**Siddappa N.Byrareddy**

Will to Live João Guilherme Biehl, 2007 *Will to Live* tells how Brazil, against all odds, became the first developing country to universalize access to life-saving AIDS therapies--a breakthrough made possible by an unexpected alliance of activists, government reformers, development agencies, and the pharmaceutical industry. But anthropologist João Biehl also tells why this policy, hailed as a model worldwide, has been so difficult to implement among poor Brazilians with HIV/AIDS, who are often stigmatized as noncompliant or untreatable, becoming invisible to the public. More broadly, Biehl examines the political economy of pharmaceuticals that lies behind large-scale treatment rollouts, revealing the possibilities and inequalities that come with a magic bullet approach to health care. By moving back and forth between the institutions shaping the Brazilian response to AIDS and the people affected by the disease, Biehl has created a book of unusual vividness, scope, and detail. At the core of *Will to Live* is a group of AIDS patients--unemployed, homeless, involved with prostitution and drugs--that established a makeshift health service. Biehl chronicled the personal lives of these people for over ten years and Torben Eskerod represents them here in more than one hundred stark photographs. Ethnography, social medicine, and art merge in this unique book, illuminating the care and agency needed to extend life amid perennial violence. Full of lessons for the future, *Will to Live* promises to have a lasting influence in the social sciences and in the theory and practice of global public health.

**Renegade Dreams** Laurence Ralph, 2014-09-15 An ethnographic study of the residents of a violent West Chicago neighborhood and how they cope from day to day. As with war, much of our focus on inner-city violence is on the death toll, but the reality is that far more victims live to see another day and must cope with their injuries—both physical and psychological—for the rest of their lives. *Renegade Dreams* is their story. Walking the streets of one of Chicago's most violent neighborhoods, Laurence Ralph talks to parents, grandparents, and pastors, to activists and gang leaders, to the maimed and the hopeful, to aspiring rappers, athletes, or those who simply want safe passage to school or a steady job. Seeking to understand how they cope, he ultimately shows that the injuries they carry are—like dreams—a crucial form of resilience. Praise for *Renegade Dreams* “A tour de force—extremely well written and engaging, and replete with original insights. Once I began reading Ralph's book, I had a difficult time putting it down. His field research is fascinating. And his explicit discussion of the interconnections of inner-city injury with government and community institutions, as well as how it is

related to historical and social processes, is a major contribution.” —William Julius Wilson, author of *The Truly Disadvantaged* “Ralph’s Chicago is peopled by characters we’ve seen before . . . but they breathe and bounce throughout his pages like more than just rehashed stock figures in some ongoing morality play about urban black pathology. Thoroughly researched and powerfully told, *Renegade Dream* is a paradigm-shifting anthropological rejoinder to popular stereotypes and scholarly cant about “inner-city violence,” its causes, and its aftermath.” —John L. Jackson Jr., author of *Thin Description* “Astounding in its clarity and groundbreaking in its power. . . . The textures and rhythms of Ralph’s realist narrative are charged with critical insight and transcendental significance, making ethnography into a work of art.” —João Biehl, author of *Vita* “Theoretically rich and superbly written, this book exposes what is hidden in plain sight: the full humanity of people whose lives are greater than the sum of their pain and peril.” —Khalil Gibran Muhammad, author of *The Condemnation of Blackness* “An elegant, poetic, and sympathetic look at a West Side Chicago neighborhood [Ralph] calls Eastwood. . . . Recommended for readers interested in contemporary urban neighborhoods and Chicago history. An absorbing read for those who enjoyed the blend of history and narrative in William Shaw’s *West Side: Young Men & Hip Hop in L.A.*” —Library Journal

*Enveloped Lives* Rima Praspaliauskiene, 2022-11-15 Handing envelopes containing money or gifts to doctors in public health care is often seen as a remnant of socialism that continues as an integral part of the Lithuanian health care system. Rima Praspaliauskiene uses the envelope to explore complex doctor-patient interactions that go beyond notions of the gift or the bribe. She reshapes our definition of corruption and encourages seeing these practices as emerging forms of care that impede the neoliberal health care reforms effected in the post-Soviet era. *Enveloped Lives* extends the analytical categories of gift, care, money, and transparency, shifting attention away from material transactions by prioritizing relations and practices that transcend economic rationality. At a time when health care reforms and the costs of care are being widely debated, this book is a contribution to the larger discussion about the ethics and future of health care around the world.

**International Law's Objects** Jessie Hohmann, Daniel Joyce, 2018-12-20 International law's rich existence in the world can be illuminated by its objects. International law is often developed, conveyed and authorized through its objects and/or their representation. From the symbolic (the regalia of the head of state and the symbols of sovereignty), to the mundane (a can of dolphin-safe tuna certified as complying with international trade standards), international legal authority can be found in the objects around us. Similarly, the practice of international law often relies on material objects or their image, both as evidence (satellite images, bones of the victims of mass atrocities) and to found authority (for instance, maps and charts). This volume considers these questions; firstly what might the study of international law through objects reveal? What might objects, rather than texts, tell us about sources, recognition of states, construction of territory, law of the sea, or international human rights law? Secondly, what might this scholarly undertaking reveal about the objects - as aims or

projects - of international law? How do objects reveal, or perhaps mask, these aims, and what does this tell us about the reasons some (physical or material) objects are foregrounded, and others hidden or ignored. Thirdly what objects, icons and symbols preoccupy the profession and academy? The personal selection of these objects by leading and emerging scholars worldwide, will illuminate the contemporary and historical fascinations of international lawyers. As a result, the volume will be an important artefact (itself an object) in its own right, capturing the mood of international law in a given moment and providing opportunity for reflection on these preoccupations. By considering international law in the context of its material culture the authors offer a new theoretical perspective on the subject.

**Imperial Debris** Ann Laura Stoler, 2013-05-10 Imperial Debris redirects scholarly focus away from ruins as evidence of the past to ruination as the processes through which imperial power occupies the environment, and bodies and minds, in the present.

**The Cambridge Companion to Human Rights Law** Conor Gearty, Costas Douzinas, 2012-11-22 Captures the essence of the multi-layered subject of human rights law in a way that is authoritative, critical and scholarly.

Subjectivity João Biehl, Byron J. Good, Arthur Kleinman, 2007-04-11 This innovative volume is an extended intellectual conversation about the ways personal lives are being undone and remade today. Examining the ethnography of the modern subject, this preeminent group of scholars probes the continuity and diversity of modes of personhood across a range of Western and non-Western societies. Contributors consider what happens to individual subjectivity when stable or imagined environments such as nations and communities are transformed or displaced by free trade economics, terrorism, and war;

how new information and medical technologies reshape the relation one has to oneself; and which forms of subjectivity and life possibilities are produced against a world in pieces. The transdisciplinary conversation includes anthropologists, historians of science, psychologists, a literary critic, a philosopher, physicians, and an economist. The authors touch on how we think and write about contingency, human agency, and ethics today.
