*The Handbook of Diasporas, Media, and Culture* Jessica Retis, Roza Tsagarousianou, 2019-03-13 A multidisciplinary, authoritative outline of the current intellectual landscape of the field. Over the past three decades, the term 'diaspora' has been featured in many research studies and in wider theoretical debates in areas such as communications, the humanities, social sciences, politics, and international relations. The Handbook of Diasporas, Media, and Culture explores new dimensions of human mobility and connectivity—presenting state-of-the-art research and key debates on the intersection of media, cultural, and diasporic studies. This innovative and timely book helps readers to understand diasporic cultures and their impact on the globalized world. The Handbook presents contributions from internationally-recognized scholars and researchers to strengthen understanding of diasporas and diasporic cultures, diasporic media and cultural resources, and the various forms of diasporic organization, expression, production, distribution, and consumption. Divided into seven sections, this wide-ranging volume covers topics such as methodological challenges and innovations in diasporic research, the construction of diasporic identity, the politics of diasporic integration, the intersection of gender and generation with the diasporic condition, new technologies in media, and many others. A much-needed resource for anyone with interest in diasporic studies, this book: Presents new and original theory, research, and essays; Employs unique methodological and conceptual debates; Offers contributions from a multidisciplinary team of scholars and researchers; Explores new and emerging trends in the study of diasporas and media; Applies a wide-ranging, international perspective to the subject. **Strangers Within** Francisco Bethencourt, 2024-03-26 The New Christians, largely former Jews and Muslims who were forced to convert to Christianity in the 16th and 17th centuries, were both a persecuted group as well as an international

elite, and their story, argues Francisco Bethencourt, offers a fascinating and indispensable view into the period and the making of a global economy. In what is intended to be an authoritative and innovative book, the author will recount how the New Christians were a major force in structuring the Atlantic economy and reconstruct their involvement in trading system which ran from the Atlantic to the Indian Ocean. Their hybrid religious allegiances, situated as they were primarily between Judaism and Christianity, provide a unique case of cosmopolitanism in various parts of the world. New Christian business practices, forms of organisation and codes of behaviour linked intercontinental networks to local agencies. Their ability to resist religious persecution implied alliances at the highest levels of the Catholic Church and the Iberian monarchies. This book will provide entirely new perspectives for our understanding of cosmopolitanism, religious allegiances, political alliances and business history. The New Christian trading elite has been studied in a fragmentary way, compartmentalised in time and space; but it has never been the subject of comprehensive research over the long term, from the forced conversion of the Jews in Portugal in 1497 to the abolition of the distinction between New Christians and Old Christians in Portugal in 1773, spanning connections between Europe, Africa, Asia and the New World--
