It's a Matter of Fact Angie Miller, 2018-04-09 In this new book from Routledge and MiddleWeb, author Angie Miller shows how you can turn your students into informed citizens by teaching them how to research effectively. In today's information-saturated world research skills have moved beyond fact-finding, into fact-sifting, fact-sorting, and fact-assessing. Miller shows you how to help students check sources, take good notes, make use of information, and synthesize and present information across the subject areas. She also shows how to make research a daily practice, not a one-time essay or project. With examples and online handouts you can use immediately, this practical book is a valuable resource for educators seeking to engage students in their work and encourage them toward higher level thinking.

What Am I Here For? Martin C. Bala, 2024-03-18 We all go through life with similar struggles and desires, but not everyone follows their childhood dreams, not everyone is successful, or at least feels that way. There are also moments in your life when something unusual happens. An accident, a health problem, or something bigger than your job, your career. In those moments, life loses its meaning and you start to think: Is what I am doing now all there is? Is this what I dreamed of as a child? What am I here for? Similar questions have been on my mind for more than two decades of my life, and I have found answers that I am willing to share with you in this book. People who are truly successful do things differently than most, and it is not too late for you to learn what they know. Without finding your purpose, true success can be very difficult to achieve. It is never too late to change the way you think, to act differently, and to make a difference. Everyone needs to believe in something, even if it is only in their own abilities. I invite you on an exciting journey of self-discovery and the beginning of a new phase of your life. What you will find in this book is a great insight into the psychology of who you are and a different perspective on widely accepted truths. It will teach you how to work on yourself and apply the knowledge you find to your own life. I've turned my life around, and so can you. You already have what you need. Find out how you can live the life of your dreams! The world of subjective contrast and compassion Is a false world, built entirely By each person's imagination. Nothing is as it seems..." ~ Zen proverb

Get Out of Your Own Way Dave Hollis,2020-03-10 The idea that you could be more but got in your own way should wake you up in the middle of the night. Dave Hollis used to think that "personal growth" was just for broken people, then he woke up. When a looming career funk, a growing drinking problem, and a challenging trek through therapy battered Dave Hollis, a Disney executive and father of four, he began to realize he was letting untruths about himself dictate his life. As he sank to the bottom of his valley, he had to make a choice. Would he push himself out of his comfort zone to become the best man he was capable of being, or would he play it safe and settle for mediocrity? In Get Out of Your Own Way, Dave tackles topics he once found it difficult to be honest about, things like his struggles with alcohol and his insecurities about being a dad. Offering encouragement, challenges, and a hundred moments to laugh, Dave will help you: Discover the way for those of us who are, like he was, skeptical of self-help but wanting something more than the status quo Drop negative ideas about who we are supposed to be and finally start living as who we really are See our own journeys more clearly as he unpacks the lies he once believed—such as "I Have to Have It All Together" and "Failure Means You're Weak" Learn the tools that helped him change his life, and may change your life too Get Out of Your Own Way is a call to arms for anyone who's interested in a more fulfilled life, who, along the way, may have lost their "why" and now wonders how to unlock their potential or be better

for their loved ones.

One Thousand Questions and Answers on Jewels of Knowledge and Trivia Asher Elkayam,2015-04-23 The following are questions on important subjects intended to help people use their memory in order to retrieve information on subjects they know such as History, Geography, Religion, Science and more trivia and curiosity questions will also be included. This project will be divided into ten chapters with 100 questions for each chapter. The questions represent the first part of the book. The second part of the book includes the answers. Unlike in the Jeopardy Show, which is designed for a new champions, this project is for everyone. No one is required to gamble or play for money. No one is required to pull hair in order to find answers which may not always be so important or indispensable for everyone in real life. It is intended to entertain and to enrich knowledge. Some questions may pertain to one or more subjects or chapters. For example, questions on the Patriarch Abraham, could be found in the chapter on ancient history as well as in the chapter on the Bible. Questions on quotes may pertain to ancient history and scriptures as well as in contemporary writers/scientists. The questions and statements given here are of public domain and are not questions or statements uniquely or specifically made by any educational institution. However, credit is given when due. The answers will be given at the end of the book, so people can use their memory and knowledge before they look for the answer. The author has consulted and researched dozens of books and hundreds of internet sources as written in his bibliography. Some of the answers may be found in books he had previously published, namely The Bible, The Power of the Word (and in between the lines); The Quran and Biblical Origins; One Family, Four Cultures and Four Continents; Whose God is it Anyway?; Love and Romance in the Bible. Those books can be viewed at the following sites: www.amazon.com, www.asherauthor.com, www.xlibris.com and www.lulu.com (click on authors name) The purpose of this work is to have people enjoy daily a few moments of fun. The contents are not in any chronological order. This is not a fiction or drama book that needs to be finished at the end of the day. This will not only be fun to test ones knowledge, but also an excellent tool to sharpen and refresh the mind on different fields of knowledge. In sum, is it important to state that rediscovering old and new facts and data can lead to a certain happiness and personal satisfaction. Knowledge on diverse subjects can help in achieving better self-confidence and self-expression and, overall, a better quality of life for all people. This project has something for everyone. The questions and answers will undoubtedly satisfy readers of all walks of life and of most age groups. Facts, data and world events become so complex that this project. Finally, this project has been inspired by personal experience as it is explained at the end of this book under the title References and Bibliography.

Consistently Opposing Killing Rachel M. MacNair, Stephen Zunes,2008-04-30 This work explains an increasingly popular view dubbed the Consistent Life Ethic, which holds that all life deserves reverence, so all social support for actions that destroy life should be withdrawn. The call is for opposition to abortion, capital punishment, euthanasia and other forms of killing to be consistent. Supporters of this view, shared widely in these pages, include figures from the Dalai Lama and Nobel Peace Prize winner Malread Corrifon Maguire to actor Martin Sheen and Village Voice columnist Nat Hentoff. It is at once an ethical, religious and political ideology, explored here in its application to actions from treatment of unborn humans to infants, the disabled, the poverty-stricken, war combatants and animals. In the work at hand, contributors explain the history of the pro-life movement, its growth and expansion, how these types of seemingly disparate killing are all linked, why a Consistent Life Ethic is needed, and how individuals can take steps to assure this ethic is more widely accepted.
