*On Writing Well, 30th Anniversary Edition* William Zinsser, 2012-09-11 *On Writing Well* is a bible for a generation of writers looking for clues to clean, compelling prose. —New York Times A beloved classic and the definitive volume on the art of writing nonfiction *On Writing Well*, which grew out of a course that William Zinsser taught at Yale, has been praised for its sound advice, its clarity, and for the warmth of its style. It is a book for anybody who wants to learn how to write or who needs to do some writing to get through the day, as almost everybody does. **The Bezos Blueprint** Carmine Gallo, 2022-11-15 The communication and leadership secrets of Jeff Bezos and how to master them, from the bestselling author of *Talk Like Ted*. Jeff Bezos is a dreamer who turned a bold idea into the world's most influential company, a brand that likely touches your life every day. As a student of leadership and communication, he learned to elevate the way Amazonians write, collaborate, innovate, pitch, and present. He created a scalable model that grew from a small team in a Seattle garage to one of the world's largest employers. *The Bezos Blueprint* by Carmine Gallo reveals the communication strategies that Jeff Bezos pioneered to fuel Amazon's astonishing growth. As one of the most innovative and visionary entrepreneurs of our time, Bezos reimagined the way leaders write, speak, and motivate teams and customers. The communication tools Bezos created are so effective that former Amazonians who worked directly with Bezos adopted them as blueprints to start their own companies. Now, these tools are available to you.

**Literacy Essentials** Regie Routman, 2023-10-10 In her practical and inspirational book, *Literacy Essentials: Engagement, Excellence, and Equity for All Learners*, author Regie Routman guides K-12 teachers to create a trusting, intellectual, and equitable classroom culture that allows all learners to thrive as self-directed readers, writers, thinkers, and responsible citizens. Over the course of three sections, Routman provides numerous Take Action ideas for implementing authentic and responsive teaching, assessing, and learning. This book poses a key question: How do we rise to the challenge of providing an engaging, excellent, equitable education for all learners, including those from high poverty and underserved schools? *Teaching for Engagement*: Many high performing schools are characterized by a thriving school culture built on a network

of authentic communication. Teachers can strengthen classroom engagement by building a trusting and welcoming environment where all students can have a safe and collaborative space to grow and develop. Pursuing Excellence: Routman identifies 10 key factors that describe an excellent teacher, ranging from intellectual curiosity to creativity, and explains how carrying yourself as a role model contributes to an inclusive, caring, empathic, and fair classroom. She also stresses the importance for school leaders to make job-embedded professional development a top priority. Dismantling Unequal Education: The huge gap in the quality of education in high vs low income communities is the civil rights issue of the 21st century, according to Routman. She spells out specific actions educators can take to create more equitable schools and classrooms, such as diversifying texts used in curriculums and ensuring all students have access to opportunities to discuss, reflect, and engage with important ideas. From the author, I wrote Literacy Essentials, because I saw a need to simplify teaching, raise expectations, and make expert teaching possible for all of us. I saw a need to emphasize how a school culture of kindness, trust, respect, and curiosity is essential to any lasting achievement. I saw a need to demonstrate and discuss how and why the beliefs, actions, knowledge we hold determine the potential for many of our students. Equal opportunity to learn depends on a culture of engagement and equity, which under lies a relentless pursuit of excellence.

Writing as Craft and Magic Carl Sessions Stepp, 2007 Writing as Craft and Magic, Second Edition, outlines a compelling approach to conceiving, reporting, organizing, and writing articles for today's media. The book revolves around the central idea that writers improve most quickly by combining the powers of technique (craft) with creativity (magic). Applying this method to news and feature writing--both print and online--it focuses on leads, organization, transition, clarity, drama, and other elements that drive good writing toward excellence. Aimed at students in upper-level undergraduate writing and reporting courses, Writing as Craft and Magic provides a clear and succinct instructional system--with practical models, a wealth of examples, and step-by-step guides--to help students understand and apply craft and magic to daily assignments. Author Carl Sessions Stepp, a seasoned journalist at the national level, structures his system in three parts. He first evokes the art of writing, then applies that art to standard journalistic writing, and concludes with a strong section on advanced writing techniques for features. He also offers advice and tips on how newsrooms currently operate in the age of multimedia

journalism. This revised edition includes an expanded exercise section at the end of each chapter, more coverage of the demands of multimedia journalism (convergence), and updated chapters on incorporating the Internet into research and writing for the daily news cycle.

More than almost any profession, the law has a deserved reputation for opaque, jargon-clogged writing. Yet forceful writing is one of the most potent weapons of legal advocacy. In this new edition of *Writing to Win*, Steven D. Stark, a former lecturer on law at Harvard Law School, who has inspired thousands of aspiring and practicing lawyers, applies the universal principles of powerful, vigorous prose to the job of making a legal case—and winning it. *Writing to Win* focuses on the writing of lawyers, not judges, and includes dozens of examples of effective (and ineffective) real-life legal writing—as well as compelling models drawn from advertising, journalism, and fiction. It deals with the challenges lawyers face in writing, from organization to strengthening and editing

prose; offers incisive ways of improving arguments; addresses litigation and technical writing in all its forms; and covers the writing attorneys must perform in their daily practice, from email memos to briefs and contracts. Each chapter opens with a succinct set of rules for easy reference. With new sections on client communication and drafting affidavits, as well as updated material throughout, *Writing to Win* is the most practical and efficacious legal-writing manual available.
