Stanley Fish

How to Write a Sentence Stanley Fish, 2024-03-19 A New York Times bestseller—Part ode, part how-to guide to the art of the well-constructed sentence (NPR). Some appreciate fine art; others appreciate fine wines. Stanley Fish appreciates fine sentences. The New York Times columnist and world-class professor has long been an aficionado of language. Like a seasoned sportscaster, Fish marvels at the adeptness of finely crafted sentences and breaks them down into digestible morsels, giving readers an instant play-by-play. In this entertaining and erudite gem, Fish offers both sentence craft and sentence pleasure, skills invaluable to any writer (or reader). *How to Write a Sentence* is both a spirited love letter to the written word and a key to understanding how great writing works; it is a book that will stand the test of time. Both deeper and more democratic than *The Elements of Style* — Adam Haslett, *Financial Times* A guided tour through some of the most beautiful, arresting sentences in the English language. — Slate

Renovating Your Writing Richard Kallan, 2017-07-06 *Renovating Your Writing* outlines the principles of effective composition by focusing on the essential skill set and mindset every successful writer must possess. Now in its second edition, this novel text provides readers with unique strategies for crafting and revising their writing, whether for school, work, or play. The new edition emphasizes, in particular, the importance of the writer embracing a rhetorical perspective, distinguishing between formal and social media compositional styles, and appreciating the effort needed to produce clear, concise, and compelling messages.

How to Read Journal Articles in the Social Sciences Phillip C. Shon, 2015-07-20 This superb guide teaches you how to read critically. Its no-nonsense, practical approach uses a specially developed reading code to help you read articles for your research project; this simple code enables you to decipher journal articles structurally, mechanically and grammatically.

Refreshingly free of jargon and written with you in mind, it's packed full of interdisciplinary advice that helps you to decode and critique academic writing. The author's fuss free approach will improve your performance, boost your confidence and help you to: Read and better understand content Take relevant effective notes Manage large amounts of information in an easily identifiable and retrievable format Write persuasively using formal academic language and style. New to this edition: Additional examples across a range of subjects, including education, health and sociology as well as criminology Refined terminology for students in the UK, as well as around the world More examples dealing specifically with journal articles. Clear, focused and practical this handy guide is a great resource for helping you sharpen your use of journal articles and improve your academic writing skills. 'I have used the book over the last five years with my students with great success. The book has helped students to develop their critical thinking, reading and writing skills and when it comes to writing a dissertation they have used the code sheet in their own writing.' - Pete Allison, Head of the Graduate School of Education, University of Edinburgh The Student Success series are essential guides for students of all levels. From how to think critically and write great essays to planning your dream career, the Student Success series helps you study smarter and get the best from your time at university. How to Read Journal Articles in the Social Sciences Phillip Chong Ho Shon, 2012-03-19 'Shon's writing is engaging and entertaining; he opens up the black box of academic reading and writing, explaining how to decode and critique formal scientific writing and systematically organize information gained from reading journal articles' - Dr Lorraine Whitmarsh, School of Psychology, University of Cardiff, UK 'Once the reader has mastered Philip Shon's codes and applied them to texts, it will become increasingly impossible not to write and critique with integrity. I thoroughly recommend this book' - Professor Helen Cowie, Faculty of Health and Medical Sciences, University of Surrey, UK Many texts provide tips for successfully writing theses, dissertations, and journal articles. All argue that writing is like any other skill - it has to be developed, taught, and practiced daily. The same is certainly true of academic reading, yet many advanced students have trouble with the essential skill of 'reading critically'. This handy guide teaches you how to read so you're able to maximize your output in the writing process, whether you're a student or early career researcher. The author's unique reading code teaches you how to approach social and behavioural science journal articles as texts that can be deciphered structurally, mechanically and grammatically. The strategies included allow you to systematize the reading, note-taking and organizing of voluminous amounts of information in an easily identifiable and retrievable format, which will be a huge confidence boost to anyone who struggles with this first phase in the writing process. This book is indispensable for social and behavioural science students and researchers worldwide wanting to sharpen their critical evaluative skills for better academic writing. ? SAGE Study Skills are essential study guides for students of all levels. From how to write great essays and succeeding at university, to writing

your undergraduate dissertation and doing postgraduate research, SAGE Study Skills help you get the best from your time at university. Visit the SAGE Study Skills website for tips, quizzes and videos on study success!

Developing Natural Curiosity through Project-Based Learning Dayna Laur, Jill Ackers, 2017-02-17 *Developing Natural Curiosity through Project-Based Learning* is a practical guide that provides step-by-step instructions for PreK-3 teachers interested in embedding project-based learning (PBL) into their daily classroom routine. The book spells out the five steps teachers can use to create authentic PBL challenges for their learners and illustrates exactly what that looks like in an early childhood classroom. Authentic project-based learning experiences engage children in the mastery of twenty-first-century skills and state standards to empower them as learners, making an understanding of PBL vital for PreK-3 teachers everywhere.

First You Write a Sentence Joe Moran, 2019-08-13 "Do you want to write clearer, livelier prose? This witty primer will help." —The New York Times Book Review An exploration of how the most ordinary words can be turned into verbal constellations of extraordinary grace through the art of building sentences The sentence is the common ground where every writer walks. A good sentence can be written (and read) by anyone if we simply give it the gift of our time, and it is as close as most of us will get to making something truly beautiful. Using minimal technical terms and sources ranging from the Bible and Shakespeare to George Orwell and Maggie Nelson, as well as scientific studies of what can best fire the reader's mind, author Joe Moran shows how we can all write in a way that is clear, compelling and alive. Whether dealing with finding the ideal word, building a sentence, or constructing a paragraph, *First You Write a Sentence* informs by light example: much richer than a style guide, it can be read not only for instruction but for pleasure and delight. And along the way, it shows how good writing can help us notice the world, make ourselves known to others, and live more meaningful lives. It's an elegant gem in praise of the English sentence.
