect not only our civil religion but also the extraordinary expansion of executive authority--and presidential self-commemoration--since FDR.
