

Schlacht Am Kursker Bogen

Karl-Heinz Frieser

Ostkrieg Stephen G. Fritz, 2011-09-08 On June 22, 1941, Germany launched the greatest land assault in history on the Soviet Union, an attack that Adolf Hitler deemed crucial to ensure German economic and political survival. As the key theater of the war for the Germans, the eastern front consumed enormous levels of resources and accounted for 75 percent of all German casualties. Despite the significance of this campaign to Germany and to the war as a whole, few English-language publications of the last thirty-five years have addressed these pivotal events. In *Ostkrieg: Hitler's War of Extermination in the East*, Stephen G. Fritz bridges the gap in scholarship by incorporating historical research from the last several decades into an accessible, comprehensive, and coherent narrative. His analysis of the Russo-German War from a German perspective covers all aspects of the eastern front, demonstrating the interrelation of military events, economic policy, resource exploitation, and racial policy that first motivated the invasion. This in-depth account challenges accepted notions about World War II and promotes greater understanding of a topic that has been neglected by historians.

Kursk 1943 Roman Töppel, 2017 Die Panzerschlacht bei Kursk im Sommer 1943 war eine der größten Schlachten der Kriegsgeschichte, an der etwa drei Millionen Soldaten mit mehr als 10.000 Panzern und Selbstfahrlafetten sowie 8.000 Flugzeugen teilnahmen. Obwohl Kursk bis heute als eine der Entscheidungsschlachten des Zweiten Weltkriegs gilt und schon zahlreiche Bücher darüber geschrieben wurden, gibt es über zentrale Entscheidungen im Vorfeld der Schlacht und über die Kämpfe im Sommer 1943 erstaunlich viele falsche Informationen und Legenden. Roman Töppel beschreibt in seiner Studie vor allem Entwicklungen und Begebenheiten der Kursker Schlacht, die bislang kaum bekannt sind oder denen nur wenig Beachtung geschenkt wurde. Er präsentiert dem Leser neue, zum Teil überraschende Forschungsergebnisse und setzt damit der noch heute anhaltenden Legendenbildung um diese Schlacht gründlich recherchierte Fakten entgegen

The Battle of Kursk David M. Glantz, Jonathan Mallory House, 1999 A study of the Battle of Kursk (at Prokhorovka), one of the largest tank engagements in world history, which led to staggering losses - including nearly 200,000 Soviet and 50,000 German casualties within the first ten days of fighting. Drawing on both German and Soviet sources, David M. Glantz and Jonathan M. House seek to separate myth from fact to show what really happened at Kursk and how it affected the outcome of World War II. Their access to Soviet archive material adds detail to what is known about this conflict, enabling them to reconstruct events from both perspectives and describe combat down to the tactical level.

Die Ostfront 1943/44 Karl-Heinz Frieser, 2007 Værket er udgivet af Militärgeschichtliches Forschungsamt (MGFA). Værket skal udkomme i 10 bind og omfatte det tredje rige og den tyske deltagelse i 2. Verdenskrig fra begyndelsen og indtil sammenbruddet i 1945.

Kursk 1943 Roman Toepfel, 2018-10-09 The Battle of Kursk in the summer of 1943 was one of the greatest battles in military history involving more than 3 million soldiers, 10,000 tanks and 8,000 aircraft. While many books have been written on this allegedly most decisive battle of the Second World War, many legends live on, above all because of misleading information that recur in most publications - even in the most recent ones. Based on almost 20 years of research reassessing the primary sources, Roman Toepfel sheds light on the phase of decision-making, the preparations and the development of the battle in an engaging style that grips the reader's attention from the first page on. The author concentrates on little-known developments and events leading the reader to astonishing results. He also gives entirely new insights into the historiographic appraisal of this battle, putting thoroughly researched facts against erroneous popular beliefs, myths and legends that have been passed down among historians for generations.

Kursk 1943 Mark Healy, 2000-07-25 Osprey's examination of the Kursk campaign of World War II (1939-1945). In the summer of 1943 the German army stood poised for a major offensive. The attack was aimed at the Kursk salient, which the Germans intended to isolate, trapping large numbers of Russian troops and paving the way for the decisive campaign to knock the Soviet Union out of the war. By the time of the attack, the Russians had turned the salient into a mass of defensive positions. In the following decisive clash, the Soviets bled Germany's vital Panzer forces white and finally took the initiative. The counter-offensive which followed began an advance that would end in the ruins of Berlin.
