## Neil Barron

Flowers for Algernon Patrice Cassedy, 2001 Discusses the young adult book *Flowers for Algernon* by Daniel Keyes, including the author's life, the science fiction genre, and the book's plot, characters, and themes.

**In the Mind's Eye** Emily Mofield, Tamra Stambaugh, 2021-09-03 Winner of the 2012 NAGC Curriculum Studies Award In the *Mind's Eye: Truth Versus Perception* invites students on a philosophical exploration of the themes of truth and perception. Lessons include a major emphasis on rigorous evidence-based discourse through the study of common themes and content-rich, challenging informational and fictional texts. This unit, developed by Vanderbilt University's Programs for Talented Youth and aligned to the Common Core State Standards (CCSS), applies concepts from Plato's Allegory of the Cave to guide students to discover how reality is presented and interpreted in fiction, nonfiction, art, and media. Students engage in activities such as Socratic seminars, literary analyses, skits, and art projects, and creative writing to understand differing perceptions of reality. Lessons include close readings with text-dependent questions, choice-based differentiated products, rubrics, formative assessments, and ELA tasks that require students to analyze texts for rhetorical features, literary elements, and themes through argument, explanatory, and prose-constructed writing. Ideal for pre-AP and honors courses, the unit features art from M.C. Escher and Vincent Van Gogh, short stories from Guy de Maupassant and Shirley Jackson, longer texts by Daniel Keyes and Ray Bradbury, and informational texts related to sociology, Nazi propaganda, and Christopher Columbus. This unit encourages students to translate learning to real-life contexts and problems by exploring themes of disillusionment, social deception, and the power of perception. Grades 6-8

Sow a Seed Grow a Friend Benjamin Haruna, 2018-05-25 The problems facing our youth today are not new. The temptations of young people today might come in better wrapped packages than they did a generation ago, but they can still be summed up as “the lust of the flesh, the lust of the eyes, and the pride of life” resulting in • drug/alcohol abuse, • violence in school, • materialism, • obesity, • poverty, • teenage pregnancy, and • homelessness. The old trap the devil used has always been our “friend.” Adam was the first human to fall in this trap when his friend (wife) gave him a forbidden fruit to eat. Eve also fell in this trap by making the devil her friend and listened to him. They both died (spiritually). Hanging around a wrong friend is not only dangerous but also deadly. For the first time in two thousand years, the secret code has been revealed. God’s solution to the youthful and social problems in our generation and the generations to come is revealed.

Combining practical biblical principles with powerful, modern stories, *Sow a Seed Grow a Friend* is your personal guide to escape the deadly impact of wrong friendship. Benjamin Haruna tells you how to identify these friends in your life through the relationships between the • seed and wayside ground, • seed and rocky ground, • seed and thorny ground, and • seed and good ground.

*Thinking for Yourself* Marlys Mayfield, 2004 Mayfield (College of Alameda) teaches both critical thinking and composition by emphasizing awareness of the personal thinking process in this text intended for use in English composition university transfer courses. For this sixth edition, about half of the readings are new, with literary excerpts as well as essays on current topics of controversy. Also new are Internet research exercises. Annotation (c)2003 Book News, Inc., Portland, OR (booknews.com).
