

Religion Is The Opiate Of Masses

Roland Fairbairn McWilliams,Margaret Stovel McWilliams,Margaret McWilliams

Aristotle, Adam Smith and Karl Marx Spencer J. Pack,2010-01-01 . . . a very valuable introduction to Aristotle s economics. History of Economic Ideas Spencer Pack is completely at home with the difficult works of Aristotle, Adam Smith and Karl Marx. To walk with him through their writings is to discover that they are surprisingly helpful in understanding the modern world of computers, credit crunches, religious differences, international conflicts, and unemployment due to oversaving in China and undersaving in America. One is left after reading them with growing admiration for the giants of past intellectual history. This is only one lesson that Pack teaches in this illuminating book. Mark Blaug, University of London and University of Buckingham, UK This is an unusually ambitious and unpretentious work. And it is successful. Pack effectively compares the ideas of each of the three great men without forcing those of one upon the others. The topics are exchange value, money, capital, character, government, and change, which the author considers to be the fundamental issues in 21st century political economy. Pack is especially successful in utilizing a wide spectrum of secondary (including contemporary) sources to enrich the analysis of the expected primary sources. Student readers will be exposed to the opportunities and problems of variation in interpretation. The author has studiously avoided insinuating and privileging his own views and naively repeating well-worn and misleading, if not also erroneous, ideology-laden positions. Warren J. Samuels, Michigan State University, US Spencer Pack has written a most illuminating and insightful book. Beginning from Aristotelian foundations, Pack focuses our attention on an essential economic and moral issue: the difference between value in use and value in exchange. From this vantage point, he evaluates the arguments of Smith and Marx, demonstrating how their theories, both drawing on Aristotle, unfold into a general analysis of capitalism. His account forces us to think deeply about the nature of capitalist society. I recommend it highly. John F. Henry, University of Missouri-Kansas City, US Spencer Pack compares and contrasts Aristotle s, Smith s and Marx s theoretical systems on six fundamental issues: exchange value, money, capital, character, government, and change. This book also provides insights on issues concerning the continuing development of world money, saving, managerial capitalism, corrupt governments, and various secular and religious movements for social change.

Church And Grace Age: Theological Explanation of State of Church, Nations, and the Cosmos at End Times

Plammoottil V. Cherian Ph. D,2024-06-05 From a thorough understanding of the human history from a Biblical perspective,

and knowledge in science and theology author Plammoottil Cherian elucidates a vivid picture of the current state of the Christendom under the power of secularism, atheism, and apostasy in a confused and chaotic world. The Church is at the crossroads of confusion losing its power in spreading the Gospel at a time when it is most needed. The Book in five separate parts describes: Who is true God, the foundation of Church, and God's religion. What the mission of the Church is. Church and nations are living in an Age of Delusion, and a generation of compromised Christians. Apostasy is on the rise and Church without Christ like in Laodicea. Global Unhappiness because God is on the sidelines. There is perfect harmony between science and Christian faith. The world has been experiencing the bowls of wrath of God. Nations morally deteriorate by the spiritual blindness of leaders of Church and State. Humanity has been experiencing the hoofbeats of the four horses in the Book of Revelation. The nations and Church are in the state of Mene, Mene, Tekel, Upharsin. The Babylons of the world nations are about to fall, unless aligned with God. The Grace Age is ending soon, as scientific evidence proves the Biblical prophecies. The pressing need of the Church is to prepare believers for Christ's Second Coming. As a scientists and theologian, Dr. Cherian analyzes the present world culture and explains the Biblical prophecies that we are at the threshold of Church that lost the faith, and calls church and nation's leaders to realign with God for his guidance and continued blessings.
