Jacobo Grinberg, Scientist and Shaman : Life, Work and Legacy Ricardo Motta /Kadavrshna, 2025-10-02 You're about to immerse yourself in the fascinating life of one of the most enigmatic and visionary thinkers of the twentieth century. Jacobo Grinberg: Scientist and Shaman - Life, Work and Legacy is more than a biography — it is a portal to new ways of understanding the mind, reality and consciousness. In this eye-opening ebook, we follow Grinberg's journey from his brilliant academic background to transformative encounters with ancestral spiritual traditions such as Mexican shamanism. We explore his boldness in proposing the Synergic Theory, a revolutionary model that unifies science, spirituality, and perception. The narrative unfolds in three parts: his life trajectory, the mystery of his disappearance and a fictional journey inspired by his concepts. With engaging language, a solid foundation, and a clear structure, the book guides the reader through complex concepts such as the Lattice, states of high brain coherence, multidimensional realities, and the boundaries between science and mysticism. Each chapter broadens the understanding of consciousness and invites deep reflection on the role of the human being in the cosmos. Ideal for those looking to expand their horizons, this book is an invitation to inner transformation. By following Grinberg, you will be prompted to rethink the nature of reality, spirituality, and the human mind. Readers of science, spirituality, psychology, quantum physics, and mysticism will find this ebook an essential guide—both intellectual and intuitive. Jacobo Grinberg mysteriously disappeared in 1994, but his ideas are still more alive than ever. This book is a bridge between his legacy and the future of human consciousness. Kadavrshna

Alice in Consciousland Amira Valle, Leah Attie, 2014-10-15 Neurophysiologist Jacobo Grinberg was directing some of the most groundbreaking scientific experiments in the field of consciousness anywhere in the world when he disappeared without a trace 20 years ago. Following his rule that Science is a method, not a viewpoint, Dr. Grinberg applied the most rigorous scientific and experimental procedures to the study of Shamanic trances, states of consciousness, telepathy, and shared consciousness. These experiments led to the development of the Synergic Theory of Mind, which may ultimately cause a paradigm shift in the scientific concept of consciousness and its place in the universe. A leading scientist has declared that Dr. Grinberg's experiments provided the first experimental proof of the existence of God, in the form of a quantum universal consciousness. Now, Leah Bella Attie and Amira Valle, two former students of Dr. Grinberg's Laboratory of

Human Communication at the Autonomous University of Mexico, have rescued a treasure trove of his unpublished scientific papers, which include the abstracts of his last and most important experiments. It is a fitting tribute to a modern genius. I have no doubt that, if he were alive, Jacobo Grinberg would receive the Nobel Prize.--Amit Goswami

The Neural Matrix Robert Stannage, 2025-09-28 What if everything you thought you knew about reality was wrong? Dr. Jacobo Grinberg was on the verge of the greatest scientific breakthrough in human history—proof that consciousness doesn't just observe reality, it actively creates it. His revolutionary research into the neural matrix promised to unlock humanity's hidden potential to reshape the world through the power of mind alone. Then he disappeared. Left behind were fragments of his groundbreaking experiments, cryptic notes about quantum consciousness fields, and a technology so powerful it could rewrite the fundamental laws of physics. Now, investigative Author, Robert Stannage, pieces together Grinberg's final days, following a trail of suppressed research and impossible phenomena that leads to a shocking truth: we are all living inside a reality that can be hacked. Discover the hidden science that governments don't want you to know. Learn the techniques that could transform your life—and possibly reality itself. But be warned: once you see the matrix, there's no going back.

Pachita (Spanish Edition) Jacobo Grinberg, Jacobo Grinberg-Zylberbaum, 2025-09-23 «JAMÁS ME IMAGINÉ, NI PODRÍA HABER ACEPTADO, QUE UNA PARTE DEL CEREBRO PUDIERA TRASPLANTARSE DE UN SER HUMANO A OTRO, PERO EL CASO ES QUE LO VI Y ESO ME TRASTORNÓ TAN PROFUNDAMENTE QUE TODAS MIS CONCEPCIONES PARAFISIOLÓGICAS CAMBIARON.» -J. G. Z. Bárbara Guerrero, mejor conocida como Pachita, fue una de las más poderosas y reconocidas chamanas de México. Famosa por realizar operaciones quirúrgicas con la ayuda de un simple cuchillo de monte y su sorprendente poder sobre la energía y la materia. Era capaz de hacer trasplantes de órganos, curar todo tipo de tejidos orgánicos e intervenir en la materia a su antojo. Aunque los procedimientos de la chamana pudieran parecer milagrosos e increíbles, en este libro Jacobo Grinberg explica --desde un enfoque científico y un concepto fundamental de la mecánica cuántica que se encuentra a lo largo de toda la obra del autor: la lattice, es decir, esa red estructurada de la que se

compone el espacio-tiempo tal y como lo conocemos-- que Pachita era capaz de transformar y modificar esa red gracias al control único que poseía sobre su campo neuronal y, aunque todos pueden llegar a desarrollar esa capacidad, pocos lo logran. En estas páginas, Jacobo Grinberg narra las experiencias que observó y vivió a lo largo de los años en los que trabajó junto con la chamana como un testigo curioso y sensible a otras formas de concebir la realidad.

The Source Field Investigations David Wilcock, 2012-07-31 Prepare yourself for a revealing tour through the most incredible scientific mysteries of the world with your guide David Wilcock, the New York Times bestselling author of *Awakening in the Dream*. More than two million people have seen David Wilcock's incredible tour of the 2012 prophecies in his Internet documentary, *The 2012 Enigma*. Now, he expands his vision with a cutting-edge investigation into alternative sciences with deep insights into what is coming in our immediate future. A stunning synthesis of hidden science and lost prophecies, *The Source Field Investigations* exposes DNA transformation, wormholes, ancient conspiracies, the Maya calendar, and a new model of galactic energy fields triggering mental, biological, and spiritual evolution. Unlike the apocalyptic viewpoints depicted in big-budget disaster films, Wilcock believes that 2012 will be a watermark for widespread acceptance of a greater reality—and here, he lays out the blueprints for such a Golden Age.

Nordic Magic Healing Yves Kodratoff, 2003 *Galdr* is a song or howling by which a poem written in runes is made active. Anthropological texts will often describe a healing ritual where the healer has been seen to mutter some indistinct words over the patient. This book gives these 'mutterings' back their true meaning and importance. It will also explain their rational value by clearly stating the root causes of the sickness, and explore their religious meaning. The poetry and creativity of these chants combine to form a very effective healing technique, albeit a very difficult one. Many of you will be familiar with karate's 'scream that kills', that came to us from the East. We will explore the 'scream (or song) that heals' called *galdr* by the Norse. In this book, *galdr* will be explored in two ways: by looking at a new interpretation of the famous Finish epic, *Kalevala*; and by considering pagan charms from various parts of the world, including two unexpected sources, those from Lithuania (not yet published) and those from Hildegard von Bingen (a German Christian visionary of the early twelfth century, whose charms were not considered to be Pagan). The *Kalevala* teaches us the twelve steps for physical healing, and the nine steps for healing mental illness. Old charms are used as a model for building new ones.

Space and Consciousness JACOBO. GRINBERG, 2025-03-19 In this work, psychologist Grinberg-Zylberbaum carries out a profound analysis of the process of the formation of consciousness and its relationship with the space to which the individual belongs. Drawing an analogy between consciousness and reality, the author explains how, as the latter expands,

consciousness is also modified. Throughout his work he shows how the nervous system transforms the undifferentiated energetic structure of space into neuronal codes, resulting in a particular consciousness. Likewise, this consciousness is constantly altered, either by contact with other men or by the interaction of the subject's own elements. This book in short terms, explain how The matrix works and how we create our reality with our brains NOTE: THIS BOOK HAS AROUND 676 PAGES, MIGHT BE HEAVY. El Cerebro Y Los Chamanes / The Mind and Shamanism Jacobo Grinberg-Zylberbaum, 2026-01-20 «LOS CHAMANES DE MÉXICO HAN LOGRADO DESPERTAR LA ACTIVACIÓN DE FUNCIONES COMPLEJAS EN SU CEREBRO DEBIDO A SU INTEGRIDAD Y CONGRUENCIA CON UNA SERIE DE ENSEÑANZAS DE LAS QUE SON HEREDEROS.» J. G. Z. El cerebro y los chamanes es parte de la colección Chamanes de México, una obra monumental de investigación tanto científica como antropológica en la que Jacobo Grinberg trabajó durante años. En este volumen, Grinberg explora con profundidad las intersecciones entre las funciones cerebrales y las experiencias chamánicas, basándose en los postulados de su teoría sintérgica. Con una mirada rigurosa pero abierta y sensible, plantea que la realidad no es una entidad fija, sino una construcción perceptual moldeada por la conciencia, una idea que pone en diálogo a la neurociencia con la sabiduría ancestral de los pueblos indígenas. En El cerebro y los chamanes Grinberg se atreve a cuestionar los límites de la ciencia moderna, sin renunciar a su rigor, para ofrecernos una obra original que rinde homenaje a los conocimientos milenarios que aún laten en la cultura mexicana.

Jacobo Grinberg, científico y chamán : Vida, obra y legado Ricardo Motta /Kadavrshna, 2025-10-04 Estás a punto de sumergirte en la fascinante vida de uno de los pensadores más enigmáticos y visionarios del siglo XX. Jacobo Grinberg: Científico y chamán - Vida, trabajo y legado es más que una biografía: es un portal a nuevas formas de comprender la mente, la realidad y la conciencia. En este libro electrónico revelador, seguimos el viaje de Grinberg desde su brillante formación académica hasta encuentros transformadores con tradiciones espirituales ancestrales como el chamanismo mexicano. Exploramos su audacia al proponer la Teoría Sinérgica, un modelo revolucionario que unifica ciencia, espiritualidad y percepción. La narración se desarrolla en tres partes: su trayectoria vital, el misterio de su desaparición y un viaje ficticio inspirado en sus conceptos. Con un lenguaje atractivo, una base sólida y una estructura clara, el libro guía al lector a través de conceptos complejos como el Entramado, estados de alta coherencia cerebral, realidades multidimensionales y los límites entre la ciencia y el misticismo. Cada capítulo amplía la comprensión de la conciencia e invita a una profunda reflexión sobre el papel del ser humano en el cosmos. Ideal para aquellos que buscan expandir sus horizontes, este libro es una invitación a la transformación interior. Al seguir a Grinberg, se sentirá impulsado a repensar la naturaleza de la realidad, la espiritualidad y la mente humana. Los lectores de ciencia, espiritualidad, psicología, física cuántica y misticismo encontrarán en este libro electrónico una guía esencial, tanto intelectual como intuitiva. Jacobo Grinberg desapareció misteriosamente en

1994, pero sus ideas siguen más vivas que nunca. Este libro es un puente entre su legado y el futuro de la conciencia humana. Kadakrshna

Acorns: Windows High-Tide Foghat Joshua Morris, 2013-01-23 Acorns delineates the future of humanity as a reunification of intellect with the Deep Self. Having chosen to focus upon ego (established securely by the time of Christ), much more beta brain wave development will destroy our species and others, which process has already begun. We create our own realities through beliefs, intents and desires and we were in and out of probabilities constantly. Feelings follow beliefs, not the other way around.
