Science Meets Politics: Machiavelli's Influence and the Birth of Political Science Gábor Almási, 2025-05-26 Machiavelli's early influence was more penetrating than has ever been believed, and this book explains why. The surprising answer leads the reader into the depths of the history of science, connecting Machiavelli's thought to new ways of thinking about experience, history, nature, and politics. Machiavelli's works resonated with readers not merely because of the political and moral questions they raised and answered, and this book argues that the ways in which Machiavelli engaged with these questions were of equal importance. His method reinforced the readers' own belief in the importance of an inductive and comparative approach, which relied on facts and numbers drawn from history and experience. An impressive book that, for a change, measures Machiavelli's writings not against 21st-century binary schemes, but rather against the knowledge categories and strategies of his 16th-century contemporaries and successors. Navigating skillfully among texts and authors both well-known and recondite, the author shows how the Florentine's ideas prompted and shaped a revolution in Western thought. William J Connell, Professor of History, Seton Hall University If you have ever wondered why Francis Bacon frequently quoted and lavished praise on Niccolò Machiavelli, this is the book for you. In it, Gábor Almási situates the latter with regard to the science of his time and shows that he was read initially in Italy, then in France, and finally in England as the exponent of an empiricism – divorced from theology, metaphysics, and morals – as pertinent to the study of the natural world as it is to the study of politics. The Italian Reformation Outside Italy Giorgio Caravale,2015-09-17 What was the legacy of the so-called Italian Reformation? What contribution did Italian humanism make to European developments in irenicism and religious tolerance? In *The Italian Reformation outside Italy*, Giorgio Caravale uses previously unpublished documents to reconstruct the life and intellectual career of Francesco Pucci (1543-1597). Educated in Renaissance Florence, Pucci found his vocation as a prophet in France during the Wars of Religion and embarked on a long period of peregrination, stopping off in Paris, London, Basle, Antwerp, Krakow and Prague before being imprisoned, tried and sentenced to death by the Roman Inquisition three years before Giordano Bruno. His doctrines were judged to be heretical by all religious confessions and his political proposal was a spectacular failure. Caravale presents a rich chapter of sixteenth-century European history whose main features are religious conflict, irenic tension, universalist aspirations and prophetic expectations. Essays in Ancient and Modern Historiography Arnaldo Momigliano,2022-12-22 Arnaldo Momigliano was one of the foremost classical historiographers of the twentieth century. This collection of twenty-one carefully selected essays is remarkable both in the depth of its scholarship and the breadth of its subjects. Moving with ease across the centuries, Momigliano supplements powerful readings of writers in the Greek, Jewish, and Roman traditions, such as Tacitus and Polybius, with writings that focus on later historians, such as Vico and Croce. Charmingly written and concise, these pieces range from review essays reprinted from the *New York Review of Books* to treatises on the nature of historical scholarship. *Essays in Ancient and Modern Historiography* is a brilliant reminder of Momigliano's profound knowledge of classical civilization and his gift for deftly handling prose. With a new Foreword by Anthony Grafton, this volume is essential reading for any student of classics or historiography.

Reimagining Mobilities across the Humanities Lucio Biasiori,Federico Mazzini,Chiara Rabbiosi,2023-01-31 Volume 2: Objects, People and Texts explores the movement of individuals and peoples and the circulation of material objects and

books and texts. Through a series of short chapters, mobility is employed as an elastic, inclusive and multifaceted concept across various disciplines to shed light on a geographically and chronologically broad range of issues and case studies. In doing so, the concept of mobility is positioned as a powerful catalyst for historical change and as a fruitful approach to research in the humanities and social sciences. Like its sister volume, this volume is edited and written by members of the Centre for Advanced Studies in Mobility and the Humanities (MoHu) at the Department of Historical and Geographical Sciences and The Ancient World (DiSSGeA) of the University of Padua, Italy. The structure of the book mirrors the Theories and Methods, and Ideas thematic research clusters of the Centre. Afterwords from leading scholars from other institutions synthesise and reflect upon the findings of each section. This volume, together with Volume 1: Theories, Methods and Ideas, makes a compelling case for the use of mobility studies as a research framework in the humanities and social sciences. As such, it will be of interest to students and researchers in various disciplines.
