The Nolan Variations Tom Shone,2020-11-03 An in-depth look at Christopher Nolan, considered to be the most profound, commercially successful director at work today, written with his full cooperation. A rare, revelatory portrait, as close as you're ever going to get to the Escher drawing that is Christopher Nolan's remarkable brain (Sam Mendes). In chapters structured by themes and motifs (Time; Chaos; Dreams), Shone offers an unprecedented intimate view of the director. Shone explores Nolan's thoughts on his influences, his vision, his enigmatic childhood past--and his movies, from plots and emotion to identity and perception, including his latest blockbuster, the action-thriller/spy-fi Tenet (Big, brashly beautiful, grandiosely enjoyable--Variety). Filled with the director's never-before-seen photographs, storyboards, and scene sketches, here is Nolan on the evolution of his pictures, and the writers, artists, directors, and thinkers who have inspired and informed his films. Fabulous: intelligent, illuminating, rigorous, and highly readable. The very model of what a filmmaking study should be. Essential reading for anyone who cares about Nolan or about film for that matter.--Neal Gabler, author of An Empire of Their Own: How the Jews Invented Hollywood and Walt Disney, The Biography

American Cinema of the 2010s Dennis Bingham, 2021-12-10 The 2010s might be remembered as a time of increased polarization in American life. The decade contained both the Obama era and the Trump era, and as the nation's political fissures widened, so did the gap between the haves and have-nots. Hollywood reflected these divisions, choosing to concentrate on big franchise blockbusters at the expense of mid-budget films, while new players like Netflix and Amazon offered fresh opportunities for low-budget and independent filmmakers. As the movie business changed, films ranging from American Sniper to Get Out found ways to speak to the concerns of a divided nation. The newest installment in the Screen Decades series, American Cinema in the 2010s takes a close look at the memorable movies, visionary filmmakers, and behind-the-scenes drama that made this decade such an exciting time to be a moviegoer. Each chapter offers an in-depth examination of a specific year, covering a wide variety of films, from blockbuster superhero movies like Black Panther and animated films like Frozen to smaller-budget biopics like I, Tonya and horror films like Hereditary. This volume introduces readers to a decade in which established auteurs like Quentin Tarantino were joined by an exceptionally diverse set of new talents, taking American cinema in new directions.

'War on Terror' and American Film Terence McSweeney, 2014-11-11 This compelling, theoretically informed and up-to-date exploration of contemporary American cinema charts the evolution of the impact of 9/11 on Hollywood film from Black Hawk Down (2001), through Batman Begins (2005), United 93 (2006) to Olympus Has Fallen (2013). Through a vibrant analysis of a range of genres and films - which in turn reveal a strikingly diverse array of social, historical and political perspectives - this book explores the impact of 9/11 and the war on terror on American cinema in the first decade of the new millennium and beyond.

Reflections on / of Dickens Ewa Kujawska-Lis, Anna Krawczyk-Łaskarzewska, 2014-07-24 This collection of new essays draws attention to the various and complex ways in which scholars and critics have reflected upon and reacted to Charles Dickens's texts, including his novels, short fiction and journalism. Subsequent to the initial publication of Dickens's works, writers, visual artists and filmmakers have re-imagined, transposed and transformed them from the mid-nineteenth century to the present. Although Reflections on / of Dickens recognizes the writer's importance as first and foremost a major figure in

literature, it nevertheless offers a uniquely vast array of approaches to his literary output, ranging from intertextual and generic strategies, through gender studies, translation studies and comparative literary studies, to issues connected with reception, popular culture, visual culture and performing arts. The diverse thematic preoccupations present in this highly interdisciplinary volume attest to Dickens's central position in the British canon and his global appeal, while at the same time narrowing the gap between traditional textual analysis and more contextualised readings of his oeuvre, taking into account the socio-cultural and historical circumstances thanks to which his literary reputation continues to flourish.

What Does Europe Want? Slavoj Žižek, Srećko Horvat, 2014-12-23 Slavoj Žižek and Srećko Horvat combine their critical clout to emphasize the dangers of ignoring Europe's growing wealth gap and the parallel rise in right-wing nationalism, which is directly tied to the fallout from the ongoing financial crisis and its prescription of imposed austerity. To general observers, the European Union's economic woes appear to be its greatest problem, but the real peril is an ongoing ideological-political crisis that threatens an era of instability and reactionary brutality. The fall of communism in 1989 seemed to end the leftist program of universal emancipation. However, nearly a quarter of a century later, the European Union has failed to produce any coherent vision that can mobilize people to action. Until recently, the only ideology receptive to European workers has been the nationalist call to defend against immigrant integration. Today, Europe is focused on regulating the development of capitalism and promoting a reactionary conception of its cultural heritage. Yet staying these courses, Žižek and Horvat show, only strips Europe of its power and stifles its political ingenuity. The best hope is for Europe to revive and defend its legacy of universal egalitarianism, which benefits all parties by preserving the promise of equal representation.
