Lee G. Edwards

A Monograph on Albinism in Man Karl Pearson, Edward Nettleship, Charles Howard Usher, 1913

Deconstructing the Albino Other Niya Pickett Miller, 2020-11-03 Deconstructing the Albino Other: A Critique of Albinism Identity in Media discusses how American popular culture and communication about albinism, including movie characters and memes, have worked to create and maintain a negative trope of albinism that situates people with albinism (PWA) as a monolithic other. Niya Pickett Miller demonstrates that consequently, PWA must construct their own identities of albinism, highlighting the salient aspects of themselves as they see fit with no valid representation to look to for guidance. Thus, Pickett Miller argues, self-defining for PWA is a key rhetorical action taken to rearticulate albinism identity. Rather than focusing on scientific and medical lenses of analysis, this book positions albinism as a social construct through which a broader understanding of otherness can be achieved, using the negative influence of pop culture's otherization of PWA as a case study with broader implications, including how medical conditions can be visually troped to isolate the other outside of society's realm of normalcy. Scholars of media studies, race studies, sociology, rhetoric, and the medical humanities will find this book particularly useful.

Justice and Human Rights in the African Imagination Chielozone Eze, 2021-04-14 Justice and Human Rights in the African Imagination is an interdisciplinary reading of justice in literary texts and memoirs, films, and social anthropological texts in postcolonial Africa. Inspired by Nelson Mandela and South Africa's robust achievements in human rights, this book argues that the notion of restorative justice is integral to the proper functioning of participatory democracy and belongs to the moral architecture of any decent society. Focusing on the efforts by African writers, scholars, artists, and activists to build flourishing communities, the author discusses various quests for justice such as environmental justice, social justice, intimate justice, and restorative justice. It discusses in particular ecological violence, human rights abuses such as witchcraft

accusations, the plight of people affected by disability, homophobia, misogyny, and sex trafficking, and forgiveness. This book will be of interest to scholars of African literature and films, literature and human rights, and literature and the environment. The Black History Truth: Argentina Pamela Gayle, 2022-02-24 Reviewed by Daniel D Staats for Readers' Favorite - Five Stars. If you like history and/or geography, you will love *The Black History Truth: Argentina* by Pamela Gayle. The first part of this book is a great introduction to the land of Argentina and its history. Pamela covers the history of this South American country from before the Conquistadors came and destroyed the land as it was. Pamela goes back in history and explains the foundations of chattel slavery. She gives the common beliefs that are espoused by historians, then gives the darker side of the truth. She exposes the fallacies often found in Eurocentric history. Since whites were in charge, they wrote the history and shaded the facts to give credit to the whites instead of natives and Africans. Pamela makes sure to correct many fallacies and give a true accounting of history. In *The Black History Truth: Argentina* by Pamela Gayle, one learns the heretofore untold stories of the contributions of Africans to Argentina. Pamela wants to boost the usefulness of this book and does so by giving assignments at the end of each chapter. These assignments help the newly learned information to stick in the mind. Pamela does an excellent job of presenting a volatile subject calmly and respectfully. The facts in this book are backed up with the truth behind the myths that have been taught for centuries. One needs to have an open mind as one reads this book. Many of the facts presented by Pamela will be new to most readers. Remember, just because the information is new to you does not mean it is not correct. One refrain you will find in this book is: Yet, the truth is...

The Genesis of the Bible Shaka Saye Bambata Dolo, 2012-03-06 This book is about Christianity, Islam, Judaism, and how the Arabs and Europeans took these Afrikan Religious Belief Systems from ancient Egypt, North Afrika and used them during The Trans-Sahara Afrikan Slave Trade by the Arabs in the name of Allah, and followed by The Transatlantic Afrikan Slave Trade by the Europeans in the name of Jesus, to enslave the bodies, minds, and souls of the Afrikan Race. This book is about the Jesus Deception that has been passed on down through history by European historians, that is still being taught around the world today. This book takes a provocative intellectual, scholastic, historical, cultural, and sociological look at the Bible. This book identifies the names of the translators of the King James Bible of 1611 A. D., and when the chapters and verses in the Bible were created and who created them. The purpose of this book is to expose the historical, cultural, sociological, religious and theological lies of the Europeans and the Arabs. This book reveals the truth of the origination of The Bible, as There Is No Religion Higher Than The Truth. Join me in an intellectual odyssey through time. Here, I feel like a Lone Warrior standing before a mighty army. Come with me on this perilous pilgrimage as we travel through a parallel universe. I dedicate this book to my mother and father who gave me life. To the rest of my Native Afrikan family for

supporting me and encouraging me on this publishing venture. To the Heavenly Father, without whom none of this would be possible. There are others I would also like to thank for being a part of helping me through this journey called Life, such as my professors at the Alabama State University where many a great scholars paths I have crossed. To my American family and friends in Mobile, Alabama who nurtured and taught me from childhood to adulthood. The many friends and colleagues I met in my travels all across America in my intellectual journey, and last but certainly not least, to my publisher for granting me the opportunity to speak to many all around the world in this forum. I am eternally indebted to you all-Thank you.
