

Primitive Technology Book

John Plant

Primitive Technology John Plant, 2019-10-29 From the craftsman behind the popular YouTube channel Primitive Technology comes a practical guide to building huts and tools using only natural materials from the wild. John Plant, the man behind the channel, Primitive Technology, is a bonafide YouTube star. With almost 10 million subscribers and an average of 5 million views per video, John's channel is beloved by a wide-ranging fan base, from campers and preppers to hipster woodworkers and craftsmen. Now for the first time, fans will get a detailed, behind-the-scenes look into John's process. Featuring 50 projects with step-by-step instructions on how to make tools, weapons, shelters, pottery, clothing, and more, Primitive Technology is the ultimate guide to the craft. Each project is accompanied by illustrations as well as mini-sidebars with the history behind each item, plus helpful tips for building, material sourcing, and so forth. Whether you're a wilderness aficionado or just eager to spend more time outdoors, Primitive Technology has something for everyone's inner nature lover.

Primitive Technology David Wescott, 1999 Living in modern society, we have become increasingly disassociated from the earth, from the essence of ourselves, and the need is awakened in us to return to the wilderness--physically and emotionally. We long to feel a sense of connection with our ancient roots. This urge is what has prompted man's fascination with primitive skills: producing objects from natural materials using methods similar to prehistoric cultures. Primitive Technology: A Book of Earth Skills is a sharing of ideas--the philosophies, the history, and the personal stories by the authorities on primitive technology from the pages of The Bulletin of Primitive Technology. Included are instructions for creating fire and tools of wood, stone, and bone, as well as fiber adhesives, projectiles, art, and music. Practicing these primitive methods will lead the seeker towards a tangible, raw connection with the ancient past, with nature's resources and, ultimately, with the creative forces that constructed the foundation of man's survival on the planet.

Primitive Technology: the Complete Guide to Making Things in the Wild from Scratch John Plant, 2019-11-05 Disconnect from digital and reconnect with your inner caveman If there were ever a book to make you switch off the TV, unplug the gaming console and reconnect with nature, Primitive Technology is it. It will teach you the everyday skills that both the expert and the novice will need to craft resources from scratch from your natural surroundings and truly experience the wilderness. Author Primitive Technology, one of the world's most authoritative figures, has been going into the bush bare-handed for over 25 years, learning his craft from no master and developing a unique and alien approach to bushcraft not

seen anywhere else. For the first time, John Plant imparts his much sought-after knowledge to show us the fundamental skills needed to build a shelter, from lighting a fire and creating an axe head to crafting a spear and making a kiln. Using step-by-step instructions and practical illustrations, this is a must-have book for anyone who wants to learn a new skill, get outdoors and reconnect with nature like never before.

Primitive Technology II David Wescott, 2001-08-20 The Stone Age is the common denominator of mankind, and through experimental archeology—the relearning and replication of ancient skills—we take a step of discovery and understanding into this rich past. In this collection, drawn from the pages of the Bulletin of Primitive Technology, learn to create tools to fabricate more complex technologies; master the arts of the bow and arrow; build a shelter or fashion clothing from fibers or buckskin. Primitive Technology II: Ancestral Skills provides the guide to rediscovery of the skills and crafts that bind us all into this great human family.

Artifacts Henry Hodges, 1964

Practicing Primitive Steven M. Watts, 2005 Engaging, informative book for educators, museum staff, and prehistory buffs interested in trying their hands at yucca-leaf lashing, cattail cutting (to build a house, or a hat), or arrow-making with rivercane—to name just a few of the many projects described. Material on administering a primitive skills program with both group and individual activities is included. The book is not indexed. Annotation 2004 Book News, Inc., Portland, OR (booknews.com).

Bulletin of Primitive Technology, 2001

Primitive Technology Ranae Cahoon, Brigham Young University. Department of Anthropology, 1976

A View to the Past Scott Jones, 2008 A View to the Past is the collected work of primitive technologist and archaeologist Scott Jones. It brings together articles that have appeared in the Bulletin of Primitive Technology, integrated with previously unpublished sections. It combines basic skills, advanced techniques, experimental methods and thought pieces as expressed through more than twenty years of experience in primitive technology.

Primitive Technology and the Advent of Man and Civilization Bernhart E. Johnson, 197?

The Emergence of Pressure Blade Making Pierre M. Desrosiers, 2012-03-13 Human development is a long and steady process that began with stone tool making. Because of this skill, humans were able to adapt to climate changes, discover new territories, and invent new technologies. Pressure knapping is the common term for one method of creating stone tools, where a larger device or blade specifically made for this purpose is used to press out the stone tool. Pressure knapping was invented in different locations and at different points in time, representing the adoption of the Neolithic way of life in the Old world. Recent research on pressure knapping has led for the first time to a global thesis on this technique. The contributors to this seminal work combine research findings on pressure knapping from different cultures around the globe to develop a

cohesive theory. This contributions to this volume represents a significant development to research on pressure knapping, as well as the field of lithic studies in general. This work will be an important reference for anyone studying the Paleolithic, Mesolithic, and Neolithic periods, lithic studies, technologies, and more generally, cultural transmission.

Survival Skills of Native California Paul Campbell,1999 Author Paul Campbell reveals the knowledge he has spent 20 years learning and reproducing from California natives. Included are sections on the basic skills of survival, the tools of gathering and food preparation, and the implements of household and personal necessity, as well as the arts of hunting and fishing. Sample topics include: shelter; greens, beans, flowers and other vegetables; meat preparation; how to make and shoot an Indian bow.--From publisher description.

The Encyclopedia of Country Living, 50th Anniversary Edition Carla Emery,2025-08-05 OVER 1 MILLION COPIES SOLD: The 50th anniversary edition of the classic manual for sustainable living—with 900+ pages covering basic country skills and wisdom for living off the land! Whether you're homesteading, prepping, or living off-grid, keep your family healthy, safe, and self-sufficient—no matter what's going on in the world. From homesteaders to urban farmers, and everyone in between, there is a desire for a simpler way of life: a healthier and self-sufficient natural lifestyle that allows you to survive and thrive—even in uncertain times. Carla Emery's classic guide will teach you how to live off the grid, be prepared, and do it yourself. • Can, dry, and preserve food • Plan your garden with a beginner's guide to gardening • Grow your own food • Make 20-minute cheese • Make your own natural skincare products • Bake bread • Cook on a wood stove • Learn beekeeping • Raise chickens, goats, and pigs • Create natural skincare products • Make organic bug spray • Treat your family with homemade natural remedies • Make fruit leather • Forage for wild food • Spin wool into yarn • Mill your own flour • Tap a maple tree • And so much more! The Encyclopedia of Country Living has been guiding readers for more than 50 years, teaching you all the skills necessary for living independently off the land. Whether you live in the city, the country, or anywhere in between, this is the essential guide to living well and living simply.

Primitive Skills and Crafts ,2007-08-17 From craftsmen, artisans, archaeologists, anthropologists, and outdoorsmen come skills passed down through the centuries: fire making, camp cooking, basket weaving, pottery making, animal tracking. Now anyone can make glue from the yucca plant or make a juniper-bark berry basket--Jacket.
