Masks and Mirrors Bernard Rosen,2001-07-30 The author provides a careful explanation of the chameleon personality before delving into the special problems and obstacles (both real and perceived) that torment elite Xers, and examines their ways of dealing with these issues. He discusses how the chameleon personality comes into play with regard to conflict between generations, conflict between the genders, and conflict brought on by immigration and foreign competition. While Rosen's approach is primarily socio-psychological, he also provides historical background on issues of social change. This riveting examination sheds new light on the survival mechanisms employed by those who feel threatened by social changes, even as they participate in and benefit from them.--BOOK JACKET.
