

Affresco Del Buon Governo

Elina Gertsman

Medieval Bosa Fernanda Poli, 2014-04-07 The book provides an updated reading on the fortification of the city of Bosa, and the castle church, the Palatine chapel of the judges of Arborea, from an architectural and artistic perspective. Particular attention and emphasis have been placed on the presence inside the sacred building of a cycle almost entirely preserved, a unique example in Sardinia, of fourteenth century frescoes on the themes of Franciscan spirituality.

Il liberalismo di Luigi Einaudi o del Buongoverno Paolo Silvestri, 2008-01-01 «Buongoverno e malgoverno: un'antitesi che percorre tutta la storia del pensiero politico, uno dei grandi temi, se non il più grande, della riflessione politica di tutti i tempi». Eppure, «nessuno usa più le parole buongoverno e malgoverno, e chi le usa ancora sembra volto al passato, a un passato remoto, che solo un compositore di prediche inutili ha ancora il coraggio di riesumare» (N. Bobbio). Questo libro si propone di qualificare teoreticamente il senso e il modo in cui Luigi Einaudi, «compositore di prediche inutili», riattualizza il mito del buongoverno alla luce della portata dirompente dell'economico per la modernità e dei suoi effetti sul giuridico, il politico e l'etico. Il tentativo che egli compie è quello di fondare nuovamente le istituzioni liberali compromesse dalla Grande guerra e in seguito sconvolte dal fascismo. Riprendendo il filo del buongoverno, Einaudi tesse così l'ordito e la trama di una figura che precede e trascende i tò poi e le categorie del suo pensiero, e che, a un tempo, li tiene assieme, assurgendo a immagine sintetica e fondativa della società liberale, nonché del suo stesso liberalismo. Il liberalismo di Luigi Einaudi o del Buongoverno è la ricostruzione di una «visione del mondo», dell'«uomo» e della «libertà», visione che ha a cuore la tutela di quel «bene supremo che è la libertà dell'uomo», ma che sostiene anzitutto la causa delle «libertà concrete» affinché ciascuno di noi possa «continuamente rompere la frontiera del noto, del già sperimentato, e muovere verso l'ignoto ancora aperto all'avanzamento materiale e morale dell'umanità».

Dell'informe 2. Assemblaggi Marco Navarra, 2022-05-31 Se l'Informe è un carattere della nostra epoca, è indispensabile ripensare gli strumenti con cui descriviamo e trasformiamo la realtà. Come potrebbero mutare i nostri paradigmi se assumessimo l'Informe come strumento critico? Il ruolo operativo dell'Informe, proposto da Georges Bataille, permette di dare senso a molte pratiche di trasformazione del mondo. "Assemblaggi" è costruito come un montaggio di testi su autori di

diverse epoche. La descrizione e il commento delineano un percorso che indaga la potenza plastica e critica dell'Informe come apertura all'indeterminato. L'idea di un'Architettura geologica interroga le pieghe della Terra e dispiega una pratica del "maifinito" come nodo di congiunzione tra tempi e mondi diversi. Mettere in forma la tensione tra le cose costituisce il compito di un'Architettura terrestre per immaginare nuove alleanze capaci di generare futuri.

Contesti - Città Territori Progetti 2/2007. Piano e Buongoverno della città Marco Massa, 2007-09-01

Archeologia della vite e del vino in Toscana e nel Lazio. Dalle tecniche dell'indagine archeologica alle prospettive della biologia molecolare Andrea Ciacchi, Paola Rendini, Andrea Zifferero, 2012-06-01 Accoglie i risultati degli studi condotti nell'ambito di tre progetti (Progetto VINUM, Progetto ArcheoVino, Progetto Senarum Vineae) ai quali hanno partecipato, per un confronto sul tema della viticoltura e della produzione del vino, rappresentanti di varie discipline, quali la storia, l'archeologia, la botanica, la storia della tecnologia, la biologia molecolare. I vari interventi ricostruiscono una storia della coltivazione della vite e dell'enologia nel bacino del Mediterraneo e di tutte le attività ad esse connesse, non ultimo l'uso cultuale del vino, con indagini più articolate per le aree toscane e laziali e apportano elementi utili ad approfondire l'evoluzione storica del paesaggio e delle singole componenti dell'ambiente.

Dalle fonti alla narrazione. Ricostruzione storica per il racconto della quotidianità Marco Valenti, Stefano Ricci, Vittorio Fronza, 2018-05-30 Il volume raccoglie gli atti di due seminari svoltisi tra aprile e maggio 2017 all'Università degli Studi di Siena, incentrati sulla ricostruzione storica intesa nelle sue diverse e complementari declinazioni: con il primo incontro si sono infatti affrontati i temi del reenactment e della living history, mentre il secondo ha approfondito la rappresentazione dei risultati delle indagini archeologiche su specifici contesti materiali. Archeologi e ricostruttori si incontrano e si confrontano, traendone reciproco vantaggio e mirando ad un obiettivo comune ambizioso: coinvolgere il pubblico in una comunicazione archeologica di qualità superiore, in grado di coniugare eccellenza scientifica e vena narrativa. L'ottica adottata parte infatti dalla considerazione di come l'archeologia italiana stia vivendo un momento di criticità, riconducibile alla scarsa propensione nel trasformare le proprie competenze in valore significativo anche in una prospettiva pubblica. In questo scenario, i vari contributi sono accomunati dalla ricerca di una via innovativa che metta in primo piano la materialità della storia, affrontando casi molto eterogenei per scala, approcci, metodi e risultati attesi. Si passa quindi dalla ricostruzione del volto a partire dal cranio di individui scavati, alla rappresentazione della cultura materiale di casi specifici e archeologicamente noti. Vengono trattate ricostruzioni di singoli personaggi reali o immaginari (riproducendone l'abbigliamento, gli accessori, le armi, ma anche il comportamento, la condizione sociale, la vita quotidiana) e di intere strutture e insediamenti (in scala reale come in plastico), arrivando ad operare sintesi su particolari contesti e periodi. Le due anime, ricostruzione e archeologia, sono quindi ben rappresentate nella pubblicazione e vengono integrate da riflessioni di carattere più generale sull'archeologia pubblica e sulle sue potenzialità per la ricerca, la tutela, la comunicazione. In un corposo saggio introduttivo,

scritto da Marco Valenti, si tracciano le linee guida teoriche e pratiche per attuare il nuovo approccio proposto nel volume, discutendone gli attuali limiti e, soprattutto, mostrandone l'enorme potenziale per il futuro.

Alla ricerca del buon governo in Italia Filippo Sabetti, 2004

Garrisoning the Borderlands of Medieval Siena Anabel Thomas, 2016-12-05 Through a close study of local demographics and topographies, this study considers patterns of piety, charity and patronage, and by extension, the development of art and architecture in Siena's southern contado during the thirteenth and fourteenth centuries. *Garrisoning the Borderlands of Medieval Siena* describes Sant'Angelo in Colle as a designated 'castello di frontiera' under the Sienese Government of the Nine (1287-1355), against the background of Siena's military and economic buoyancy during the early fourteenth century. At the same time, mining thoroughly the Tax Record of 1320 and the Boundary Registration of 1318 and presenting a large number of individual records that have not been published before-including wills, tenancy agreements, land exchange and sharecropping contracts-the author constructs a portrait of the people, buildings and surrounding countryside of Sant'Angelo in Colle. Finally, adopting the methodological approach of first considering patterns of ownership of land and property in the context of identifying potential patrons of art, the study considers patterns of piety and charity established in the early fourteenth-century village and the extent to which these affected the development of the urban fabric and the embellishment of key buildings in medieval Sant'Angelo in Colle.

The Dance of Death in the Middle Ages Elina Gertsman, 2010 Elina Gertsman's multifaceted study introduces readers to the imagery and texts of the Dance of Death, an extraordinary subject that first emerged in western European art and literature in the late medieval era. Conceived from the start as an inherently public image, simultaneously intensely personal and widely accessible, the medieval Dance of Death proclaimed the inevitability of death and declared the futility of human ambition. Gertsman inquires into the theological, socio-historic, literary, and artistic contexts of the Dance of Death, exploring it as a site of interaction between text, image, and beholder. Pulling together a wide variety of sources and drawing attention to those images that have slipped through the cracks of the art historical canon, Gertsman examines the visual, textual, aural, pastoral, and performative discourses that informed the creation and reception of the Dance of Death, and proposes different modes of viewing for several paintings, each of which invited the beholder to participate in an active,

kinesthetic experience.
