Summary of Think Again Alexander Cooper, 2021-03-08 Summary of Think Again We often see intelligence as an ability to think and learn, but we forget the most important part of intelligence: the ability to rethink and unlearn. We must learn how to examine information we've been given and accepted as fact, and to re-think our former convictions in order to have the most accurate information and convictions we can. We have to unlearn false information and use our ability to do so to have a more solid foundation. When we surround ourselves with people who agree with us and think the same as us, we do ourselves a disservice and prevent ourselves from growing and learning. We become too much like preachers who have to defend their beliefs, prosecutors who have to prove we are correct, or politicians who campaign for what they want. What we need to do is learn to think like scientists. Thinking like a scientist involves us doing individual rethinking, interpersonal rethinking, and collective rethinking. When we can learn to challenge our own beliefs, challenge our identity, and bring that kind of

environment into our workplaces, we can create a situation where learning is paramount, and excellence is achieved. Think Again will show you how to engage in re-thinking, not just the importance of it. It will give evidence that re-thinking works, and anecdotes of people and organizations who have used re-thinking to change their lives and businesses. **The Gentle Art of Leadership** Brian Donovan,Dean Phelan,2024-11-12 What makes leaders great? The writing is on the wall. Quantitative and qualitative research indicate they consistently practise a Gentle Art of Leadership • Firsthand analyses of more than six thousand 360o feedback reports • Over 50 one-on-one interviews with Leaders • Reflections on hundreds of

Executive Coaching sessions · Review of over 160 books and articles on leadership · Our own experiences as CEOs A compelling guide and handbook for anyone in a leadership role. This Gentle Art of Leadership cuts against the grain of the often-held view that great leaders, CEOs, and team coaches are charismatic, extroverted, forceful characters with powerful egos; and that we need such big personalities to transform our companies, organisations, sporting teams and nations. Sometimes this view proves to be true, and we remember such characters. But more often, the greatest leaders who leave the greatest legacies, have a powerful mixture of personal humility, integrity and indomitable will for forwarding the health, success and long-term prosperity of their organisation and people. They seem to get the best out of others by genuinely treating them with dignity and respect, whilst focused on strategic outcomes.

*Wisdom About Wisdom* Greg Giles,2025-04-29 What is biblical wisdom? The Bible gives three very different answers to that question: First, wisdom is the best possession possible, so everyone should "get wisdom"! Second, wisdom is God's domain, which no one can understand, so the only wise path is to fear him. Third, Jesus the Messiah is God's wisdom alive. He is co-wise with God and reveals God's wisdom. We can access his wisdom by living as he lived. One lesson all of the wisdom writers agree upon is that wisdom is not about being smarter than everyone else but about having good character. The wise display their wisdom in humility and good deeds.
