Drunvalo Melchizedek

The Ancient Secret of the Flower of Life, Volume 2 Drunvalo Melchizedek, 2012-04-27 The sacred Flower of Life pattern, the primary geometric generator of all physical form, is explored in even more depth in this volume, the second half of the famed Flower of Life workshop. The proportions of the human body, the nuances of human consciousness, the sizes and distances of the stars, planets and moons, even the creations of humankind, are all shown to reflect their origins in this beautiful and divine image. Through an intricate and detailed geometrical mapping, Drunvalo Melchizedek shows how the seemingly simple design of the Flower of Life contains the genesis of our entire third-dimensional existence. From the pyramids and mysteries of Egypt to the new race of Indigo children, Drunvalo presents the sacred geometries of the reality and the subtle energies that shape our world. We are led through a divinely inspired labyrinth of science, stories, logic, and coincidence on a path of remembering where we come from and the wonder and magic of who we are. Finally, for the first time in print, Drunvalo shares the instructions for the Mer-Ka-Ba meditation--step-by-step techniques for the re-creation of the energy field of the evolved human--which is the key to ascension and the next dimensional world. If done from love, this ancient process of breathing prana opens up for us a world of tantalizing possibility in this dimension, from protective powers to the healing of oneself, of others, and even of the planet. You may discover a memory or a fleeting reflection of yourself in the following topics: - The Unfolding of the Third Informational System: the circles and squares of human consciousness, Leonardo da Vinci's true understanding of the Flower of Life, and exploring the rooms of the great pyramid - Whispers From Our Ancient Heritage: the initiations of Egypt, the mysteries of resurrection, interdimensional conception, ancient mystery schools, Egyptian tantra, and sexual energy and the orgasm - Unveiling the Mer-Ka-Ba Meditation: chakras and the human energy system, energy fields around the body, the seventeen breaths of the Mer-Ka-Ba meditation, and the sacred geometry of the human lightbody.

The Ancient Secret of the Flower of Life, Volume 1 Drunvalo Melchizedek, 2012-04-28 Once, all life in the universe knew the Flower of Life as the creation pattern - the geometrical design leading us into and out of physical existence. Then from a very high state of consciousness we fell in darkness and forgot who we were. For thousands of years the secret was held in ancient artifacts and carvings around the world, and encoded in the cells of all life. Here Drunvalo Melchizedek presents in text and graphics the first half of the Flower of Life Workshop, illuminating the mysteries of how we came to be, why the world is the way it is and the subtle energies that allow our awareness to blossom into its true beauty. Sacred Geometry is the form beneath our being and points to a divine order in our reality. We can follow that order from the invisible atom to the infinite stars, finding ourselves at each step. The information here is one path, but between the lines and drawings lie the feminine gems of intuitive understanding. Explore the miracle of our existence by meandering through the wonderland of geometry, science, ancient history and new discovery, seen through the widened vision of Drunvalo and the Flower of Life. Volume 2 will explore in great detail the Mer-Ka-Ba, the 55-foot-diameter energy field of the human lightbody. This knowledge leads to ascension and the next dimensional world. About the Author Drunvalo Melchizedek's life experience reads like an encyclopedia of breakthroughs in human endeavor. He studied physics and art at the University of California at Berkeley, but he personally feels that his most important education came after college. In the last 25 years he has studied with over 70 teachers from all belief systems and religious understandings, providing him with a wide breadth of knowledge, compassion and acceptance. Not only is Drunvalo's mind exceptional, but his heart, his warm personality, his love for all life everywhere, is immediately understood and felt by anyone who meets him. For some time now he has been bringing his vast vision to the world through the Flower of Life program and the Mer-Ka-Ba meditation.

Angels and Ascension Rae Chandran; Robert Mason Pollock, 2016-07-01 Much support is available for humanity. Angelic support has always been available, but people did not know about it because they were looking for a tangible support system — something they could see, feel, or touch. In the new consciousness, you must learn to believe in the unseen. Know support is available if you focus. The angels completely support every human soul on the planet as well as all animals, plants, and trees, but you must ask for this support system to be activated. We bring the understanding of angels so that you can work with them to find joy, peace, and freedom in your heart. We encourage you to speak with all your friends and family about the benefits of working with angels. Work with angels every day, and you will see the difference. Includes Mudras, Breathing

Fifth-Dimensional Soul Psychology David K. Miller, 2014-08-18 Greetings. I'm Vywamus. I'm a soul psychologist. In this series of lectures, we will explore the meaning of soul psychology and how it relates to modern psychology. More importantly, we will show how soul psychology as a practice is becoming more popular and is an especially useful technique for starseeds and others who are awakening to the fact that there is reincarnation and that there are soul lessons that must be learned. The basic essence of soul psychology rests with the idea that the soul is evolving and that part of this evolution is occurring through incarnations in the third dimension. Now, to even speak about the soul evolving is perhaps a controversial subject because we know that the soul is eternal. We know that the soul has been in existence for infinity, and we know that the soul is perfect. So why would the soul have to evolve? The answer to this question is complex, and we may not be able to totally answer it using third-dimensional terminology. But it is an important question to answer, because the nature of soul evolution is inherently connected to your experiences in the third dimension. The soul, in completing its evolutionary journey, needs these experiences in the third dimension, and it needs to complete the lessons here. — through David K. Miller

Spirit of the Western Way Tina Louise Spalding, 2016-12-19 Change Your Reality by Changing Your Mind “This book describes the systematic and problematic features of your mindset and the society that your collective consciousness is manufacturing so that you can change them. Until you know what has been done to you — until you know what parts of society are harmful to you and to your spiritual evolution — you are stuck. “Western civilization has been manipulated for a very, very long time into negative, low-frequency manifestations and structures of control, limitation, fear, and judgment. You cannot change this until you first see it, accept that it is so, and then, in awareness, shift your consciousness. “These higher-frequency shifts and changes are difficult to attain unless you know what has been inflicted on you and what choices you are making and how they affect you. We bring you basic teachings about reality: what it is, where you come from, why you are here, what your body is, how you get sick, why you thrive, and more. “This book is brought to you by many beings of high frequency who love you and your society very much. We have been assigned the spiritual practice to bring these teachings through this being so that we can help point you in the correct direction to find your way Home. We are Ananda. We are your friends, your teachers, and your fellow travelers on this most magnificent journey into consciousness.” — Ananda

Totality and Beyond Robert Shapiro, 2015-10-15 The book you are about to read attempts to explain and, to a degree, put

an order to existence. You might reasonably ask, "What is the purpose?" The purpose is very simply this: In order for you now to be able to function in a world of responsibilities well beyond your own physical life, you need to be able to understand the functionality of creation and the confidence you need to have in simply emerging from seemingly nothing. "Nothing" is not really zero. Nothing is a matrix available to create something. It will always be that, and it has always been that. This book will explain, with some wide variety of points of view at times, those points, and over the next few hundred years, you can consider them as you blend with your total being, creating and re-creating what is now, in order to bring it to a more benevolent state of being. — Ssjoooo September 18, 2015 Chapters Include The Thirteen Envision the Worlds Within Worlds The Loop of Time An Unending Parade of Existence Disentanglement Disentangling Cords of Discomfort All Creation Responds to Need Every Action Has a Reaction: It's Mother Nature's Plan Love and Care for Others to Embrace the Totality Feel Heat to Learn Oneness You Planned Your Journey The Reservoir of Being Take Your Journey You Must Qualify for Physicality Beyond The Constant Motion of Totality

Color Medicine Charles Klotsche, 1993-09-01 The secrets of color vibration healing. A practitioner's manual for restoring blocked energy to the body systems with specific color wave lengths. By the founder of The 49th Vibrational Technique. A new dimension in holistic healing, Color Medicine provides a powerful technique for treating specific imbalances and strengthening the immune system. By combining aura-attuned chromatherapy with harmonious sounds, tissue salts and hydrochromatherapy, the 49th Vibrational Technique was developed. It is safe, simple, economical and highly effective. A breakthrough, yet as old as recorded medicine, it utilizes the subtle energy vibrations similar to those found in the visible spectrum: the 49th octave. Light energy is processed through color filters and irradiated into the aura. By matching corresponding wavelengths to the organs and systems of the body, it strengthens or sedates energy in the distressed areas, creating a support system for the healing process. A textbook and how-to handbook, it encompasses an encyclopedia of vital fascinating information, charts, diagrams and tables as well as methods of treatment and technical advice. Whether you are a holistic practitioner or merely curious, this book marks a new frontier in the world of alternative healing.
