A Galaxy Here and Now Peter W. Lee, 2016-02-05 Star Wars begins with its famous title sequence, setting the story in the ancient past of a remote galaxy. Yet the phenomenal success of the film, the franchise, and its expanded universe is based upon its reflection of historical and cultural milieus here on modern-day Earth. This collection of new essays examine various ways in which George Lucas's saga touches upon contemporary social and political issues. Topics include the impact of the film's score on musical genres, feminism and NASA, the epic mimicry of Western-African and Bedouin cultural motifs, gender identity construction, Cold War narratives in radio and national mythology, and fan interpretations of authorship and authenticity.

Orchestral Pops Music Lucy Manning, 2008-12-23 This is a new reference handbook for conductors and orchestral librarians searching for available repertoire for orchestral 'pops' concerts. Various appendixes allow for easy cross-referencing for efficient searches.

*John Williams's Film Music* Emilio Audissino, 2014-06-12 John Williams is one of the most renowned film composers in history. He has penned unforgettable scores for Star Wars, the Indiana Jones series, E.T. the Extra-Terrestrial, Jaws, Superman, and countless other films. Fans flock to his many concerts, and with forty-nine Academy Award nominations as of 2014, he is the second-most Oscar-nominated person after Walt Disney. Yet despite such critical acclaim and prestige, this is the first book in English on Williams's work and career. Combining accessible writing with thorough scholarship, and rigorous historical accounts with insightful readings, John Williams's Film Music explores why Williams is so important to the history of film music. Beginning with an overview of music from Hollywood's Golden Age (1933-58), Emilio Audissino traces the turning points of Williams's career and articulates how he revived the classical Hollywood musical style. This book charts each landmark of this musical restoration, with special attention to the scores for Jaws and Star Wars, Williams's work as conductor of the Boston Pops Orchestra, and a full film/music analysis of Raiders of the Lost Ark. The result is a precise, enlightening definition of Williams's "neoclassicism" and a grounded demonstration of his lasting importance, for both his compositions and his historical role in restoring part of the Hollywood tradition.
