A More Beautiful Question Warren Berger, 2014-03-04 To get the right answer--in business, in life--you have to ask the right question. Innovation expert Warren Berger shows it's both an art and a science.

Decolonizing Wealth Edgar Villanueva, 2018-10-16 Decolonizing Wealth is a provocative analysis of the dysfunctional colonial dynamics at play in philanthropy and finance. Award-winning philanthropy executive Edgar Villanueva draws from the traditions from the Native way to prescribe the medicine for restoring balance and healing our divides. Though it seems counterintuitive, the philanthropic industry has evolved to mirror colonial structures and reproduces hierarchy, ultimately doing more harm than good. After 14 years in philanthropy, Edgar Villanueva has seen past the field's glamorous, altruistic façade, and into its shadows: the old boy networks, the savior complexes, and the internalized oppression among the “house slaves,” and those select few people of color who gain access. All these funders reflect and perpetuate the same underlying dynamics that divide Us from Them and the haves from have-nots. In equal measure, he denounces the reproduction of systems of oppression while also advocating for an orientation towards justice to open the floodgates for a rising tide that lifts all boats. In the third and final section, Villanueva offers radical provocations to funders and outlines his Seven Steps for Healing. With great compassion—because the Native way is to bring the oppressor into the circle of healing—Villanueva is able to both diagnose the fatal flaws in philanthropy and provide thoughtful solutions to these systemic imbalances. Decolonizing Wealth is a timely and critical book that preaches for mutually assured liberation in which we are all inter-connected.

[How to Live a Good Life](#) Jonathan Fields, 2018-03-13 Seriously . . . another book that tells you how to live a good life? Don't we have enough of those? You'd think so. Yet, more people than ever are walking through life disconnected, disengaged, dissatisfied, mired in regret, declining health, and a near maniacal state of gut-wrenching autopilot busyness. Whatever is out there isn't getting through. We don't know who to trust. We don't know what's real and what's fantasy. We don't know how and where to begin and we don't want to wade through another minute of advice that gives us hope, then saps our time and leaves us empty. How to Live a Good Life is your antidote; a practical and provocative modern-day manual for the pursuit of a life well lived. No need for blind faith or surrender of intelligence; everything you'll discover is immediately actionable and subject to validation through your own experience. Drawn from the intersection of science,

spirituality, and the author's years-long quest to learn at the feet of masters from nearly every tradition and walk of life, this book offers a simple yet powerful model, the "Good Life Buckets " —spend 30 days filling your buckets and reclaiming your life. Each day will bring a new, practical yet powerful idea, along with a specific exploration designed to rekindle deep, loving, and compassionate relationships; cultivate vitality, radiance, and graceful ease; and leave you feeling lit up by the way you contribute to the world, like you're doing the work you were put on the planet to do. How to Live a Good Life is not just a book to be read; it's a path to possibility, to be walked, then lived.
