Translator and Interpreter Training John Kearns, 2008-05-12 As a research area, education in the fields of translation and interpreting has received growing attention in recent years, with the increasing professionalization of the language-mediation sector demanding ever more highly trained employees with broader repertoires. This trend is evidenced in the present collection, which addresses issues in pedagogy in a variety of translation and interpreting domains. A global range of contributors discuss teaching, evaluation, professionalization and competence as they apply to an array of educational and linguistic situations. *Translator and Interpreter Training: Issues, Methods and Debates* presents an in-depth consideration of the issues involved in this area of translation and interpreting studies, and will be of interest to all students and academics working and researching in the field.

Jurisdictional Battlefields Mario Graña Taborelli, 2024-09-20 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM. This book examines three expeditions by the Spanish to the borders of Charcas, a district that covers present-day Bolivia and the northwest of Argentina, in the second half of the sixteenth century, using an approach that has not been attempted until now. Scholarship on these events has framed them as part of a gradual top-down process of centralisation driven by the Crown to extend its power and build a colonial 'state' in the Americas. This book challenges that view, approaching the expeditions through an analysis of the political culture that underpinned them. It explores the events within the process of installation and consolidation of royal jurisdiction, understood here as the authority to establish law and deliver justice, in a remote area. This was a process achieved through coercion and violence, as well as negotiation and consensus, that involved both the Spanish and indigenous peoples, and that frequently created overlapping jurisdictions, via downscaling of politics and dispersal of power. Jurisdictional politics were decided and settled in battlefields and courts and involved the theatricalization of power, to make a distant monarch present, which, paradoxically, made such absence the more evident. The book is an invitation to re-dimension the scope of Spain's empire
