The Routledge History of the Domestic Sphere in Europe Joachim Eibach, Margareth Lanzinger, 2020-12-29 This book addresses the multifaceted history of the domestic sphere in Europe from the Age of Reformation to the emergence of modern society. By focusing on daily practice, interaction and social relations, it shows continuities and social change in European history from an interior perspective. The Routledge History of the Domestic Sphere in Europe contains a variety of approaches from different regions that each pose a challenge to commonplace views such as the emergence of confessional cultures, of private life, and of separate spheres of men and women. By analyzing a plethora of manifold sources including diaries, court records, paintings and domestic advice literature, this volume provides an overview of the domestic sphere as a location of work and consumption, conflict and cooperation, emotions and intimacy, and devotion and education. The book sheds light on changing relations between spouses, parents and children, masters and servants or apprentices, and humans and animals or plants, thereby exceeding the notion of the modern nuclear family. This volume will be of great use to upper-level graduates, postgraduates and experienced scholars interested in the history of family, household, social space, gender, emotions, material culture, work and private life in early modern and nineteenth-century Europe.

Environment, Technology, and Development Ismay Milford, Corinna R. Unger, Iris Borowy, 2025-12-01 Histories of environment and histories of technology have moved in exciting, interdisciplinary directions in recent years, with increasing recognition that both environments and technologies are made and remade, gaining meaning only in specific historical settings. With historical scholarship weighted towards examples from the North Atlantic world, this volume provides a collection of grounded case studies from across the modern world that interrogate the relationship between environment and technology in developmental practices and discourses. Development projects have often involved assumptions that humans can create and wield technology to harness, improve or protect the non-human environment. This volume will not simply discredit these assumptions by revealing their nefarious effects on our society and planet, but instead historicise them by locating them within specific power structures and epistemologies. The connections and conversations between dispersed cases raised here point us to more nuanced conclusions about the causes and effects, the objects and subjects of history, in this dynamic interaction between environment, technology, and development.

Eheschliessungen Im Europa Des 18. und 19. Jahrhunderts Christophe Duhamelle, Jürgen Schlumbohm, Pat Hudson, 2003 Die Eheschließung war in den europäischen Gesellschaften der Vergangenheit nicht nur ein wichtiger Einschnitt im individuellen Lebenslauf, sondern bedeutete auch einen Wendepunkt in der Abfolge der Generationen, der oft mit der Weitergabe von Besitz verbunden war. Heiraten begründeten zugleich Allianzen zwischen Familien, sie schufen soziale Nähe und Distanz. Die Beiträge untersuchen diese unterschiedlichen Bedeutungen der Heirat. Sie kritisieren die

verbreitete Vorstellung, die Ehe sei im vorindustriellen Europa ein Privileg gewesen, das nur den Besitzern einer ererbten Stelle zugänglich war. Neben den ökonomischen und institutionellen Bedingungen werden die flexiblen Handlungsstrategien der Heiratenden und ihrer Familien deutlich. Kulturelle Kontexte langer Dauer werden ebenso analysiert wie die individuellen Spielräume. Der - dreisprachig angelegte - Band lädt ein zur vergleichenden Betrachtung verschiedener sozialer Gruppen und europäischer Länder in einer Periode des Umbruchs.

The Eighteenth Century American Society for Eighteenth-Century Studies, Jim Springer Borck, 2006-12 This 17th volume from the series of bibliographies of the 18th century is divided into sections on: printing and bibliographic studies; historical, social and economic studies; philosophy, science and religion; the fine arts; literary studies; and individual authors.

Heimat Strasse Gerhard Ammerer, 2003 Kaum ein Bevölkerungssegment ist quellenmassig schwerer zu fassen als das der Vagabundierenden. Der Autor sucht nach Spuren dieser schriftlosen Population und fragt nach den Ursachen der während des 18. Jahrhunderts offenbar zunehmenden Nichtigkeit. Wie reagierten Gesellschaft und Regierung? Wie organisierten die Betroffenen ihr Dasein? Wie sind Vergesellschaftung, körperliche Befindlichkeiten, Selbstverständnis, ökonomische Notwendigkeiten und der schwierige Alltag auf der Strasse zu fassen? Ammerer setzt sich nicht zuletzt kritisch mit der Sozialdisziplinierungs- und der Gegengesellschaftsthese auseinander, die beide die wissenschaftliche Literatur wesentlich geprägt haben. Gerhard Ammerer ist ausserordentlicher Universitätsprofessor für Österreichische Geschichte an der Universität Salzburg

Beyond the Gymnasium Heikki Lempa, 2007 Beyond the Gymnasium is the first systematic effort to examine the history of the body in modern Germany. By looking into medical dietetics, walking, dancing, gymnastics, cholera, and classrooms, Heikki Lempa reconstructs the ways the middle-class body became a source of political and social autonomy and a medium of social interaction. During the first two decades of the nineteenth century, German physicians defined the middle class body as qualitatively different from the lower class body. This belief was supported by a contemporary science known as dietetics. Lempa provides a comprehensive history and analysis of this science. Beyond the Gymnasium also analyzes the social implications of court dancing and gymnastics. In the eighteenth century, the French court dances set the standards of upper and middle class conduct. In the 1810s, the gymnastics movement challenged this tradition by propagating vigorous physical

exercise and egalitarian social interaction. In 1819, the ban on gymnastics contributed to the rapid spread of dancing clubs, ballrooms, public promenades, and spas; the old forms of bodily interaction underwent a renaissance. These two trends--the quest for bodily autonomy and the continuity of traditional bodily conduct--played an important role in the status of the German middle class in the nineteenth century. In social interaction, it continued to cultivate those forms that had endowed the Old Regime with its specific character and flair. To explain this, the book explores the forms of social recognition in dancing, greeting, and walking and discovers that the German middle class displayed an aptitude for social recognition of asymmetrical relationships.

Social and Political Philosophy James P. Sterba,1998 This anthology, with general and special introductions by the author, puts the historical development of Western social and political philosophy into both feminist and multicultural perspectives.
