New York's Chinatown Louis Joseph Beck, 1898

*Manhattan's Chinatown* Daniel Ostrow, David Ostrow, 2008 Manhattan's Chinatown is an enclave located in the oldest section of New York City, Manhattan's Lower East Side. For most who reside there, Chinatown serves as the quintessential microcosm. It is a place to do business, buy groceries, and raise families. For many Chinese immigrants, it provides a stepping stone to a perceived better life that may only be achieved through hard work, determination, sacrifice, and assimilation. Chinatown's main sources of income and employment lie in its many restaurants, factories, small shops, and businesses. However, for generations of New Yorkers and visitors, Chinatown represents the very embodiment of exotica. With its ancient tenements, temples, fragrant food aromas, neon signs, colorful sites and sounds, and aromatic curio shops, it provides the ultimate journey of the senses, revealing an energetic and vibrant world. Through vintage postcards, Manhattan's Chinatown chronicles how this community has continually evolved over 150 years.

**China to Chinatown** Ying Xu,2010 The purpose of this thesis was to determine what factors influenced the establishment of Chinatown in New York City; to examine Chinatown's intangible aspects, especially lives and experiences of Chinese immigrant and their relationship with Chinatown; and to look at the places that were significant in the Chinatown's history and important to people in the past. By analyzing its history, people's lives, and physical spaces, I argue that New York's Chinatown is and continues to be a major component in the lives of Chinese and a significant part of Manhattan. Chinatown works to guide its members into mainstream America society without losing their ethnic identity and solidarity.

**New York City Chinatown Chinese** Jean Lau Chin, 2017-03-19 The story of the Toisanese and Cantonese Chinese, especially of those from New York City, are largely missing from our annals of history. The accomplishments of these peasant farmers and their offspring from southern China were extraordinary amidst enormous struggles. Known as the Jook Sing generation, their children went on to become responsible U.S. citizens and educated professionals. Many enter fields where no Chinese had gone before. They created, within New York City's Chinatown, a village and a community with its cobweb of family and social relationships. It was safe, supportive, and they belonged. This book is a collection of narratives about ordinary people who made extraordinary strides. It is a psychosocial account of narratives of the Toisanese and Cantonese Chinese growing up during the 1940s-1960s in the US-told for the next generation lest they be forgotten. While the Garden of Eden lies in the East for Westerners, the Jade Mountain of the Queen Mother, Hsi Wang Mu, lies in the West for Easterners. These pioneering Chinese made their Journey to the West. What made for their resilience and bonds that enabled them to succeed? Isn't it ironic that they came to America for economic opportunities, only to be mistrusted for their political allegiances? They were recruited for jobs that White Americans did not want; yet they became an economic threat because they took away American jobs. Chinatown was viewed as a secretive and isolated community; yet the anti-Chinese laws blatantly discriminated and excluded them from housing, immigration, and access to mainstream resources. Isn't it ironic how many Chinese Americans served in the military, yet faced more backlash from their American comrades than from the enemy? They continued to be viewed as foreigners despite sacrificing their lives for the US. But most of all, this story about the Cantonese and Toisanese Chinese is a story about the plight of all immigrants. Volume 2 is a collection of stories for the New York City Chinatown Oral History Project, [www.ceoservices.wix.com/nycchinatownorallhist](http://www.ceoservices.wix.com/nycchinatownorallhist). The project celebrates the

lives of ordinary Chinese immigrants and Chinese American citizens, who shared similar experiences, and together made extraordinary strides as a community-forming bonds that have lasted a lifetime. Since the biennial NYC Chinatown Reunions in Las Vegas began in 2000, many felt the need to document these stories of a forgotten generation in the annals of U.S. history. Few Toisanese now immigrate to America. Yet, they were responsible for the initial introduction of cheap Chinese food to the American public-Chow Mein, Chop Suey, Wonton Soup and Egg rolls. What a difference today's more gourmet Cantonese cuisine is to the American palate! While Volume I was foundational, Volume II builds on and expands these narratives of resilience and community support networks. Over 300 individuals have participated to this project. This volume includes stories collected between 2013 and 2016 from individual interviews, recorded project events, submitted stories, and taped conversations. All participants have given permission for their stories to be used. Common themes in Volume II include that of Chinatown as a village, the bonds among Chinese families, the sacrifice made by our pioneering parents, Chinese American identity, and how we did it in one generation. Our Journey to the West marks the end of an era and how a unique Chinese American culture emerged. The challenges and resilience of this group in dealing with mobility, access, discrimination, and the stigma and pride of their Toisanese ways are inspiring. Most lived in poverty amidst a backdrop of cultural and community riches. They Lived the American Dream-their story is of accomplishments and successes, notable firsts and atypical paths as descendants of peasant farmers from Toisan to become productive Chinese American citizens. And We did it Our Way!

*City Within a City: How Kids Live in New York's Chinatown* Kathleen Krull,1994 Describes the lives of two young Chinese Americans and their customs and conditions at home in New York City's Chinatown.

Who Are the Cantonese Chinese?: New York City Chinatown During The 1940s-1960s Jean Chin,Daniel Lee,2015-04-04 The Cantonese Chinese were largely Toisanese peasant farmers from southern China and the original Chinese pioneers to the United States starting in the 1800s. Recruited as cheap labor to build the transcontinental railroad, they faced harsh discrimination and were viewed as an economic threat during the California Gold Rush. After its completion, they were omitted from the U.S. annals and the only national group ever to be barred from immigrating to the U.S. by the Chinese Exclusion Acts between 1882 and 1943. After World War II, they were then viewed as communist threats. As they migrated

east to New York City, laundries and restaurants were the only occupations opened to them. They retreated to the safe havens of New York City's Chinatown or became the lone Asians in their neighborhoods in the outer boroughs. Their offspring are the voices in this book; they are the Chinese Americans growing up in New York City's Chinatown between the 1940s and 1960s, a generation sandwiched between post-World War II (1941-1945) and the Civil Rights Movement of the 1960s. What was life in New York City's Chinatown like during that time? Their stories are a psychosocial account capturing the bonds, the family and community networks, the struggles and the resiliency of growing up Chinese in New York City. Their parents came from working in the rice fields of southern China to toiling as laundry, restaurant, and garment workers in the United States. This generation went on to become upstanding citizens working in professional fields-mostly engineering and teaching. As a group, their accomplishments and achievements were unsurpassed. Because there were so few Chinese Americans outside of the laundries and restaurants, their entry into many fields were untraditional and exceptions. They often became the first. As Ted Ho, one of our participants, said: And we did it in one generation! Why this book about this group of ordinary people? Lest it be forgotten, we need to document these stories-struggles and accomplishments-of the early Chinese pioneers to the U.S. for the next generations. They grew up in a society intolerant of their differences-they were viewed as the perpetual foreigner and scapegoated by earlier immigrant groups. While the Toisanese were once the majority of the U.S. Chinese American population, they have been increasingly replaced by the Cantonese and Taiwanese in the 60s and 70s, by the Vietnamese Chinese in the 80s, and by mainland Chinese largely from Fujian province in 90s. This book is a psychosocial account of the resiliency and community networks amidst discrimination and assimilation in a bicultural world of Chinese Americans growing up in New York City in the 1940s-1960s-it is written in their voices. But it is also the story of all immigrants.

Chinatown of New York City Wendy Wan-Yin Tan, 2008 For a span of more than a century, New York's Chinese communities have grown uninterruptedly from three streets in lower Manhattan to five Chinatowns, over 100 street blocks, across the boroughs of Manhattan, Queens, and Brooklyn. No other Chinese communities outside Asia come close to this magnitude.
