First-Person Journalism Martha Nichols, 2021-11-11 A first-of-its-kind guide for new media times, this book provides practical, step-by-step instructions for writing first-person features, essays, and digital content. Combining journalism techniques with self-exploration and personal storytelling, First-Person Journalism is designed to help writers to develop their personal voice and establish a narrative stance. The book introduces nine elements of first-person journalism—passion, self-reporting, stance, observation, attribution, counterpoints, time travel, the mix, and impact. Two introductory chapters define first-person journalism and its value in building trust with a public now skeptical of traditional news media. The nine practice chapters that follow each focus on one first-person element, presenting a sequence of voice lessons with a culminating writing assignment, such as a personal trend story or an open letter. Examples are drawn from diverse nonfiction writers and journalists, including Ta-Nehisi Coates, Joan Didion, Helen Garner, Alex Tizon, and James Baldwin. Together, the book provides a fresh look at the craft of nonfiction, offering much-needed advice on writing with style, authority, and a unique point of view. Written with a knowledge of the rapidly changing digital media environment, First-Person Journalism is a key text for journalism and media students interested in personal nonfiction, as well as for early-career nonfiction writers looking to develop this narrative form.

Dave Barry's Money Secrets Dave Barry, 2006-01-17 Did you ever wish that you really understood money? Well, Dave Barry wishes that he did, too. But that hasn't stopped him from writing this book. In it, Dave explores (as only he can) such topics as: • How the U.S. economy works, including the often overlooked role of Adam Sandler • Why it is not a good idea to

use squirrels for money • Strategies that will give you the confidence you need to try for a good job, even though you are—let's be honest—a no-talent loser • How corporate executives, simply by walking into their offices, immediately become much stupider • An absolutely foolproof system for making money in the stock market, requiring only a little effort (and access to time travel) • Surefire tips for buying and selling real estate, the key being: Never buy—or, for that matter, sell—real estate • How to minimize your federal taxes, safely and legally, by cheating • Why good colleges cost so much, and how to make sure your child does not get into one • How to reduce the cost of your medical care by basically not getting any • Estate planning, especially the financial benefits of an early death • And many, many pictures of Suze Orman But that's only the beginning! Dave has also included in this book all of the important points from a book written by Donald Trump, so you don't have to read it yourself. Plus he explains how to tip, how to negotiate for everything (including bridge tolls), how to argue with your spouse about money, and how much allowance to give your children (three dollars is plenty). He also presents, for the first time in print anywhere, the Car Dealership Code of Ethics ("Ethic Seven: The customer is an idiot"). Also, there are many gratuitous references to Angelina Jolie naked. You can't afford not to buy this book! Probably you need several copies. What kind of financial shape are you in right now? This scientific quiz will show you. Be honest in your answers: If you lie, you'll only be lying to yourself! The place to lie is on your federal tax return. What is your annual income? 1. More than \$50,000. 2. Less than \$50,000. 3. However much I get when I return these empties. Not counting your mortgage, how much money do you currently owe? 1. Less than \$10,000. 2. More than \$10,000. 3. Men are threatening to cut off my thumbs. How would you describe your portfolio? 1. Conservative, mainly bonds and blue-chip equities. 2. Aggressive, mainly options and speculative stocks. 3. My what? When analyzing an investment, what do you consider to be the most important factor? 1. The amount of return. 2. The degree of risk. 3. The name of the jockey. How do you plan to finance your retirement? 1. Savings. 2. Social security. 3. Sale of kidneys. —from the Introduction: "Why You Need This Book" Also available as a Crown eBook.

Collected here are over 4,000 of the best comedic lines from the movies. The compilers of this book have tried to bring together some of the funniest, wittiest and most outrageous snatches of dialogue on film over a sixty year time period. For each entry the authors set the quotation in context, provide the name of the actor or actress, the name of the movie and the year of release. The quotations are arranged by a broad range of categories, such as politics, food and eating, gambling, and many others. A title index and a name index follow the body of the book..
