The A to Z of Music Theory Fundamentals Stephen T. Zolper, 2016-11-22 As the title implies, this versatile workbook covers every possible topic for a one-semester introductory theory course. The greatest value, however, is its efficient, effective approach. By using a simplified process, technically challenging topics such as scales, intervals, and chords are more quickly learned through pattern recognition rather than a reliance on procedure. Topics are presented using this concise, no-nonsense approach. Newly learned musical techniques become quickly ingrained and are continually linked to musical expression. The book is accessible for the novice and engaging for the musically experienced. Unlike other texts, it provides an approachable methodology that gradually advances readers toward a working knowledge of harmony. The book is distinguished in how both melody and harmony are explored in view of particular musical effects. Zolper's approach offers students an exciting guide to streamlined mastery of basic theory while bringing to light a wealth of musical discoveries. The A to Z website presents sound clips of musical examples and featured compositions in addition to supplemental activities for additional practice.

All Made of Tunes James Peter Burkholder, 1995-01-01 Charles Ives is famous for using borrowed material in his music. Almost two hundred individual works or movements, spanning his entire career and representing more than a third of his output, incorporate music by other composers or from his own previous work. In this book, the eminent Ives scholar J. Peter Burkholder identifies the different kinds of quotations in Ives's music, explores the complex musical, aesthetic, and psychological motivations behind the borrowings, and shows the purpose, techniques, and effects that characterize each one. Burkholder catalogues fourteen distinct ways that Ives borrowed, ranging from direct quotation to paraphrase, variation, collage, modeling, and stylistic allusion. Arguing that these borrowing procedures were compositional strategies, he provides a new perspective on Ives's process of composition. In addition, by tracing the development of Ives's borrowing practices through his career, he contributes to an understanding of the composer's stylistic evolution. And by showing how much of Ives's music uses borrowing procedures that are common to many composers, he reveals that Ives is not as far removed from the classic-romantic tradition as has been thought. Finally, Burkholder's comprehensive treatment of Ives's borrowing

techniques offers a new perspective on the entire field of musical borrowing.

The Songs of John Lennon John Lennon, 2002 (Berklee Press). An essential guide for all songwriters and Beatles fans, this book explores John Lennon's songwriting genius with a guided tour through 25 of his Beatles-era hits. Author John Stevens explains Lennon's intuitive talent from a technical point of view, through the lens of songwriting's three basic elements: melody, harmony and lyric. He shows how Lennon fashioned songs that were at once politically and socially relevant during the '60s, yet remain ageless and timeless today. Features in-depth musical analysis of: A Hard Day's Night * Ticket to Ride * Norwegian Wood * Strawberry Fields Forever * Come Together * and more. John Stevens is a songwriting professor at Berklee College of Music. For more than 20 years, he has taught The Music of John Lennon, one of the most popular courses in the Berklee curriculum. You've got the Beatles' records and the John Lennon records; now with this book, you can have the Owner's Manual. This will tell you how the songs are built and how they work. Good stuff. Explores reading and writing skills at the advanced level, with emphasis on process The Master Reader/Writer offers a balanced approach to literacy by bringing instruction for reading and writing together in one resource. As similar and complementary communication processes, reading and writing both have recursive before, during, and after phases-and the outcome of both is that the individual constructs his or her own meaning. This text builds on these similarities. Continuing the success of the first book in this series, The Effective Reader/Writer, the revolutionary design of The Master Reader/Writer reinforces the writing, reading, and thinking processes by showing students visually how they are interconnected. Students have ample practice to focus on individual skills, along with challenging writing situations in which to apply these skills in their own writing. This approach fosters engaged learning and metacognition. The reading/writing process is introduced and illustrated in Unit 1 with two-page four-color graphics that explain this processes as a strategy that students apply to reading and writing in everyday life, college life, and working life to comprehend and compose text. In each module opener, the photographic organizer introduces the concept of the module and encourages students to think critically about the concept. Throughout each module, examples and explanations engage students as active learners; then practice exercises and writing workshops offer opportunities for students to apply what they learn and test their understanding. Each module ends with a series of post-lesson actives such as Writing Workshops, Reading/Writing Assignments for Every day, College and Working Life; Review Tests; Academic Learning Logs and a Capstone academic reading and writing assignment with one to three readings relevant to the modules overarching theme. Also Available with MySkillsLab (R) This title is also available with MySkillsLab-an online homework, tutorial, and assessment program designed to engage students and improve results. Within its structured environment, students practice what they learn, test their understanding, and pursue a personalized study plan that helps them better absorb course material and understand difficult concepts. MySkillsLab is also available with full eText and a selection of exercises and writing assignments tied directly to the textbook. For each chapter, students are directed to the corresponding section in MySkillsLab for further practice and review.
