Steve Backshall

Deep Blue Steve Backshall, 2023-09-21 Take a deep breath Steve Backshall was nine years old the first time he saw a shark, while on holiday with his family in Malaysia. It was the beginning of a life-long fascination with these 'lords of the sea', and the oceanic life around them. His career as one of the world's most popular naturalists and explorers has taken him to countless underwater places, many never before seen by others. And he's also been witness to the startling decline in fortune of our oceans' wild inhabitants over the past fifty years. Deep Blue is a book a lifetime in the making: a remarkable blend of memoir, travel, and marine and environmental science that takes us on an unforgettable tour of the many worlds of aquatic life: from underwater deserts and rainforests to the evolution of ocean heroes like the sea turtle and the Great White, from the genesis of ocean life to the rapidly declining state of white polar seas and coral reefs. It's both a love letter to our precious oceans and rallying cry for what we must do to save them.

Creating Island Resorts Brian King, 2002-06-01 This work studies tropical island resorts, the people who live and work there and the tourists who visit them. The author includes, but goes beyond the more commonly encountered marketing and economic analyses of resort destinations, by examining social, cultural, mythical, environmental, organizational and political dimensions.

Keywords for Travel Writing Studies Charles Forsdick, Zoë Kinsley, Kathryn Walchester, 2019-04-22 Keywords for Travel Writing Studies draws on the notion of the 'keyword' as initially elaborated by Raymond Williams in his seminal 1976 text Keywords: A Vocabulary of Culture and Society to present 100 concepts central to the study of travel writing as a literary form. Each entry in the volume is around 1,000 words, the style more essayistic than encyclopaedic, with contributors reflecting on their chosen keyword from a variety of disciplinary perspectives. The emphasis on travelogues and other cultural representations of mobility drawn from a range of national and linguistic traditions ensures that the volume has a comparative dimension; the aim is to give an overview of each term in its historical and theoretical complexity, providing readers with a clear sense of how the selected words are essential to a critical understanding of travel writing. Each entry is complemented by an annotated bibliography of five essential items suggesting further reading.

Ancient China's Myths and Beliefs Tony Allan,Charles Phillips,2011-12-15 This captivating volume mixes the myths of Ancient China with the beautiful art and history of the culture. The lavish color photographs bring the earliest achievements of the Chinese people into focus through the beliefs and mythology of one of the world's oldest civilizations. The strange stories, mystic rites, angry gods, vision quests, and magic symbols at the heart of Ancient China are crucial to understanding how the Chinese people have explained birth, death, creation, love, and other mysteries of life. Written in accessible language, even the most reluctant readers will submerge themselves in the history and mythology that this rich volume provides.

The Cambridge Companion to Margaret Atwood Coral Ann Howells,2006-03-30 Margaret Atwood's international celebrity has given a new visibility to Canadian literature in English. This Companion provides a comprehensive critical account of Atwood's writing across the wide range of genres within which she has worked for the past forty years, while paying attention to her Canadian cultural context and the multiple dimensions of her celebrity. The main concern is with Atwood the writer, but there is also Atwood the media star and public performer, cultural critic, environmentalist and human rights spokeswoman, social and political satirist, and mythmaker. This immensely varied profile is addressed in a series of chapters which cover biographical, textual, and contextual issues. The Introduction contains an analysis of dominant trends in Atwood criticism since the 1970s, while the essays by twelve leading international Atwood critics represent the wide range of different perspectives in current Atwood scholarship.

Marketing Communications in Tourism and Hospitality Scott McCabe,2010-08-31 The rapidly changing context of the modern tourism and hospitality industry, responding to the needs of increasingly demanding consumers, coupled with the fragmenting nature of the marketing and media environment has led to an increased emphasis on communications strategies. How can marketing communication strategies meet the changing and challenging demands of modern consumers, and maintain a company's competitive edge? *Marketing Communications in Tourism and Hospitality: concepts, strategies and cases* discusses this vital discipline specifically for the tourism and hospitality industry. Using contemporary case studies such as South African Tourism, Travelocity and Virgin Trains, it explains and critiques the practice and theory in relation to this industry. Combining a critical theoretical overview with a practical guide to techniques and skills, it illustrates the role that communications play in the delivery and representation of hospitality and tourism services, whilst developing practical

skills needed to understand, interpret and implement communications strategies within a management context. This systematic and cohesive text is essential reading for hospitality management students, and an invaluable resource for marketing practitioners in this growing area.

Tourism, Tradition and Culture David Harrison, 2020-11-18 David Harrison has contributed to the academic study of tourism over the last 30 years. This book brings together a collection of his published material that reflects the role played by tourism in 'development', both in societies emerging from Western colonialism and in societies previously part of the Soviet system. The overarching theme looks at how, promoted as a tool for development, tourism can lead to conflict between competing elites, but can also empower groups previously subject to constraint by traditional authorities. Tradition is intensely manipulatable and always reflects power relations. Such pressure on tradition is but one aspect of tourism's wider social impacts. This includes changes in economic and social structure, which, for many, constitute social problems that need to be addressed. At the same time, 'sustainability', though apparently a worthy aim, can be a problematic concept, especially when applied to 'traditional' cultures, and may conflict with such ideals as egalitarianism.
