*Cybersecurity and Data Laws of the Commonwealth* Robert Walters,2023-07-21 The book has been authored by a highly regarded international legal scholar in commercial and private law. The book highlights how the legal landscape for in data protection, cross-border data flows and cybersecurity law is highly diverse and fragmented amongst all commonwealth countries. The book focuses on addressing the gaps in data, cybersecurity and national arbitration law of these countries. The aim of this book is to promote more engagement between commonwealth countries, to ensure they capitalise on the growing digital economy. Notwithstanding the above, the digital economy is rapidly changing the way we work and live. When coupled together cybersecurity and data law will be an important component of the future digital economy. They will both be integral to transnational trade and investment. That said, there will likely be disputes, and international arbitration can be an effective legal mechanism to resolve trade and investment disputes across the digital economy. On that basis, this book augments how the respective laws of commonwealth countries, along with the model data and cyber laws of the Commonwealth should be reviewed to minimise any legal divergence. This book provides a comparison and practical guide for academics, students, and the business community of the current day data protection laws and cross-border data flows among all commonwealth countries.

**The Contemporary Law of Targeting** Ian Henderson,2009-10-26 Armed conflict is about using force to achieve goals. As international humanitarian law regulates the means and methods that a belligerent may adopt to achieve its goals, there will inevitably be disagreements over the interpretation of that law. As for the rules that regulate targeting, the main difficulties arise over what is a lawful target and what is proportional collateral damage. This book provides a detailed analysis of those issues. Also, a chapter is dedicated to considering how United Nations Security Council sanctioning of participation in an armed conflict might affect the range of lawful targets available to a belligerent. Finally, a process is described by which legal responsibility for targeting decisions can be assessed in a complex decision-making environment.

*Crisis Patient Prioritisation and the Law: The Pandemic Experience* Massimo Foglia,Tomáš Holcapek,Martin Šolc,Petr Šustek,2024-09-20 The allocation of scarce health resources remains a persistent and critical challenge for global health systems. The Covid-19 pandemic brought this issue to the forefront on an unprecedented scale, testing even the most robust health systems of industrialised nations. Depletion of resources, particularly in intensive care units, forced daily triage decisions. Each country, facing its unique circumstances, had to devise its own solution to the sudden calamity. While universal principles applied, the book presents eleven comprehensive national reports from Europe, North and South America, and Africa. These reports are structured to facilitate a nuanced comparison of individual strategies as well as overarching systematic dierences. In addition to the national perspectives, the book includes a dedicated theoretical chapter analysing the legal-ethic foundations and limits of crisis patient prioritisation. As the urgency of the Covid-19 pandemic wanes in the public eye and among stakeholders, there is a concerning lack of willingness to extract vital lessons for future crises. Nevertheless, neglecting the insights gained from the events of 2020 and 2021 would be a grave error. The book aspires to preserve to lessons of the pandemic, oering valuable insights to those who seek better preparation for potential future crises.

Members of Al-Qaeda held in Guantanamo Naval Base** Marina Fernandez Arroyo, 2017-03-01 Essay from the year 2016 in the subject Politics - Topic: Public International Law and Human Rights, grade: 5.5/6, , language: English, abstract: After the terrorist attacks against the United States on September 11, 2001, two United Nations Security Council resolutions (resolutions 1368 and 1373) acknowledged the right to self-defence of the US following article 51 of the UN Charter. The US requested the Taliban regime's (the government at the time in Afghanistan) assistance to capture Al-Qaeda, whose main infrastructure was established in the country. The refusal of the Taliban resulted in an international armed conflict (hereinafter IAC) against Afghanistan, being that the Taliban were the de facto government hosting terrorists, and against Al-Qaeda that was de facto under effective control of the Taliban. As a result, during the conflict, members of the Taliban regime and Al-Qaeda were detained sharing the same fate, indefinite detention in Guantanamo.
