

British Grammar Book

Dennis Freeborn

English Grammar: The Basics Michael McCarthy, 2021-05-25 English Grammar: The Basics offers a clear, non-jargonistic introduction to English grammar and its place in society. Rather than taking a prescriptive approach, this book helps the reader become aware of the social implications of choices they make to use standard or non-standard (regional/dialect) forms. Readers will consider: • what grammar is and how it fits into the structure of language; • how grammar functions in the school curriculum, the press, broadcasting and social media, as well as how these outlets reflect and reinforce our attitudes towards grammar; • differences between speech and writing, as well as between formality and informality; • major different approaches to theorising and describing grammar from important grammarians, including Noam Chomsky and Michael Halliday. Featuring a glossary of key terms and practical tips and insights from the author's 50+ years of language teaching experience around the world, this book is for anyone who has ever found themselves questioning the 'rules' of the English language.

The English Grammar Book T. G. Ledgard, Roger Lane, 1997-01-01 A complete course in English grammar, containing definitions, examples, explanations and exercises.

Oxford Modern English Grammar Bas Aarts, 2011-02-10 Oxford Modern English Grammar is Oxford's brand new and definitive guide to English grammar. This book has been written by a leading expert in the field, covers both British and American English, and makes use of authentic spoken and written examples. Arranged in four clear parts for ease of use, its comprehensive coverage ranges from the very basic to the most complex aspects of grammar, all of which are explained clearly yet authoritatively. This descriptive source of reference is invaluable for those with an interest in the English language, undergraduate and postgraduate students, and for anyone who would like a clear guide to English grammar and how it is used.

A Basic English Grammar John Eastwood, Ronald Mackin, 1987 This book presents grammar structures in short example sentences accompanied by concise notes on form and use.

The Oxford Handbook of English Grammar Bas Aarts, Jill Bowie, Gergana Popova, 2020 This handbook provides an authoritative, critical survey of current research and knowledge in the grammar of the English language. The volume's expert contributors explore a range of core topics in English grammar, covering a range of theoretical approaches and including the

relationship between 'core' grammar and other areas of language.

English Grammar for Today Geoffrey N. Leech, Margaret Deuchar, Robert Hoogenraad, 1982

A Semantic Approach to English Grammar R. M. W. Dixon, 2005-06-30 This book shows how grammar helps people communicate and looks at the ways grammar and meaning interrelate. The author starts from the notion that a speaker codes a meaning into grammatical forms which the listener is then able to recover: each word, he shows, has its own meaning and each bit of grammar its own function, their combinations creating and limiting the possibilities for different words. He uncovers a rationale for the varying grammatical properties of different words and in the process explains many facts about English - such as why we can say I wish to go, I wish that he would go, and I want to go but not I want that he would go. The first part of the book reviews the main points of English syntax and discusses English verbs in terms of their semantic types including those of Motion, Giving, Speaking, Liking, and Trying. In the second part Professor Dixon looks at eight grammatical topics, including complement clauses, transitivity and causatives, passives, and the promotion of a non-subject to subject, as in Dictionaries sell well. This is the updated and revised edition of *A New Approach to English Grammar on Semantic Principles*. It includes new chapters on tense and aspect, nominalizations and possession, and adverbs and negation, and contains a new discussion of comparative forms of adjectives. It also explains recent changes in English grammar, including how they have replaced the tabooed *he* as a pronoun referring to either gender, as in When a student reads this book, they will learn a lot about English grammar in a most enjoyable manner.

English Grammar Muhammad Ali Alkhuli, 2004-01-01 Most books on grammar emphasize syntax; they either ignore morphology almost completely or give it inadequate attention. Some grammar books, if they deal with morphology, include very few or no morphology exercises. For these reasons, the idea of this book has come into existence and, consequently, this book has become a reality. The book contains ten chapters. Chapter 1 deals with word structure; Chapter 2 deals with derivation (prefixes, infixes, suffixes); Chapter 3 discusses compounding in detail; Chapter 4 deals with inflection in detail; Chapter 5 explains the different means of word formation; Chapter 6 deals with nouns (forms, types, noun-markers); Chapter 7 focuses on verbs; Chapter 8, on adjectives; Chapter 9, on adverbs; Chapter 10, on minor word classes. Descriptor(s):

MORPHOLOGY | ENGLISH LANGUAGE | QUESTIONS AND ANSWERS

Comprehensive English Grammar (with Answers) Madan Sood, 2009

An Introductory English Grammar Norman C. Stageberg, 1971

English Grammar Roger Berry, 2018 Assuming no prior knowledge, books in this series offer an accessible overview of the subject, with activities, study questions, sample analyses, commentaries and key readings - all in the same volume.

A Practical English Grammar Audrey J. Thomson, Agnes V. Martinet, 1993

Essentials of English Grammar L. Sue Baugh, 1993 A concise guide to grammar, usage and style. Includes appendices on

irregular verbs, verb-preposition combinations, commonly confused words, and misspelled words.

Modern English Grammar J.C. Nesfield,1957

A Course Book in English Grammar Dennis Freeborn,1995-05-24 A revised and expanded edition which has additional chapters and material. A new opening chapter discusses the concept of grammatically correct English and various approaches to the writing of grammar books. The book itself describes Standard English and

The Elements of English Grammar George Philip Krapp,1908

English Grammar and Composition Francis J. Griffith,1965

English Grammar Richard Hudson,2016-01-29 English Grammar: * helps users to understand grammatical concepts * encourages the reader to practise applying newly discovered concepts to everyday texts * teaches students to analyze almost every word in any English text * provides teachers and students with a firm grounding in a system which they can both understand and apply.

Essentials of English Grammar Otto Jespersen,1939

A Student's Introduction to English Grammar Rodney Huddleston,Geoffrey K. Pullum,Brett Reynolds,2021-11-30 A new edition of a successful undergraduate textbook on contemporary international Standard English grammar, based on Huddleston and Pullum's earlier award-winning work, *The Cambridge Grammar of the English Language* (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken. Intended for students in colleges or universities who have little or no background in grammar or linguistics, this teaching resource contains numerous exercises and online resources suitable for any course on the structure of English in either linguistics or English departments. A thoroughly modern undergraduate textbook, rewritten in an easy-to-read conversational style with a minimum of technical and theoretical terminology.
