The Illusion of Life 2 Alan Cholodenko,2007 Collection of 16 essays on post-World War II animation in Japan and the United States, generated by The Life of Illusion, Australia's second international conference on animation, held in Sydney Mar. 3-5, 1995.

The Palgrave Handbook of Screen Production Craig Batty,Marsha Berry,Kath Dooley,Bettina Frankham,Susan Kerrigan,2019-11-15 This handbook is an essential creative, critical and practical guide for students and educators of screen production internationally. It covers all aspects of screen production—from conceptualizing ideas and developing them, to realizing and then distributing them—across all forms and formats, including fiction and non-fiction for cinema, television, gallery spaces and the web. With chapters by practitioners, scholars and educators from around the world, the book provides a comprehensive collection of approaches for those studying and teaching the development and production of screen content. With college and university students in mind, the volume purposely combines theory and practice to offer a critically informed and intellectually rich guide to screen production, shaped by the needs of those working in education environments where 'doing' and 'thinking' must co-exist. The Palgrave Handbook of Screen Production fills an important gap in creative-critical knowledge of screen production, while also providing practical tools and approaches for future practitioners.

The Mouse and the Myth Dorene Koehler,2017-04-24 Upholds "a Disney vacation as a religious experience . . . [offers] insightful arguments relating to the nature of play as well as Nietzschean philosophy" (Reading Religion). Rituals mark significant moments in our lives—perhaps none more significant than moments of lightheartedness, joy, and play. Rituals of

play are among the most sacred of any of the rites in which humanity may engage. Although we may fail to recognize them, they are always present in culture, providing a kind of psychological release for their participants, child and adult alike. Disneyland is an example of the kind of container necessary for the construction of rituals of play. This work explores the original Disney theme park in Anaheim as a temple cult. It challenges the disciplines of mythological studies, religious studies, film studies, and depth psychology to broaden traditional definitions of the kind of cultural apparatus that constitute temple culture and ritual. It does so by suggesting that Hollywood's entertainment industry has developed a platform for mythic ritual. After setting the ritualized "stage," this book turns to the practices in Disneyland proper, analyzing the patron's traditions within the framework of the park and beyond. It explores Disneyland's spectacles, through selected shows and parades, and concludes with an exploration of the park's participation in ritual renewal. "There is much to commend in Koehler's study . . . Surely, her work should encourage others to examine myth construction and sacred-secular rituals in popular culture."—H-Celebration

The Routledge Companion to American Film History Pamela Robertson Wojcik,Paula J. Massood,2025-02-12 Presenting new and diverse scholarship, this collection brings together original essays that explore American film history from a fresh perspective. Comprising an introduction and 34 chapters written by leading scholars from around the globe, and edited by Pamela Robertson Wojcik and Paula J. Massood, this collection offers discussions of the American film industry from previously unexplored vantage points. Rather than follow a chronological format, as with most film histories, this Companion offers a multiplicity of approaches to historiography and is arranged according to often underdeveloped or overlooked areas in American film, including topics such as alternate archives, hidden labor, histories of style, racialized technologies, cinema's material cultures, spectators and fans, transnational film production, intermedial histories, history in and about films, and the historical afterlives of cinema. An exciting collection for serious film studies students and scholars interested in new perspectives and fresh approaches to thinking about and doing American film history.

Tomart's Value Guide to Disney Animation Art Tom Tumbusch,Bob Welbaum,1998

Predicting Perceptions: Proceedings of the 3rd International Conference on Appearance Stefano Padilla,Mike J Chantler,Julie M Harris,Michael R Pointer,2012-05-03 Beauty is in the eye of the beholder, and appearance lies in the mind of the observer. The latter is playing an increasingly important role in nearly all of our buying decisions: it informs us as to the quality of an automobile cabin, the desirability of an iPhone, the handle of a woollen sweater - the list is endless.Given the exponential rise in internet commerce and the ubiquity of smart devices, the ability to predict buyers' perceptions formed

from interaction with digital media is maybe more important than those obtained by handling the real article.Thus, the science of appearance metrology is becoming increasingly critical. It concerns the development of methodologies, procedures, and equipment which allow us to predict observers' perceptions. The field is therefore highly multidisciplinary: physical measurement, psychophysics, media generation, image processing, statistics, and vision science.This book is a compilation of recent research relating to perception and appearance.

Before the Animation Begins John Canemaker,1996-11-15 Born from daydreams, meditations on color, character and form, and sheer inventiveness, Disney's pioneering animated films begin in the imagination of the inspired sketch artist. Now, for the first time ever, noted animation historian John Canemaker chronicles the lives and work of these artists, from the 1930s to the present, situating them in the history of modern art and analyzing their influence on the form. 300 illustrations.

Flash for the Real World Steve Street,2001 E-commerce case studies from one of the leading Flash developers. The Furniture.com Room Planner case study is worth the price of the book. This application has yet to be duplicated in the market due to its uniqueness and complexity. The accompanying CD contains every case study and source code. E-commerce Flash applications taught by a recognized leader in Flash site integration. This book showcases in-depth case studies directed to intermediate, advanced and professional Flash developers. The advanced case study will mention additional web technologies such as ASP, JavaScript and SQL Server but these technologies will not necessarily need to be fully understood by the reader. This book caters to intermediate to advanced Flash developers who are looking for insight about how to develop Flash animations and applications. They will also look to this book for the actual source code to the case studies showcased. Many of the potential readers will recognize the Furniture.com Room Planner application and purchase the book for this case study alone. Steve Street has a Bachelor of Fine Arts in Graphic Design and has been working in the creative

industry for 13 years and in the interactive arts for 8 years. For four years Steve was the Director of Interactive Services for a Cambridge, MA Internet consulting company. Steve also acted as Executive Producer and Director of Engineering for Furniture.com. Steve is now an independent consultant for his own company, Hookumu Interactive Solutions, developing highly interactive projects for a broad range of clients.
