Rod Serling

The Big Tall Wish Rod Serling, Mark Kneece, 2009-09-15 Washed up boxer Bolie Jackson is about to be knocked down and counted out when Henry, a young neighbor with magical powers, makes the biggest, tallest wish he could think of for Bolie to win the match. But believing in magic doesn't come easily to some people. Rejecting Henry's wish could end Bolie's career and ruin a young boy's faith in magic. They each have to the count of ten to make their choice . . . in the Twilight Zone. One of most ground-breaking shows in the history of television, The Twilight Zone has become a permanent fixture in pop culture. This new graphic novel series re-imagines the show's most enduring episodes, in all their original uncut glory, originally written by Rod Serling himself, and now adapted for a new generation—a generation that has ridden Disney's Twilight Zone Tower of Terror ride, studied old episodes in school, watched the annual marathons, and paid homage to the show through the many random take-offs that show up in movies and TV shows everywhere.

Space and Time David C. Wright, Jr., Allan W. Austin, 2010-04-19 Essays in this work examine treatments of history in

science fiction and fantasy television programs from a variety of disciplinary and methodological perspectives. Some essays approach science fiction and fantasy television as primary evidence, demonstrating how such programs consciously or unconsciously elucidate persistent concerns and enduring ideals of a past era and place. Other essays study television as secondary evidence, investigating how popular media construct and communicate narratives about past events.

A Critical History of Television's The Twilight Zone, 1959-1964 Don Presnell, Marty McGee, 2015-07-11 Rod Serling's anthology series *The Twilight Zone* is recognized as one of the greatest television shows of all time. Always intelligent and thought-provoking, the show used the conventions of several genres to explore such universal qualities as violence, fear, prejudice, love, death, and individual identity. This comprehensive reference work gives a complete history of the show, from its beginning in 1959 to its final 1964 season, with critical commentaries, incisive analyses, and the most complete listing of casts and credits ever published. Biographical profiles of writers and contributors are included, followed by detailed appendices, bibliography and index.

Everything I Need to Know I Learned in the Twilight Zone Mark Dawidziak, 2017-02-28 Can you live your life by what *The Twilight Zone* has to teach you? Yes, and maybe you should. The proof is in this lighthearted collection of life lessons, ground rules, inspirational thoughts, and stirring reminders found in Rod Serling's timeless fantasy series. Written by veteran TV critic, Mark Dawidziak, this unauthorized tribute is a celebration of the classic anthology show, but also, on another level, a kind of fifth-dimension self-help book, with each lesson supported by the morality tales told by Serling and his writers. The notion that "it's never too late to reinvent yourself" soars through "The Last Flight," in which a World War I flier who goes forward in time and gets the chance to trade cowardice for heroism. A visit from an angel blares out the wisdom of "follow your passion" in "A Passage for Trumpet." The meaning of "divided we fall" is driven home with dramatic results when neighbors suspect neighbors of being invading aliens in "The Monsters Are Due on Maple Street." The old maxim about never judging a book by its cover is given a tasty twist when an alien tome is translated in "To Serve Man."

Spaceships and Politics Leslie Dale Feldman, 2010-10-11 *Spaceships and Politics: The Political Theory of Rod Serling* examines the political themes in *The Twilight Zone*. In this unique show, Rod Serling used fantasy and the supernatural to explore political ideas such as capital punishment, the individual and the state, war, conformity, the state of nature, prejudice, and alienation. He used aliens and machines to understand human nature. While the themes in *The Twilight Zone* often reflected political concerns of the time, like the Cold War and post-industrial technology, the messages had broader political implications. This book looks at Serling's mechanistic view of the world and emphasis on fear through Hobbesian themes like diffidence and automata.

In the Zone Peter Wolfe,1997 The classic television show The Twilight Zone explored the possibilities inhering in the ordinary. A Twilight Zone episode moved us by being poignant and intimate, rambunctious or thought provoking. But whether it takes place on an asteroid, in a city pool room, or in the backwoods, it will usually convey both a folklorist's eye for detail and the born raconteur's sense of pace. Rod Serling, the show's originator, main scriptwriter, and artistic director, knew how much burden he could place on his rhetorical and dramatic gifts. Deservedly celebrated as a pioneer fiction writer for television, Serling always grounded his work in the human condition: he wrote movingly about history and loyalty, the grip of everyday reality, and the dangers of both forgetting about one's ghosts and giving them the upper hand.
