**Exploring Business Language and Culture** Urszula Michalik, Paweł Zakrajewski, Iwona Sznicer, Anna Stwora, 2020-11-01 This book aims to present the results of research in the sphere of business language and culture, as well as the experience of pedagogical staff and practitioners concerned with broadly understood business. The highly complex nature of contemporary business environment, approached from both the theoretical and practical standpoint, does not cease to prove that research into business studies cannot be dissociated from the cultural and linguistic context. The chapters included in this book were contributed by academics and practitioners alike, which offers a balanced approach to the topic and ensures high levels of diversity together with an undeniable homogeneity. They were gathered with a view to show various aspects of business language, perceived both as a medium of communication and as a subject of research and teaching. They are concerned with business culture as well, including business ethics and representations of business in popular culture. Owing to its multidisciplinary approach, the book presents a roadmap towards successful functioning in business settings, highlighting such issues as education for business purposes, the study of language used in business contexts, the aspects of cross-cultural communication, as well as ethical behaviour based upon different values in multicultural business environments. Given its multifarious character, the book surely appeals not only to academics, but also to the interested laymen and students who wish to expand their knowledge of business studies and related phenomena.

**Mysteries of the Jaguar Shamans of the Northwest Amazon** Robin M. Wright, 2020-04-01 *Mysteries of the Jaguar Shamans of the Northwest Amazon* tells the life story of Mandu da Silva, the last living jaguar shaman among the Baniwa people in the northwest Amazon. In this original and engaging work, Robin M. Wright, who has known and worked with da Silva for more than thirty years, weaves the story of da Silva's life together with the Baniwas' society, history, mythology, cosmology, and jaguar shaman traditions. The jaguar shamans are key players in what Wright calls "a nexus of religious power and knowledge" in which healers, sorcerers, priestly chanters, and dance-leaders exercise complementary functions that link living specialists with the deities and great spirits of the cosmos. By exploring in depth the apprenticeship of the shaman, Wright shows how jaguar shamans acquire the knowledge and power of the deities in several stages of instruction and practice. This volume is the first mapping of the sacred geography ("mythscape") of the Northern Arawak-speaking people of the northwest Amazon, demonstrating direct connections between petroglyphs and other inscriptions and Baniwa

sacred narratives as a whole. In eloquent and inviting analytic prose, Wright links biographic and ethnographic elements in elevating anthropological writing to a new standard of theoretically aware storytelling and analytic power.

**Don't Blame God** Alexandra Shankland, 2013-03-05 An up front and brutally honest account of forty eight years of living with spirit; why it is not a party trick and the cautionary tale of how uneducated dabbling in the spirit world almost destroyed her as much as it had saved her. Alexandra tells the often tragic and sometimes hilarious true story of her interactions with those she refers to as 'the Others,' and why it is vitally important we all understand the real reason they communicate with the living and the effect they have on the choices we make.

**The Jaguar Within** Rebecca R. Stone, 2012-09-21 An important new way of viewing the prehistoric art of the Americas, *The Jaguar Within* demonstrates that understanding a work of art's connection with shamanic trance can lead to an appreciation of it as an extremely creative solution to the inherent challenge of giving material form to nonmaterial realities and states of being. Shamanism—the practice of entering a trance state to experience visions of a reality beyond the ordinary and to gain esoteric knowledge—has been an important part of life for indigenous societies throughout the Americas from prehistoric times until the present. Much has been written about shamanism in both scholarly and popular literature, but few authors have linked it to another significant visual realm—art. In this pioneering study, Rebecca R. Stone considers how deep familiarity with, and profound respect for, the extra-ordinary visionary experiences of shamanism profoundly affected the artistic output of indigenous cultures in Central and South America before the European invasions of the sixteenth century. Using ethnographic accounts of shamanic trance experiences, Stone defines a core set of trance vision characteristics, including enhanced senses; ego dissolution; bodily distortions; flying, spinning, and undulating sensations; synaesthesia; and physical transformation from the human self into animal and other states of being. Stone then traces these visionary characteristics in ancient artworks from Costa Rica and Peru. She makes a convincing case that these works, especially those of the Moche, depict shamans in a trance state or else convey the perceptual experience of visions by creating deliberately chaotic and distorted conglomerations of partial, inverted, and incoherent images.

**A Grammar of Paluai** Dineke Schokkin, 2020-02-24 This is the first comprehensive description of Paluai, an Oceanic Austronesian language spoken on Baluan Island in Manus Province, Papua New Guinea. Based on extensive field research, the grammar covers all linguistic levels, including phonology, morphology, syntax and semantics, while paying particular attention to pragmatics and discourse practices. This is the first comprehensive description of Paluai, a language from the underdescribed Admiralties subgroup, a first-order branch of Oceanic (Austronesian). Paluai is spoken on Baluan Island in Manus Province, Papua New Guinea, by two to three thousand people. The grammar is based on extensive field research by the author and covers all linguistic levels. After a general introduction of its socio-cultural context, the language's phonology is discussed, followed by two chapters on its parts of speech, divided by open and closed word classes. Following chapters address topics such as the structure of the noun phrase, verbal and non-verbal clauses, grammatical relations, serial verb constructions, mood, negation and clause combining. The final chapter provides an in-depth discussion of pragmatics and discourse practices relevant to Paluai, illustrated through two narrative texts that are included integrally at the end of the book. This grammar is of interest to scholars working on Austronesian languages, particularly those of the New Guinea region, and those working on linguistic typology. It is also relevant to those interested in the history, languages and cultures of this region more generally.

The Sacred Writings of Saint Basil Saint Basil, The principal theological writings of Basil, bishop of Caesarea, are his *De Spiritu Sancto*, a lucid and edifying appeal to Scripture and early Christian tradition, and his three books against Eunomius, the chief exponent of Anomoian Arianism. He was a famous preacher, and many of his homilies, including a series of lenten lectures on the Hexaëmeron, and an exposition of the psalter, have been preserved. His ascetic tendencies are exhibited in the *Moralia* and *Regulae*, ethical manuals for use in the world and the cloister respectively. His three hundred letters reveal a rich and observant nature, which, despite the troubles of ill-health and ecclesiastical unrest, remained optimistic, tender and even playful. His principal efforts as a reformer were directed towards the improvement of the liturgy, and the reformation of the monastic orders of the East.
