The Tao of Steve Max Vance, 2019-09-24 The award-winning movie The Tao of Steve is unique among romantic comedies in that it is based on a real-life ladies' man, Duncan North. Despite the fact that he is overweight, Duncan is wildly successful with women because of three simple rules: Be Desireless, Be Excellent, Be Gone. The Tao of Steve: 3 Simple, Sure-Fire Rules of Seduction provides an in-depth look at Duncan's Zen philosophy of seduction and a simple, yet detailed plan of action you can take to improve your success with women. Do you want to be a Steve, the cool ladies' man, or a Stu, the lonely, hapless schlub? Read The Tao of Steve: 3 Simple, Sure-Fire Rules of Seduction, apply those rules, and be like Steve. You will also receive a second book, The Science of Seduction. How can a guy know what dating and seduction advice works? How can he really be sure what is the best way to approach women? Science. And by science, I mean peer-reviewed scientific research. When I earned my master's degree in psychology, I was determined to see if the teachings of pickup artists were backed up by science. I did my master's thesis on the Seduction Community to examine whether or not its methods really worked or were just marketing hype. In The Science of Seduction, I outline in plain English what scientific research has to say about sexual attraction, and give 41 simple, concrete steps that any guy can take to boost his success with women, such as: What is the best color to wear? Should you shave or not shave?

The Dao of Rhetoric Steven C. Combs, 2012-02-01 In the first book to systematically deal with Daoism (Taoism) from a rhetorical perspective, author Steven C. Combs advances the idea that the works of Daoist (Taoist) sages Laozi (Lao Tzu), Zhuangzi (Chuang Tzu), and Sunzi (Sun Tzu) can be fused into a coherent rhetorical genre, which can then form a methodology for rhetorical criticism. This notion of Daoist rhetoric enables critics to examine discourse from new vantage points with novel processes and concepts that honor the creativity and complexity of human communication. Combs also critically examines four contemporary films—The Tao of Steve, A Bug's Life, Antz, and Shrek—to amplify rhetorical Daoism, to indicate clear differences between Western and Daoist values, and to offer fresh perspectives on individuals and social action. The book argues that Daoism provides a lens for viewing limitations of current Western rhetorical theorizing, positioning Daoist rhetoric as a potent critical perspective in the contemporary, postmodern world.

The Complete Idiot's Guide to Taoism Brandon Toropov, Chadwick Hansen, 2002-03-01 You're no idiot, of course. You know Taoism is one of the world's oldest religions, based on simplicity and balance. However, you may not know it has

important parallels with modern Western life: health, ecology, even in such pop culture icons as Luke Skywalker and the Beatles. But you don't have to sit at the feet of a Taoist master to learn how the Taoist tradition has enlightened seekers throughout the centuries! The Complete Idiot's Guide® to Taoism will show you exactly why Taoist principles appeal to people from every walk of life! In this Complete Idiot's Guide®, you get: • The history of the Daode Jing, the world's shortest core religious text, and Laozi, its mysterious author. • The teachings of Zhuangzi, the often-overlooked master sage of Taoism. • An explanation of yin-yang and what it represents. • Taoism's relationship to Zen Buddhism.

Rules of the Road for Nonprofit Leaders Elizabeth M. Schmidt,2025-08-01 A reframing of the legal profession for nonlawyers aiming to lead nonprofits more effectively Although the United States has the most robust nonprofit sector in the world, the rules governing it are convoluted and often paralyze those who are trying to change the status quo. Nonprofit leaders deserve rules that are clearly laid out, explaining what they can and should do to achieve their missions—rather than emphasizing only what is forbidden. Rules of the Road for Nonprofit Leaders offers a translation of the nonprofit legal framework into terms that can be more easily understood by nonlawyers. Schmidt provides a different lens through which nonprofit leaders can see more clearly how these laws can be more responsive to the changing needs of the nonprofit sector and of society. This book shows nonprofit leaders, board members, and volunteers how nonprofit law relates to all aspects of nonprofit management.

The Rise of Superman Steven Kotler,2014 An exploration of how extreme athletes break the limits of ultimate human performance and what we can learn from their mastery of the state of consciousness known as flow In this groundbreaking book, New York Times-bestselling author Steven Kotler decodes the mystery of ultimate human performance. Drawing on over a decade of research and first-hand interviews with dozens of top action and adventure sports athletes such as big-wave legend Laird Hamilton, big-mountain snowboarder Jeremy Jones, and skateboarding pioneer Danny Way, Kotler explores the frontier science of flow, an optimal state of consciousness where we perform and feel our best. Building a bridge between the extreme and the mainstream, The Rise of Superman explains how these athletes are using flow to do the impossible and how we can use this information to radically accelerate our performance in our own lives. At its core, this is a book about profound possibility, what is actually possible for our species, and where--if anywhere--our limits lie.
