**Area 51** Robert Doherty, 2001 The Holy Grail -- is it the key to a miracle ... or a terrifying truth? The Great Wall of China, the immense carvings on Easter Island, Egypt's pyramids, UFOs. What is the chilling connection? The answer, unearthed by an elite band of soldiers and scientists based at Area 51, is rewriting human history -- to include the aliens who shaped it! Now, in this heart-pounding novel, Area 51 personnel embark on a top secret search for the Holy Grail, a glittering artifact with the power to save the world ... or lead to its destruction. Special Forces officer Mike Turcotte has paid his dues in battle and in blood. Now assigned to Area 51, he fights the toughest enemy of his career: the alien race who arrived on earth millennia ago and have returned to claim the planet. Mike has dodged bullets and faced weapons of mass destruction to give humanity another day of reprieve. But when his lover, scientist Lisa Duncan, falls into evil hands, Mike must decide which prize means the most to him -- the woman he loves or the legendary Grail. It's a decision that could damn him ... or damn us all.

Area 51 Robert Doherty, 2003 It began at the dawn of history, when a darkness rose from deep within an Egyptian tomb. For thousands of years?long before earth was plunged into an intergalactic battle for its survival?four deathless creatures sowed seeds of destruction and chaos. Surviving on the spilled blood of warriors and innocents from ancient Greece to the ashes of Nazi Germany, the creatures have played a role in conflicts great and small. Now, bound by their common ancestry, separated by their own devious ambitions, and armed with mankind's own modern tools of destruction, the deathless ones know that their time has come?and they have been called together by one brilliant leader. His name is Nosferatu. His vision is to become a god on earth.--Amazon.com.

**Area 51: Legend** Robert Doherty, 2007-12-18 FROM THE TEMPLE OF SOLOMON TO THE MISTS OF AVALON—THEY WERE THERE. NOW THEY ARE OUR ONLY HOPE. They were born on a planet in the spiral arm of the Milky Way Galaxy. In a bloody revolution they became known as “godkillers”—two humans who led a revolt against the deathless race, the Airlia, and a plan to breed human foot soldiers for ceaseless intergalactic warfare. Now Donnchadh and Gwalcmai are on their way

to a planet called Earth, where the Airlia have forged a foothold in the land of Atlantis. For a man and a woman who have lost everything but each other, an incredible journey through history is about to begin. Spanning centuries and epochs, they will travel from the teeming streets of ancient Rome to Pharaoh's bloodied pyramids to the realm of King Arthur. Sustained by the mysterious technology of the Airlia, Donnchadh and Gwalcmai must safeguard one extraordinary golden grail, a heavy, bloodstained sword called Excalibur—and each other's lives. For while an unquenchable evil struggles to take hold of the planet, they are the watchers, waiting for the moment when humankind can wage its last battle for survival. From the Paperback edition.

**Lost Girls** Robert Doherty, 2007-08-21 Three seemingly unrelated crimes catch the eye of the Cellar, the ultrasecret cell introduced in *Bodyguard of Lies*. Operatives Grant and Neeley, along with profiler Susan Golden, discover that underneath this web of death, deceit, and revenge lies an even more shocking crime.

**Area 51** Robert Doherty, 2003 With the fate of Earth hanging in the balance, humans and aliens match wits in an all-out race for control of the ultimate secret, the location of the alien mothership, which could hold the key to humankind's survival, as the aliens gain possession of the Final Option Missile codes. Original.

The Citadel Robert Doherty, 2009-10-13 It was built to protect America. Now it could destroy the world. A pulse-pounding technothriller from the New York Times–bestselling author of *Section 8*. At the start of the Cold War, the greatest threat to America wasn't the Russians and the looming Communist threat. Rather, it was an elite organization bent on world domination, a group so powerful only nuclear weapons could safeguard against them. The CIA knew what these men were capable of, and in a last-ditch attempt to protect America against them, they built two high-security arsenals deep within the

earth—one declassified in the Nevada desert, and one heavily under wraps in Antarctica. For over fifty years, no one spoke of The Citadel, the fortress deep under the ice in Antarctica that held the most powerful weapon known to man—until the Organization returned, hellbent on destruction. Captain Jim Vaughn is a government agent known for performing missions no one else wants. So when an old colleague approaches him with an assignment, he can't refuse—even if the mission has been set in motion by a dead man's letter, found in Antarctica and dated 1949. The Citadel has been cracked, and the only man who can safeguard it is Vaughn. Nothing short of the fate of mankind rests on his shoulders.

That's What They Want You to Think Paul Simpson, 2012-03-01 An analysis of twenty-nine of the most famous theories, featuring assassinations, military operations, aliens, secret societies, and government conspiracies. Conspiracies. They happen every day. All it takes is a couple of people and a secret, nefarious plan. But then there are big conspiracy theories—the assassinations, cover-ups, and shadow governments that are endlessly debated on talk radio and the Internet. Are they real? Are they even possible? Or are they just plain paranoid? Paul Simpson has researched a wide variety of conspiracies, from those historically accepted to those that spark accusations of “being a part of it” if you disagree with their supporters. In reviewing these famous (and, in some cases, infamous) theories, *That's What They Want You to Think* does not start from the position of a believer or a debunker. In each case, Simpson makes up his own mind based on the evidence of primary documents—and some of his conclusions may surprise even the most dedicated conspiracy researcher. Straightforward and engaging, *That's What They Want You to Think* provides food for thought for both conspiracy buffs and skeptics. Novices and veteran researchers alike will debate the latest evidence and fresh takes on long-standing theories. Covering topics as diverse as the JFK assassination and faked moon landings, from the bombing of Pearl Harbor to Area 51 and the New World Order, Simpson makes you wonder if what you believe is real, possible, or paranoid. Praise for *That's What They Want You to Think* “This lively book looks at a variety of conspiracy theories—many well-known, others not so much—from a historical, investigative point of view. . . . Well worthwhile.” —Booklist

**Area 51 the Mission** Bob Mayer, 2014-12-16 Book 3 in the Area 51 series The bubonic plague was a trial run. Ebola was a dress rehearsal. The real destruction begins now, and, if the Airlia are successful, the result will be total annihilation of the

human race... Deep in the Amazon rain forest, villagers are falling to an unseen enemy-a brutal virus that inflicts plague-like symptoms and certain death. There's no cure for this Black Death, only the threat of imminent worldwide contagion. And the source, it seems, is not organic. Scientist Lisa Duncan and Special Forces officer Mike Turcotte suspect the Airlia. Now that Area 51 has been exposed and a fleet of the aliens' warships destroyed, the virus could be the Airlia's last weapon. Duncan and Turcotte believe the source of the virus-and possibly their salvation-may lie with a mysterious place called the Mission, where they hope to give humankind a chance at survival. But the battle has only begun...

**The Return of Planet-X** Jaysen Q. Rand,2007 The Return of Planet-X is an educational, informational source examining all aspects of this controversial subject including the record of X's Ancient Science of Prophecy, its Phantom Astronomy, Forbidden Archaeology and the Signs Of Its Approach. This book examines the history and prophecy of Earth's many cultures throughout the millennia and their voluminous references to the reality of X's periodic passages. The most current hypothesis used to examine X's next return through the solar system centers around the fact that X's extended orbit (approximately every 3,600 years -- first passing through the solar system then back out again), suggests that its 'destructive cycle' occurs in two phases. The 'first phase' begins with X's initial pass-through in 2009 separated by three years until its 'second phase.' This passage marks X's return leg back into deep space beginning again its 3,600-year-long trek through the heavens. X's last return visit through the solar system most likely coincided with the Hebrew's exodus from Egypt estimated around 1447 BC -- roughly 3,459 years ago. Did God somehow come to Moses' aid by staging a cosmic event that no one today understands? The Mayan Celestial Calendar Codex inexplicably ends 21 December 2012. According to ancient Mayan cosmology, 'time' as we know it on Earth will reach its climax on that date. Written across the scroll of time and space, the author believes Planet-X will first return in 2009 and again in 2012.

**Area 51 the Reply** Bob Mayer,2014-12-07 Book 2 in the Area 51 series When they uncovered the truth about Area 51, scientist Lisa Duncan and Special Forces officer Mike Turcotte revealed the secret history of decades of UFO sightings and extraterrestrial contact. But that history goes back much further than they could have possibly imagined... Hidden deep beneath the waters around Easter Island is a giant supercomputer called the Guardian, and it has just sent a message into outer space. When the reply comes, it will signal the execution of an alien plan millennia in the making; after five thousand years, they are coming back. But who are they and what do they want? As the extraterrestrials race toward Earth, Duncan and Turcotte must scramble across the globe, from the Rift Valley of Ethiopia to an ancient Chinese tomb, to determine the aliens' true intentions. If they fail, first contact with these visitors could mean last rites for the human race.
