New Xenophobia in Europe Adrian Favell, Bernd Baumgartl, 2023-11-27 In the last years we have witnessed, predominantly within Europe, a dramatic upsurge in xenophobic attitudes and ethnic violence. This book analyses most European countries as far as the feeling for, the treatment of, and the action against foreigners is concerned and describes various aspects of the complexity and variation of the xenophobia theme. The economic recession, uncertainty about the future of granted values and institutions (like the EU, NATO, and OSCE) has brought xenophobia back to the forefront of the European agenda. This book is the product of an initiative by researchers at the European University Institute in Florence, and takes advantage of both the sophisticated research undertaken at and the multi-national composition of the Institute: all co-authors describe their own country, all have several years of experience as social scientists working on dissertations and in projects of related interest, and (nearly) all of them are EUI members or alumni.

Ethnic Stratification and Economic Inequality around the World Max Haller in collaboration, Anja Eder, 2016-03-03 The modern world is characterised by pervasive economic inequalities. Strong economic growth in some developing countries has contributed to a degree to a reduction in the levels of inequality between nations, yet inequality within nations remains high and in some cases, continues to increase. *Ethnic Stratification and Economic Inequality around the World* investigates the reasons for these striking differences, exploring the coincidence and interaction between economic stratification and ethnic differentiation. Drawing on extensive international survey and statistical data, the author develops a new theory and concrete hypotheses concerning the conditions which lead toward extreme inequality and those which tend toward greater equality. A systematic examination of the interaction between class structures, social stratification and ethnic differentiation, this book sheds light on the manner in which the resulting social structures produce different levels of economic inequality, offering a fivefold typology of patterns of ethnic stratification, which can be applied to present-day world regions. Drawing on the work of Max Weber to provide a rigorous investigation of inequality around the world, it demonstrates what 'sociology as a science of social reality' can significantly contribute to our understanding of global economic stratification. The book is relevant for a wide social-scientific audience, particularly for sociologists, economists and political scientists working in a comparative perspective.

La razón de Europa Andrés Ortega,1994 Este libro está escrito pensando constantemente en España, en España en Europa, es decir, pensando en europeo. Supone una reflexión personal, una idea de Europa, sin duda inacabada y que habrá que ir revisando a medida que Europa y España se revisen a sí mismas ; una idea que, desde luego, no se pretende exclusiva y que deja muchas cuestiones abiertas. Se trazan los elementos políticos básicos de la Unión Europea en busca de una razón - de paz y seguridad, de prosperidad y defensa de un modelo de sociedad, de democracia y convivencia nacionales- a renovar hoy ante la gran mutación mundial de este entresiglo y que resulta esencial para España, que tiene su propia razón europea

Transatlantic Fascism Federico Finchelstein,2010-01-11 In *Transatlantic Fascism*, Federico Finchelstein traces the intellectual and cultural connections between Argentine and Italian fascisms, showing how fascism circulates transnationally. From the early 1920s well into the Second World War, Mussolini tried to export Italian fascism to Argentina, the “most Italian” country outside of Italy. (Nearly half the country’s population was of Italian descent.) Drawing on extensive archival research on both sides of the Atlantic, Finchelstein examines Italy’s efforts to promote fascism in Argentina by distributing bribes, sending emissaries, and disseminating propaganda through film, radio, and print. He investigates how Argentina’s political culture was in turn transformed as Italian fascism was appropriated, reinterpreted, and resisted by the state and the mainstream press, as well as by the Left, the Right, and the radical Right. As Finchelstein explains, nacionalismo, the right-wing ideology that developed in Argentina, was not the wholesale imitation of Italian fascism that Mussolini wished it to be. Argentine nacionalistas conflated Catholicism and fascism, making the bold claim that their movement had a central place in God’s designs for their country. Finchelstein explores the fraught efforts of nacionalistas to develop a “sacred” ideological doctrine and political program, and he scrutinizes their debates about Nazism, the Spanish Civil War, imperialism, anti-Semitism, and anticommunism. *Transatlantic Fascism* shows how right-wing groups constructed a distinctive Argentine fascism by appropriating some elements of the Italian model and rejecting others. It reveals the specifically local ways that a

global ideology such as fascism crossed national borders.
