Common Herbs for Natural Health Juliette de Baïracli-Levy,1996-04-11 Common Herbs for Natural Health is an essential herbal for the newcomer to the expert. Juliette de Bairacli utilizes her Gypsy wisdom and decades of studying herbs and healing to create a book filled with natural remedies and recipes. What a treasure! Her respect and love for the plants, the earth, and the medicinal knowledge garnered from people of all ethnic origins is powerful, practical, and sensible. My gardens and personal health are already benefiting from this intelligent and tender book.

Summer in Galilee Juliette de Bairacli Levy,2011 Join Juliette de Bairacli Levy - Gypsy herbal veterinarian and mother of two toddlers - as she spends an eventful summer swimming in the waters, and the history, of the Sea of Galilee, in the modern state of Israel. Juliette trains her observant eyes, and lovely descriptive prose, on the people, places, plants and animals around her. You'll thrill as she and her children discover ancient treasure, be fascinated as she visits the tombs of Jewish mystics, hold your breath as Juliette dares to traverse the forbidden militarized zone around the Jordan River in pursuit of a personal communion with this holiest of lands, and, perhaps, scream in terror as she is visited in the dark of night by an enormous snake - only to breathe a sigh of relief when she is saved by her faithful Afghan hound. Juliette vividly described her visit to a Bedouin village, and the trouble this causes, both in the kibbutz where she lives and among the Bedouins. But with keen wit, steely nerve, and kind heart, she manages to please everyone, including her readers, as she saves the day and mends frayed tempers.

The Earthwise Herbal, Volume I Matthew Wood,2008-06-03 The first part in a comprehensive two-volume guide on the use of medicinal plants in Western herbal medicine—from an author who has almost forty years of clinical experience The first in a two-volume set, The Earthwise Herbal profiles Old World plants (volume two will treat American plants). Organized alphabetically, the book encompasses all the major, and many of the secondary, herbs of traditional and modern Western herbalism. Author Matthew Wood describes characteristic symptoms and conditions in which each plant has proved useful in the clinic, often illustrated with appropriate case histories. He also takes a historical view based on his extensive study of ancient and traditional herbal literature. Written in an easy, engaging, non-technical style, The Earthwise Herbal offers insight into the "logic" of the plant: how it works; in what areas of the body it works; how it has been used in the past; what its pharmacological constituents indicate about its use; and how all these different factors hang together to produce a

portrait of the plant as a whole entity. Ideal for beginners, serious students, or advanced practitioners, The Earthwise Herbal is also useful for homeopaths and flower essence practitioners as it bridges these fields in its treatment of herbal medicines.
