Different Genres and Literary Elements in Jeanette Winterson's 'The Passion' Anne-Kathrin Wilde, 2009-07 Seminar paper from the year 2009 in the subject Didactics - English - Literature, Works, grade: 1,7, University of Bayreuth, course: Female Identities in the History of British Fiction, language: English, abstract: Jeanette Winterson's novels are a combination of history, fictional stories, fairy-tales and female romance. She has an experimental style which approaches many readers in particular women. The genre could be called post-modern fiction as it shows a lot of post-modern writing techniques such as intertextuality, parody, self-reflectivity and the rewriting of history. In this paper the different literary genres which Jeanette Winterson knows to combine should be presented by the example of the novel *The Passion*, written in 1987. Using literary devices, generic details should be analysed which make it possible to categorize *The Passion* according to the different

genres.

The Passion by Jeanette Winterson Roland Maxwell, 1990

Making Sense Ralf Hertel, 2005 Fiction is fascinating. All it provides us with is black letters on white pages, yet while we read we do not have the impression that we are merely perceiving abstract characters. Instead, we see the protagonists before our inner eye and hear their voices. Descriptions of sumptuous meals make our mouths water, we feel physically repelled by depictions of violence or are aroused by the erotic details of sexual conquests. We submerge ourselves in the fictional world that no longer stays on the paper but comes to life in our imagination. Reading turns into an out-of-the-body experience or, rather, an in-another-body experience, for we perceive the portrayed world not only through the protagonist's eyes but also through his ears, nose, tongue, and skin. In other words, we move through the literary text as if through a virtual reality. How does literature achieve this trick? How does it turn mere letters into vividly experienced worlds? This study argues that techniques of sensuous writing contribute decisively to bringing the text to life in the reader's imagination. In detailed interpretations of British novels of the 1980s and 1990s by writers such as John Berger, John Banville, Salman Rushdie, Jeanette Winterson, or J. M. Coetzee, it uncovers literary strategies for turning the sensuous experience into words and for conveying it to the reader, demonstrating how we make sense in, and of, literature. Both readers interested in the contemporary novel and in the sensuousness of the reading experience will profit from this innovative study that not only analyses the interest of contemporary authors in the senses but also pin-points literary entry points for the sensuous force of reading.

Written on the Body Jeanette Winterson, 2013-04-17 The most beguilingly seductive novel to date from the author of *The Passion* and *Sexing the Cherry*. Winterson chronicles the consuming affair between the narrator, who is given neither name nor gender, and the beloved, a complex and confused married woman. "At once a love story and a philosophical meditation." —New York Times Book Review.
