

Wendell Berry Hannah Coulter

Jack R. Baker, Jeffrey Bilbro

Hannah Coulter Wendell Berry, 2005-09-30 *Hannah Coulter* is Wendell Berry's seventh novel and his first to employ the voice of a woman character in its telling. Hannah, the now-elderly narrator, recounts the love she has for the land and for her community. She remembers each of her two husbands, and all places and community connections threatened by twentieth-century technologies. At risk is the whole culture of family farming, hope redeemed when her wayward and once lost grandson, Virgil, returns to his rural home place to work the farm.

Nathan Coulter Wendell Berry, 2009-03-01 *Nathan Coulter*, Wendell Berry's first book, was published in 1960 when he was twenty-seven. In his first novel, the author presents his readers with their first introduction to what would become Berry's life's work, chronicling through fiction a place where the inhabitants of Port William form what is more than a community, but rather a "membership" in interrelatedness, a spiritual community, united by duty and bonds of affection for one another and for the land upon which they make their livelihood. When young Nathan loses his grandfather, Berry guides readers through the process of Nathan's grief, endearing the reader to the simple humanity through which Nathan views the world. Echoing Berry's own strongly held beliefs, Nathan tells us that his grandfather's life "couldn't be divided from the days he'd spent at work in his fields." Berry has long been compared to Faulkner for his ability to erect entire communities in his fiction, and his heart and soul have always lived in Port William, Kentucky. In this eloquent novel about duty, community, and a sweeping love of the land, Berry gives readers a classic book that takes them to that storied place.

Hannah Coulter Wendell Berry, 2004 In the latest installment in Wendell Berry's long story about the citizens of Port William, *Hannah Coulter* remembers. Her first husband, Virgil, was declared missing in action shortly after the Battle of the Bulge, and after she married Nathan Coulter about all he could tell Hannah about the Battle of Okinawa was Ignorant boys, killing each other. The community was stunned and diminished by the war, with some of its sons lost forever and others returning home determined to carry on. Now, in her late seventies, twice-widowed and alone, Hannah sorts through her memories: of her childhood, of young love and loss, of raising children and the changing seasons. She turns her plain gaze to a community facing its long deterioration, where, she says, We feel the old fabric torn, pulling apart, and we know how much we have loved each other. Hannah offers her summation: her stories and her gratitude, for the membership in Port William, and for her whole life, a part of the great continuum of love and memory, grief and strength.

Wendell Berry and Higher Education Jack R. Baker, Jeffrey Bilbro, 2017-06-13 Why the university should focus on community: “An enlightening interpretation of Wendell Berry’s philosophy for the pursuit of a holistic higher education.” —Publishers Weekly Prominent author and cultural critic Wendell Berry is well known for his contributions to agrarianism and environmentalism, but his commentary on education has received comparatively little attention. Yet Berry has been eloquently unmasking America’s cultural obsession with restless mobility for decades, arguing that it causes damage to both the land and the character of our communities. The education system, he maintains, plays a central role in this obsession, inculcating in students’ minds the American dream of moving up and moving on. Drawing on Berry’s essays, fiction, and poetry, Jack R. Baker and Jeffrey Bilbro illuminate the influential thinker’s vision for higher education in this path-breaking study. Each chapter begins with an examination of one of Berry’s fictional narratives and then goes on to consider how the passage inspires new ways of thinking about the university’s mission. Throughout, Baker and Bilbro argue that instead of training students to live in their careers, universities should educate students to inhabit and serve their places. The authors also offer practical suggestions for how students, teachers, and administrators might begin implementing these ideas. Baker and Bilbro conclude that institutions guided by Berry’s vision might cultivate citizens who can begin the work of healing their communities—graduates who have been educated for responsible membership in a family, a community, or a polity.

Mothers, Children, and the Body Politic Nadya Williams, 2024-10-15 Today humans are often seen as commodities rather than image bearers. Classics scholar Nadya Williams brings insight from the beliefs and practices of the early church about motherhood, raising children, and human life, suggesting there is a way to recapture a vision that affirms the imago Dei in each person above our economic production.

Welcoming the Other N. Susan Laehn, Thomas R. Laehn, 2021-02-15 The modern turn in political philosophy established the ontological primacy of the ego, reducing the community to a mere assemblage of individuals, and led to the repudiation of natural duties in favor of inherent individual rights. The modern project culminated in the work of Friedrich Nietzsche, whose emphasis on radical individuation left human beings both liberated and exiled. Individuals were free to create (and to recreate) themselves anew, but they were simultaneously uprooted from any larger community. Indeed, the very possibility of shared meaning, let alone shared political life, was called into question. This volume consists of essays addressing the efforts of philosophers, artists, caretakers, and—perhaps most importantly—teachers to reestablish a foundation for political life in postmodernity. The origins of these efforts are diverse, and their modes are varied. Individuals seek communion with the divine, either with or through others; they pursue friendship among strangers; and they search for meaningful relationships in both the classroom and the public square. Reflecting the various means by which individuals seek communion with others and with the transcendent, divine Other, the essays contained in this volume explore the modes through which individuals

forge relationships with others in an age of isolation.

Telling the Stories Right Jack R. Baker, Jeffrey Bilbro, 2018-03-26 Wendell Berry thinks of himself as a storyteller. It's somewhat ironic then that he is better known as an essayist, a poet, and an advocate for small farmers. The essays in this collection consider the many facets of Berry's life and work, but they focus on his efforts as a novelist and story writer. Indeed, Berry had already published three novels before his seminal work of cultural criticism, *The Unsettling of America*, established him as an ardent defender of local communities and sustainable agriculture. And over the past fifty years, he has published eight novels and more than forty-eight short stories set in the imagined community of Port William. His exquisite rendering of this small Kentucky town challenges us to see the beauty of our own places and communities and to tend their health, threatened though it inevitably is. The twelve contributors to this collection approach Berry's fiction from a variety of perspectives—literary studies, journalism, theology, history, songwriting—to shed light on its remarkable ability to make a good life imaginable and compelling. The first collection devoted to Berry's fiction, this volume insists that any consideration of Berry's work must begin with his stories. Ecology of Vocation Kiara A. Jorgenson, 2020-05-15 Critically surveying various approaches to Christian ecological ethics alongside the vexing moral ambiguities of the Anthropocene, *Ecology of Vocation* offers an integrative approach to responsible living vis à vis one of Protestantism's key theological resources— the doctrine of vocation. Drawing on H. Richard Niebuhr's germinal ethical framework with a decidedly ecofeminist perspective, Kiara A. Jorgenson demonstrates how vocation's emphasis on right relationship practically speaks to the embodied realities of planetary interrelatedness. By excavating the ecological promise of the early Reformers' democratized renderings of calling and linking their concerns to the contemporary context, she argues that vocation cannot be reduced to the particular aim of monetized work, nor to an elitist escape from it. Rather, vocation must be recast as the dynamic and vibrant space among the myriad roles any of us inhabits at any given time in a particular place. When understood in this light, vocation signals much more than a job, a passion, or a quest for self-discovery. An alternative understanding of vocation's very ecology can extend Christian conceptions of the neighbor beyond the human and lead the church to more faithfully pursue lives characterized by humility, restraint, wisdom, justice, and love.

Planet Work Ryan Hediger, 2022-12-09 Labor and labor norms orient much of contemporary life, organizing our days and years and driving planetary environmental change. Yet, labor, as a foundational set of values and practices, has not been sufficiently interrogated in the context of the environmental humanities for its profound role in climate change and other crises. This collection of essays demonstrates the urgent need to rethink models and customs of labor and leisure in the Anthropocene. Recognizing the grave traumas and hazards plaguing planet Earth, contributors expose fundamental flaws in

ideas of work and search for ways to redirect cultures toward more sustainable modes of life. These essays evaluate Anthropocene frames of interpretation, dramatize problems and potentials in regimes of labor, and explore leisure practices such as walking and storytelling as modes of recasting life, while a coda advocates reviving notions of work as craft.

Nathan Coulter Wendell Berry, 2008-05-28 This novel tells the story of one year in the life of young Nathan Coulter, who is growing up on a farm in the fictional community of Port William, Kentucky.

It Is Well With My Soil Lauren Hoessly, 2011 Ecocriticism places nature as the central subject of life, but avoids analysis of human relationships as an integral part of man's relationship with nature. Wendell Berry's novels *Jayber Crow* and *Hannah Coulter*, and Marilynne Robinson's novels, *Gilead* and *Housekeeping* posit ecocritical claims about man and his work in nature without forsaking the union of the body and soul. Thus, Berry and Robinson connect relationships between people to this work in nature in order to reveal the relationship between man and God. They integrate principles of environmental recovery with Christian principles of redemption, and thereby offer new possibilities for ecocritical writing rooted in a religious connection with man's work on earth. Therefore, this thesis contributes a new approach of this criticism by stretching the established boundaries of ecocriticism to include Christian environmental perspectives in literature.
